# SANTA CLARA COUNTY FIRE DEPARTMENT

1315 Dell Avenue, Campbell, CA 95008 | (408) 378-4010 | SCCFD.org

December 12, 2025

Cupertino Public Safety Commission  
10300 Torre Avenue  
Cupertino, CA 95014

Subject: Public Safety Report for November 2025

To Whom It May Concern:

Santa Clara County Fire Department's November 2025 report for the City of Cupertino is enclosed.

Significant Events (Last Month): **C253130063 Structure Fire:** This was a first alarm structure fire in an apartment complex on Homestead Road. The fire was contained to the unit of origin with first alarm units. No injuries were reported.

**C253320073 Structure Fire:** This was a first alarm structure fire in an apartment complex on Beardon Drive. The fire was contained to the unit of origin with first alarm units. No injuries were reported.

**C253330045 Structure Fire:** This was a first alarm structure fire on Regnart Road involving a single-family residence. The fire was contained to the room of origin with no injuries reported.

The reports include the following charts / graphs:

1. Number of Incidents Year to Date: This bar graph represents the total YTD incident count for the current year (red) and for the past five years (gray) within the jurisdiction served.
2. Number of Incidents by Month: This line chart represents the total incident count by month, covering the last 36-months.
3. Number of Incidents by Hour of Day: This bar graph represents how the last 36-months of incidents were distributed by hour of day.
4. Number of Incidents by Type: This table provides the volume and percentage of incidents by category. This pie chart provides a breakdown of the number of incidents by category based on reporting party information, and the corresponding Emergency Fire/Medical Dispatch (EFD/EMD) protocol.
5. Performance benchmarks for fire apparatus responding to FIRE and EMS emergencies (measured for first arriving apparatus) within the jurisdiction served:

# SANTA CLARA COUNTY FIRE DEPARTMENT

1315 Dell Avenue, Campbell, CA 95008 | (408) 378-4010 | SCCFD.org

- a. *Call processing* – Measures the time from initiation of a 911 call to a dispatcher completing all caller questioning. *It's important to note, resources will be dispatched as soon as the dispatcher has sufficient information even though the call processing will continue as part of the EMD process.*
- b. *Turnout* – Measures the time from when a fire station receives an alert to “wheels turning.”
- c. *Total reflex* – Measures the time from initiation of a 911 call to the first fire apparatus arriving on scene.
- d. *Total reflex urban* – Measures the time from initiation of a 911 call to the first fire apparatus arriving on scene in areas with a population density exceeding 1,000 people per square mile.
- e. *Total reflex rural* - Measures the time from initiation of a 911 call to the first fire apparatus arriving on scene in areas with a population density less than 1,000 people per square mile.

6. Incidents by unit / average response time: This bar graph displays the number of incidents a fire apparatus (top five) responded to within the jurisdiction served along with the average response time for those units.
7. Community Education and Risk Reduction Activities: This table shows the total number of attendees, programs, and staff hours at educational events for the month.

Please let me know if you have any questions about the data contained in this report.

Sincerely,

A handwritten signature in blue ink that reads "Bill Murphy".

Bill Murphy  
Assistant Chief

# SANTA CLARA COUNTY FIRE DEPARTMENT

## MEMORANDUM

January 8, 2026

TO: A-Staff

FROM: Art Tomasetti, Assistant Chief/Administration & Planning

SUBJECT: New Public Safety Report

I would like to introduce the new public safety report for our Authorities Having Jurisdiction (AHJs), including our cities, towns, and unincorporated areas. Attached is an example of the updated PSRs.

This report is designed to assist you in sharing valuable data with your AHJs, while highlighting the growth, development, and opportunities County Fire provides to our communities. We hope these monthly reports offer a valuable opportunity to showcase our department's work through data and self-assessment, providing you with a meaningful tool for community engagement.

JANUARY 2026

# SANTA CLARA COUNTY FIRE DEPARTMENT

# NEWSLETTER

## MESSAGE FROM THE CHIEF

I would like to personally invite you to review our new Public Safety Report for our Authorities Having Jurisdiction (AHJs), including our cities, towns, and unincorporated areas. This report highlights the ongoing efforts across nearly every division as we continue refining our processes to meet operational goals and better serve the public.

Our priority remains helping our community by strengthening our capabilities, embracing innovation, and uphold the trust placed in us by the community. We hope these monthly reports provide a valuable opportunity to showcase our work, evaluate our operations through data and self-assessment, and offer you a meaningful tool to share with your community.

Respectfully,

Suwanna Kerdkaew  
Fire Chief

## THIS MONTH'S HIGHLIGHTS

### Santa Clara Valley Medical Center Toy Drive

On December 17, members of our department delivered toys to children at Santa Clara Valley Medical Center. Joined by the Santa Clara County Sheriff's Office K-9 Unit, firefighters helped deliver toys generously donated by the community to children spending the holiday season in the hospital.

### Growth and Expansion

With the support of the Board of Directors, the Santa Clara County Fire Department has acquired the former Camping World site in San Martin. This 10-acre property will support fleet maintenance, logistics, and training for our all-risk, all-hazards operations.

This long-term investment will serve the department and community for the next 30 to 50 years, strengthening current operations, supporting future growth, and reinforcing our commitment to safety and operational excellence.

### COMMITMENT TO SAFETY

County Fire has been committed to reducing harmful chemical exposure to our line personnel. Starting October 2025, all line safety personnel will be issued fully PFAS-free turnouts.

These custom-fit, next-generation turnouts will be delivered in the coming months.

Prioritizing the health and safety of our team is just as important as protecting the communities we serve.

### PFAS- Free Turnouts

# DECEMBER EVENTS

**December 2<sup>nd</sup>, Tuesday**

Our Vasona Crew joined Santa Clara County Parks staff for a collaborative fuels-reduction project along Stuart Ridge off Bohlman Road. Together, they cleared 100 feet from the roadway supporting the shaded fuel break designed with long-term forest and environmental health in mind. This includes supporting healthy levels of native plants, removing non-native vegetation, and addressing decades of accumulated dead and down material while preserving important habitat for nesting birds and local raptors.

Reintroducing low-intensity fire to the landscape is a natural and healthy step toward restoring balance in our forest ecosystems. This partnership highlights our shared commitment to wildfire resilience, ecosystem health, and the protection of our communities.

**December 15<sup>th</sup>, Monday**

Firefighters responded to a fire at the San Martin transfer station at 7:22am. Initial reports indicated a recycling load caught fire. Workers separated the burning refuse and began dousing it with water while a 9-1-1 call was made. Once on scene, Engine 67 from our Vineyard fire station reported fire had spread to parts of the nearby structure. Engine 67, Engine and Water Tender 68 (Masten), Battalion 68, Water Tender 69 (Treehaven), Engine and Hazmat 72 (Seven Springs), and Morgan Hill 58 responded. A Shelter in Place warning was issued in the immediate area (Zone SCC-159).

**December 19<sup>th</sup>, Monday**

Ten recruits successfully completed an intensive, week-long live fire training course. Throughout the week, they studied fire behavior and performed fire attack and search evolutions under live fire conditions. In addition to this hands-on training, the recruits, many of whom are already EMTs or paramedics, learned the protocols for operating within Santa Clara County.

The academy also includes additional modules covering high-rise and low-angle rescues, vehicle extrication, hazardous materials, and fires in high-rise buildings, residential homes, and the wildland-urban interface. Upon completion of the 20-week academy, recruits begin an 18-month probationary period, rotating through a variety of response areas to gain real-world, on-duty experience as new firefighters.

## Off- Duty Rescue

Fire Chief Suwanna Kerdkaew recently presented Fire Captain Eric Hafemann the Santa Clara County Fire Department Medal of Valor, our highest honor for acts of extraordinary heroism performed at great personal risk.

While off-duty and vacationing in Hawaii, Captain Hafemann encountered a swimmer drowning offshore. Without hesitation, he put his own safety aside and performed a challenging rescue that saved the individual's life. This extraordinary act of courage, performed thousands of miles from home, truly reflects the fire service oath and the unwavering dedication our firefighters carry with them every day, on duty or off.

## RECORD MANAGEMENT SYSTEM UPDATE

Santa Clara County Fire is switching from NFIRS (*National Fire Incident Recording System*) to NERIS (*National Emergency Response Information System*).

- Zero-cost access for fire departments, EMS agencies, and State Fire Marshal Offices ensuring that public safety agencies can adopt the system without financial barriers.
- Local data ownership guarantees departments retain full control of how their fire information is managed and shared.
- Built on a GIS foundation, geocoding incident data for location-based reporting and strategic planning.
- Actionable intelligence to enhance coordination and improve outcomes for fire-related incidents.

These improvements will enhance a data driven methodology to pursue the best way to help the community.

## Monthly Detailed Response Breakdown- EMS / Rescue incidents

1 Dec 2025 - 31 Dec 2025

**TOTAL RECORDS: 209**

### Total Response - Alarm to Arrived

- N/A (6% - 12)
- Under 4:00 (5% - 10)
- 4:00 - 6:00 (37% - 77)
- 6:01 - 7:00 (15% - 31)
- 7:01 - 9:00 (25% - 53)
- Over 9:00 (12% - 26)

### Alarm Processing - Alarm to Dispatch

- N/A (0% - 0)
- 0:00 - 1:00 (22% - 46)
- 1:01 - 1:30 (38% - 80)
- 1:31 - 2:00 (17% - 35)
- Over 2:00 (23% - 48)

### First Arrived Unit - Dispatch to Arrived

- N/A (6% - 12)
- 0:00 - 4:00 (31% - 65)
- 4:01 - 6:00 (37% - 78)
- 6:01 - 8:00 (19% - 39)
- 8:01 - 12:00 (5% - 10)
- Over 12:00 (2% - 5)

## Annual Response - EMS & Fire Incidents

### EMS response totals

#### Total Response - Alarm to Arrived

- N/A (5% - 141)
- Under 4:00 (9% - 258)
- 4:00 - 6:00 (35% - 1002)
- 6:01 - 7:00 (17% - 469)
- 7:01 - 9:00 (21% - 602)
- Over 9:00 (13% - 362)

1 Jan 2025 - 31 Dec 2025

**TOTAL RECORDS: 2834**

### Fire response totals

#### Total Response - Alarm to Arrived

- N/A (0% - 0)
- Under 4:00 (5% - 2)
- 4:00 - 6:00 (25% - 10)
- 6:01 - 7:00 (30% - 12)
- 7:01 - 9:00 (30% - 12)
- Over 9:00 (10% - 4)

1 Jan 2025 - 31 Dec 2025

**TOTAL RECORDS: 40**

Rescue	7	0.4%
Service	388	21.2%
<b>Total</b>	<b>1,830</b>	<b>100.0%</b>

### Number of Incidents Year to Date

Year Over Year - January to December

# COMMUNITY SAFETY

## Lithium-Ion Battery Safety

Lithium-ion batteries supply power to many kinds of devices including smart phones, laptops, e-scooters and e-bikes, e-cigarettes, smoke alarms, toys, and even cars. If not used correctly, or if damaged, these batteries can catch on fire or explode.

### The Problem

- These batteries store a large amount of energy in a small amount of space.
- Sometimes batteries are not used the right way; batteries not designed for a specific use can be dangerous.
- Like any product, a small number of these batteries are defective. They can overheat, catch fire, or explode.

### Safety Tips

- Purchase and use devices that are listed by a nationally recognized testing laboratory.
- Always follow the manufacturer's instructions.
- Only use the battery that is designed for the device.
- Only use the charging cord that came with the device.
- Do not charge a device under your pillow, on your bed, or on a couch.
- Do not keep charging the device or device battery after it is fully charged.
- Keep batteries at room temperature when possible. Do not charge them at temperatures below 32°F (0°C) or above 105°F (40°C).
- Store batteries away from anything that can catch fire.

### Signs of a Problem

Stop using the battery if you notice these problems: odor, change in color, too much heat, change in shape, leaking, or odd noises. If it is safe to do so, move the device away from anything that can catch fire. Call 9-1-1.

### Recycle Batteries Responsibly

Don't throw lithium-ion batteries in the trash or regular recycling bins because they could start a fire. Recycle your device or battery at a safe battery recycling location. Visit [call2recycle.org](http://call2recycle.org) to find a recycling spot near you.

### Charging an E-bike

Charge your battery in a flat, dry area away from children, direct sunlight, liquids, tripping hazards, and in a location where the e-bike is not at risk of falling.

New items from the holiday season bring a lot of joy into the new year. Make sure you follow manufacturers directions and only use the proper charging device that came with the product. Products can fail and fires can start with improper charging devices.

### For more resources check out:

[NFPA Hover Board Safety Sheet](#)  
[NFPA E-Bike and E-Scooter Safety](#)

### CHARGING AN E-BIKE:

Charge your battery in a flat, dry area away from children, direct sunlight, liquids, tripping hazards, and in a location where the e-bike is not at risk of falling.
