## ECONOMIC UPDATE

---

- After 43 days, Congress voted to end the longest shutdown in US government history. The end provided a short-lived rally in equity markets; while fixed income market participants, seeking economic clarity, continue to be frustrated by both the lingering effects of the shutdown and this week's hawkish comments from Fed policy makers. At the same time, heightened trade policy uncertainty has added to market volatility. Core levels of inflation remain above the Federal Reserve's target, while tariffs continue to cloud forecasts. Signs of a softer labor market are emerging, prompting expectations that the Fed will move cautiously toward policy normalization. Given the economic outlook, we expect gradual normalization of monetary policy and a steepening yield curve.
  
- The Federal Reserve lowered the Federal Funds Rate by a quarter percentage point to the range of 3.75-4.00% at the October Federal Open Market Committee meeting. While the move was in line with market expectations there were 2 dissenters, with Federal Reserve Governor Stephen Miran calling for a larger 50 basis point cut and Kansas City Federal Reserve President Jeffrey Schmid calling for no cut. Chair Jerome Powell referenced the weakening labor market despite some inflationary pressures and moderate economic growth.
  
- The US Treasury yield curve flattened in October, as the 2-year Treasury yield declined 3 basis points to 3.58%, the 5-year Treasury also down 5 basis points to 3.69%, and the 10-year Treasury yield declined 14 basis points to 4.08%. The spread between the 2-year and 10-year Treasury yield points on the curve decreased to +50 basis points at October month-end versus +54 basis points at September month-end. The spread between the 2-year Treasury and 10-year Treasury yield one year ago was +11 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was +26 basis points in October versus +21 basis points in September.

Nonfarm Payroll (000's)

Source: US Department of Labor

Unemployment Rate

Source: US Department of Labor

The September Nonfarm Payrolls (NFP) report, released on November 20 after a significant delay, came in stronger than expected with a gain of 119,000 jobs, well above the consensus estimate of 53,000. Job growth was led by healthcare and social assistance, as well as the leisure and hospitality sector. The nonresidential specialized construction industry also saw a notable uptick, likely driven by the expanding AI-related data center construction boom. Despite the solid job gains, the unemployment rate rose to 4.4% in September, the highest level since October 2021. The release of October NFP data has been delayed indefinitely.

## Job Openings

Source: US Department of Labor

The Labor Department's Job Openings and Labor Turnover Survey (JOLTS) showed a modest increase to 7.227 million new job openings in August from 7.2 million in July. The quits rate and layoffs remained relatively stable. Job openings indicate a ratio of approximately 1 job for each unemployed individual, representing a relatively balanced labor market.

Consumer Price Index (CPI)

Source: US Department of Labor

Personal Consumption Expenditures (PCE)

Source: US Department of Commerce

Despite the Federal Government shutdown, the Bureau of Labor Statistics released the Consumer Price Index (CPI) data for September on October 24th. Both headline and core measures came in below estimates. Headline CPI edged up 0.3% from August and 3.0% on an annual basis, while core CPI was up 0.2% from the prior month and 3.0% on an annual basis. The release was essential as third-quarter CPI data is used by the Social Security Administration to calculate the annual COLA, i.e. the cost-of-living adjustment. Other US Government data releases continue to be impacted by the shutdown.

Retail Sales YOY % Change

Source: US Department of Commerce

Consumer Confidence

Source: The Conference Board  
 All time high is 144.70 (1/31/00); All time low is 25.30 (2/28/09)

Advance Retail Sales showed continued strength jumping 0.6% in August as July data was also revised up to 0.6% month-over-month. The increase elevated retail sales to 5.0% on an annual basis after jumping 4.1% year-over-year in July. Back-to-school shopping was a likely catalyst as online shopping, clothing, and sporting goods saw some of the largest increases. Control group sales, which feed into GDP, also jumped 0.74% in August from the prior month. The Conference Board's Consumer Confidence Index declined by 1.0 point to 94.6 in October from an upwardly revised 95.6 in September, the lowest measure since April 2025. Measures of current conditions improved, including improving views on current job availability, while expectations weakened somewhat. Consumers have remained resilient, but rising debt burdens, higher delinquency rates, lingering inflation worries, and emerging signs of labor market cooling could weigh on future spending.

## Leading Economic Indicators (LEI)

Source: The Conference Board

## Chicago Fed National Activity Index (CFNAI)

Source: Federal Reserve Bank of Chicago

The Conference Board's Leading Economic Index (LEI) fell by 0.5% in August, following a 0.1% increase in July. The LEI decreased by 3.6% year-over-year. The Conference Board is expecting economic growth to slow in the second half of 2025 due to consumer pessimism, soft manufacturing new orders, and negative impacts from tariffs. The Chicago Fed National Activity Index (CFNAI) came in at -0.12% in August after a downwardly revised -0.28 in July, indicating that economic momentum remained below its historical trend for the fifth consecutive month. The three-month moving average shows a similar trend at -0.18 in August from -0.20 in the prior month signaling ongoing below-trend growth in national economic activity.

Annualized Housing Starts

Source: US Department of Commerce

S&amp;P/Case-Shiller 20 City Composite Home Price Index

Source: S&amp;P

Housing starts dropped 8.5% in August to 1.307 million units, marking a pullback amid elevated inventory levels and a softening labor market. Single-family starts fell 7.0% in August to 890,000 units, hitting their lowest level since July 2024. The S&P Cotality Case-Shiller 20-City Home Price Index fell 0.6% month-over-month in August and posted a 1.6% annual gain, the slowest increase in more than two years. Most major metros saw broad declines causing homeowners to face real wealth decline, while those same high price and mortgage rates continue to weigh on affordability for new buyers. The Freddie Mac 30-year fixed mortgage rate continued recent declines to 6.2% as of October.

Institute of Supply Management (ISM) Surveys

Source: Institute for Supply Management

U.S. manufacturing activity contracted for the eighth straight month in October, as the Institute for Supply Management’s manufacturing index slipped back to 48.7, matching August’s level after a modest uptick to 49.1 in September. Supply-chain-sourcing concerns stemming from tariff uncertainty continue to weigh on US factory activity. The services side of the economy showed more resilience. The ISM services index rose to 52.6 in October from 50.0 a month earlier, signaling a return to expansion. A clear factor for the uptick was a surge in new orders—up 5.8%—which was largely driven by demand from data centers and other sectors tied to the artificial-intelligence boom.

## GROSS DOMESTIC PRODUCT (GDP)

Components of GDP	9/24	12/24	3/25	6/25
Personal Consumption Expenditures	2.7%	2.6%	0.4%	1.7%
Gross Private Domestic Investment	0.2%	-1.3%	3.8%	-2.7%
Net Exports and Imports	-0.4%	-0.1%	-4.7%	4.8%
Federal Government Expenditures	0.5%	0.3%	-0.4%	-0.4%
State and Local (Consumption and Gross Investment)	0.4%	0.3%	0.2%	0.3%
<b>Total</b>	<b>3.4%</b>	<b>1.9%</b>	<b>-0.6%</b>	<b>3.8%</b>

Source: US Department of Commerce

Gross Domestic Product (GDP)

Source: US Department of Commerce

In a sharp rebound from the first quarter, real GDP increased at an annualized rate of 3.8% in the second quarter of 2025 according to the final data revision from the Bureau of Economic Analysis. The increase in real GDP in the second quarter was driven by the drop in imports following the significant rise in the first quarter in anticipation of higher tariffs and an increase in consumer spending. The consensus projection calls for 2.8% growth for the third quarter and 1.9% for the full year 2025.

Federal Reserve Balance Sheet Assets

Source: Federal Reserve

Effective Federal Funds Rate

Source: Bloomberg

The Federal Reserve lowered its benchmark interest rate by a quarter point to a range of 3.75% to 4.00% at its October meeting. There were two dissents to the rate decision, one from Federal Reserve Governor Stephen Miran in favor of a 50-basis point cut and the second from Kansas City Federal Reserve President Jeffrey Schmid who preferred to leave rates unchanged. Chair Jerome Powell referenced the weakening labor market despite some inflationary pressures and moderate economic growth. The Fed also announced the balance-sheet runoff program begun in June 2022 would conclude as of December 1, 2025. The Fed plans to replace Mortgage Backed securities paydowns with purchases of US Treasury Bills. Since the campaign launched, the Fed has reduced its securities holdings by about \$2.35 trillion, bringing the total down to roughly \$6.6 trillion.

## US Treasury Note Yields

Source: Bloomberg

## US Treasury Yield Curve

Source: Bloomberg

At the end of October, the 2-year Treasury yield was 60 basis points lower, and the 10-Year Treasury yield was 21 basis points lower, year-over-year. The spread between the 2-year and 10-year Treasury yield points on the curve decreased to +50 basis points at October month-end versus +54 basis points at September month-end. The prior 2-year/10-year yield curve inversion, which spanned from July 2022 to August 2024, was historically long. The average historical spread (since 2005) is about +99 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was +26 basis points in October versus +21 basis points in September.

## ACCOUNT PROFILE

---

### Investment Objectives

The City of Cupertino's investment objectives, in order of priority, are to provide safety to ensure the preservation of capital in the overall portfolio, provide sufficient liquidity for cash needs and a market rate of return consistent with the investment program.

### Chandler Asset Management Performance Objective

The performance objective for the portfolio is to earn a total rate of return through a market cycle that is equal to or above the return on the benchmark index.

### Strategy

In order to achieve these objectives, the portfolio invests in high quality fixed incomes securities consistent with the investment policy and California Government Code.

## IMPORTANT DISCLOSURES

City of Cupertino | As of November 30, 2025

2025 Chandler Asset Management, Inc, An Independent Registered Investment Adviser.

Information contained herein is confidential. Prices are provided by ICE Data Services Inc (“IDS”), an independent pricing source. In the event IDS does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance results are presented gross-of-advisory fees and represent the client’s Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Source ICE Data Indices, LLC (“ICE”), used with permission. ICE permits use of the ICE indices and related data on an “as is” basis; ICE, its affiliates and their respective third party suppliers disclaim any and all warranties and representations, express and/or implied, including any warranties of merchantability or fitness for a particular purpose or use, including the indices, index data and any data included in, related to, or derived therefrom. Neither ICE data, its affiliates or their respective third party providers guarantee the quality, adequacy, accuracy, timeliness or completeness of the indices or the index data or any component thereof, and the indices and index data and all components thereof are provided on an “as is” basis and licensee’s use it at licensee’s own risk. ICE data, its affiliates and their respective third party do not sponsor, endorse, or recommend chandler asset management, or any of its products or services.

This report is provided for informational purposes only and should not be construed as a specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

Ratings information have been provided by Moody’s, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities (“MBS”) reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest.

**BENCHMARK DISCLOSURES**

City of Cupertino | Account #10659 | As of November 30, 2025

Benchmark	Disclosure
ICE BofA 1-5 Yr US Treasury & Agency Index	The ICE BofA 1-5 Year US Treasury & Agency Index tracks the performance of US dollar denominated US Treasury and nonsubordinated US agency debt issued in the US domestic market. Qualifying securities must have an investment grade rating (based on an average of Moody's, S&P and Fitch). Qualifying securities must have at least one year remaining term to final maturity and less than five years remaining term to final maturity, at least 18 months to maturity at time of issuance, a fixed coupon schedule, and a minimum amount outstanding of \$1 billion for sovereigns and \$250 million for agencies.
