This bill would require an election for Orange County Board of Education that is determined by the plurality of the votes cast for that office, with no possibility of a runoff, and is consolidated with a statewide election to be consolidated with the statewide general election in November.

**Summary:** Current law requires a city or county to approve administratively applications to install solar energy systems through the issuance of a building permit or similar nondiscretionary permit. Current law requires every city, county, or city and county to develop a streamlined permitting process for the installation of small residential rooftop solar energy systems, as that term is defined. Current law prescribes and limits permit fees that a city or county may charge for a residential and commercial solar energy system. Current law creates the State Energy Resources Conservation and Development Commission (Energy Commission) in the Natural Resources Agency and prescribes its duties, which include administering programs for the installation of solar energy systems. This bill would require every city, county, or city and county to implement an online, automated permitting platform that verifies code compliance and issues permits in real time for a solar energy system, as defined, that is no larger than 38.4 kilowatts alternating current nameplate rating and an energy storage system, as defined, paired with a solar energy system that is no larger than 38.4 kilowatts alternating current nameplate rating.

**Summary:** Current law establishes a public school financing system that requires state funding for county superintendents of schools, school districts, and charter schools to be calculated pursuant to a local control funding formula, as specified, that includes average daily attendance as a component of that calculation for these local educational agencies. Current law requires the Superintendent of Public Instruction, on or before February 20 of each year, to make a first principal apportionment of funds and, on or before July 2 of each year, to make a 2nd principal apportionment of funds to each local educational agency. This bill would define "average daily membership" as the quotient of the aggregate enrollment days for all pupils in a school district, county office of education, or charter school, from transitional kindergarten to grade 12, inclusive, as applicable, divided by the total number of instructional days for the local educational agency in an academic year. The bill would require a local educational agency's average daily membership to be calculated using data from the same fiscal year or years that the local educational agency used to calculate its average daily attendance for purposes of state apportionment, as provided.

The act also prohibits a party, participant, or participant’s agent from making a contribution of more than \$250 to an officer of the agency during the proceeding and 3 months following the date a final decision is rendered.
