Comments received from the Housing Resource Fair (4/21/2025)

- Rental requirements should be protective without loopholes
- I think both plans are great for the tenants especially with increases here
- BMR waitlist priority point system is a good solution to displaced tenants
- I think Santa Clara County's poverty level is too high and I appreciate those fighting to stop the accelerated cost of living especially for long term residents
- We support the BMR anti displacement policies that are proposed
- I like the idea, this would be helpful
- Emiliano here, I think its awesome that you're doing this because the cost of moving is so high
- How much do global politics play a role in the upsurge of rent in California?
