INTERIM ORDINANCE NO. 21-2235

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF CUPERTINO ADDING OR AMENDING CUPERTINO MUNICIPAL CODE SECTIONS 18.20.170, 19.08.030, 19.12.030, 19.12.110, 19.28.040, 19.28.050, 19.28.110, 19.28.150, 19.28.170, 19.40.050, 19.40.060, 19.40.090, AND 19.112.060 TO ADOPT STANDARDS FOR MINISTERIAL APPROVAL OF DUPLEXES AND LOT SPLITS IN SINGLE-FAMILY RESIDENCE DISTRICTS

SECTION I: PROJECT DESCRIPTION

Application No.:

MCA-2021-005

Applicant:

City of Cupertino

Location:

Single-Family Residential Districts Citywide

SECTION II: RECITALS

WHEREAS, on September 16, 2021, Governor Newsom signed into law Senate Bill 9 ("SB 9"), an act to amend Section 66452.6 of, and to add Sections 65852.21 and 66411.7 to, the Government Code, relating to land use; and

WHEREAS, SB 9 require a proposed housing development containing no more than two residential units within a single-family residential zone to be considered ministerially, without discretionary review or hearing, if the proposed housing development meets certain requirements; and

WHEREAS, SB 9 further require a local agency to ministerially approve a parcel map for a lot split for a parcel in a single-family residential zone that meets certain requirements; and

WHEREAS, SB 9 authorizes local jurisdictions to apply objective zoning standards, objective subdivision standards, and objective design standards, subject to certain limitations in statute, and provides that these standards may be embodied in alternative objective land use specifications adopted by a local agency; and

WHREAS, prior to SB 9 taking effect on January 1, 2022, the City Council wishes to adopt objective standards for the approval of housing development projects and parcel maps that are protective of the health, safety, peace, morals, and general welfare of Cupertino residents and consistent with the requirements of State law; and

WHEREAS, the implementation of SB 9 without standards for the ministerial approval of development projects and lot splits would create a current and immediate threat to the

Ordinance No. 21-2235

Page 2

public health, safety, or welfare, and therefore the City Council wishes to adopt an interim ordinance that will allow for the orderly and effective implementation of SB 9.

SECTION III

NOW, THEREFORE, BE IT ORDAINED:

That after careful consideration of facts, exhibits, testimony and other evidence submitted in this matter the City Council hereby adopts the Ordinance based on the findings described below, the public hearing, and the record, as follows:

- Section 1. The recitals set forth above are true and correct and are hereby incorporated herein by this reference as if fully set forth in their entirety.
- Section 2. The City Council finds the following as set forth by Municipal Code Sections 19.152.020C and 19.152.030D:
- 1. That the proposed zoning is in accord with Title 19 of the Municipal Code and the City's Comprehensive General Plan (Community Vision 2040) and the proposed amendments are internally consistent with Title 19 of the Municipal Code.

The proposed amendments have been adopted in accord with the requirements of Title 19, and are proposed to implement SB 9 in a manner that is consistent with the requirements of the City's General Plan and internally consistent with Title 19.

2. The proposed zoning is in compliance with the provisions of the California Environmental Quality Act (CEQA).

Under Government Code Sections 66411.7(n) and 65852.21(j), an ordinance adopted to implement the requirements of SB 9 shall not be considered a project under CEQA. The proposed ordinance is therefore exempt from CEQA.

3. The site is physically suitable (including, but not limited to, access, provision of utilities, compatibility with adjoining land uses, and absence of physical constraints) for the requested zoning designation(s) and anticipated land use development(s).

The proposed ordinance amendments are not being applied to any specific site, nor is it reasonably foreseeable which specific sites may elect to utilize the proposed ordinance amendments.

- 4. The proposed zoning will promote orderly development of the City.

 The proposed ordinance is intended to promote the orderly implementation of development permitted under SB 9.
- 5. That the proposed zoning is not detrimental to the health, safety, peace, morals and general welfare of persons residing or working in the neighborhood of subject parcels.

Ordinance No. 21-2235 Page 3

The proposed ordinance amendments are not being applied to any specific site, nor is it reasonably foreseeable which specific sites may elect to utilize the proposed ordinance amendments. The proposed ordinance will regulate the development of projects in single-family residential districts authorized under SB 9 to protect the health, safety, peace, morals and general welfare of persons residing in those districts.

- <u>Section 3</u>. The City Council hereby approves the following amendments to the Cupertino Municipal Code:
 - 1. Add a new Section 18.20.170 of the Cupertino Municipal Code to read as follows:

18.20.170 Ministerial Approval of Urban Lot Splits.

- A. The Director of Community Development shall ministerially approve a parcel map application for an urban lot split if it meets the requirements of Government Code Section 66411.7 and conforms to all applicable objective requirements of the Subdivision Map Act (commencing with Government Code Section 66410). No public hearing shall be required. Notice shall be provided to adjacent property owners (including those across any public or private street) fourteen days prior to any action on the proposed project. The decision of the Director of Community Development shall be final.
- B. The Director of Community Development shall require an urban lot split pursuant to this section to comply with objective zoning standards, objective subdivision standards, and objective design review standards applicable to the parcels created by pursuant to this Section, to the extent that such standards do not conflict with Government Code Section 66411.7, including but not limited to the objective subdivision standards in Paragraph G.
- C. Notwithstanding Paragraph A, the Director of Community Development may deny an urban lot split proposed pursuant to this Section, if the Building Official makes a written finding, based upon a preponderance of the evidence, that any housing development project proposed in connection with the lot split would have a specific, adverse impact, as defined and determined Section Government Code Section 65589.5(d)(2), upon public health and safety or the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact.

- D. In addition to any other conditions established in accordance with this Section, the Director of Community Development may require any of the following conditions when considering an application for a parcel map for an urban lot split pursuant to this Section:
- 1. Easements required for the provision of public services and facilities.
- 2. A requirement that the parcels have access to, provide access to, or adjoin the public right-of-way.
- E. Any lot created pursuant to this Section shall be limited to residential uses.
- F. Grading. Grading activity shall not result in a change in the natural grade by more than 6-inches from existing natural grade, as demonstrated by a grading and drainage plan prepared by a registered civil engineer, unless required to by the City Engineer;
- G. An applicant for a lot split shall provide proof that the property has not been occupied by a renter in the three years preceding the application to the satisfaction of the Director of Community Development.
- H. An applicant for a lot split pursuant to this Section shall sign an affidavit stating that the applicant intends to occupy a housing unit on one of the lots created as their principal residence for a minimum of three years from the date of the approval of the urban lot split; provided, however, that this Paragraph shall not apply to an applicant that is a community land trust, as defined in Revenue and Taxation Code Section 402.1(a)(11)(C)(ii), or is a qualified nonprofit corporation, as described in Revenue and Taxation Code Section 214.15.
- I. Objective Subdivisions Standards for Ministerially Approved Lot Splits. In addition to any applicable objective subdivision standards in this Title or the Subdivision Map Act and the requirements of Government Code Section 66411.7, a lot split approved pursuant to this Section must comply with the objective subdivision standards to the maximum extent permissible under Government Code Section 66411.7, including but not limited to objective standards for ministerial lot splits set forth in Sections 19.28.050 and 19.40.050.
- J. This Section shall remain in effect until such time as Government Code Section 66411.7 is repealed or superseded or its requirements for

ministerial approval of lot splits are materially amended, whether by legislation or initiative, or are held to be unenforceable by a court of competent jurisdiction, at which time this Section shall become null and void.

2. Amend or add the following definitions in Section 19.08.030 of the Municipal Code to read as follows:

<u>"Bay window" means a projecting window element that is not an</u> <u>extension of the floor area and does not incorporate any useable space</u> <u>for seating or other purposes.</u>

"Duplex" means a buildingresidential development, on a lot under one ownership, containing not more than two kitchens, designed and used as two <u>attached or detached primary</u> dwelling units, of comparable size independent of each other.

"Floor area" means the total area of all floors of a building measured to the outside surfaces of exterior walls, and including the following:

- 1. Halls;
- 2. Base of stairwells;
- 3. Base of elevator shafts;
- 4. Services and mechanical equipment rooms;
- 5. Interior building area above fifteen feet in height between any floor level and the ceiling above;
- 6. <u>Residential Bbasements in the A, A1, R1 and RHS zoning districts</u> with lightwells that do not conform to Section 19.28.070(I);
- <u>7. Residential basements in the R1 and RHS zoning districts on projects pursuant to Government Code section 65852.21</u>
 - 8. Residential garages;
- 9. Roofed arcades, plazas, walkways, porches, breezeways, porticos, courts, and similar features substantially enclosed by exterior walls;
 - 10. Sheds and accessory structures.

__Floor area_ shall not include the following:

- 1. <u>Residential</u> Bbasements <u>in the R1 and RHS zoning districts</u> with lightwells that conform to Section 19.28.070(I);
 - 2. Required Llightwells;
 - 3. Attic areas;
- 4. Parking facilities, other than residential garages, accessory to a permitted conditional use and located on the same site;
- 5. Roofed arcades, plazas, walkways, porches, breezeways, porticos, courts and similar features not substantially enclosed by exterior walls.

"Gable end" means the exterior wall that supports pitched roofs and is generally triangular in shape.

"Lot" means a parcel or portion of land separated from other parcels or portions by description, as on a subdivision or record of survey map, or by metes and bounds, for purpose of sale, lease or separate use.

- 1. "Corner lot" means a lot situated at the intersection of two or more streets, or bounded on two or more adjacent sides by street lines.
- 2. "Flag lot" means a lot having access to a street by means of a private driveway or parcel of land not otherwise meeting the requirement of this title for lot width.
- 3. "Interior lot" means a lot other than a corner lot.
- 4. "Key lot" means the first lot to the rear of a corner lot, the front line of which is a continuation of the side line of the corner lot, and fronting on the street which intersects or intercepts the street on which the corner lot fronts.
- 5. "Pie-shaped lot" means an interior lot where the front lot line abuts a cul-de-sac, is 20% or more shorter than the rear lot line or the lot has five or more lot lines.

"Substantially enclosed" means an area that is covered by a roof or ceiling that is not more than 50% open to the sky/elements and surrounded by solid barriers that are six inches or taller on three sides. Solid barriers do not include open railings that are no taller than 42

Page 7

inches, decorative arches or trellises. Railings and trellises shall have a visual transparency of more than 50%.

3. Amend Section 19.12.030 Approval Authority, subsection R-1 Ordinance Permits to add the following:

Type of Permit or Decision A, B	Adminis trative Review	<u>Design</u> <u>Review</u> <u>Committee</u>	Planning Commission	<u>City</u> <u>Council</u>	Public Hearing/ Public Meeting/ Comment Period C	Noticing Radius ^D	SITE	Expira tion Date E	Chapter/ Findings
<u>Miscellaneous</u> <u>Ministerial</u> <u>Permit</u>	<u>F</u>	<u>=</u>	<u>=</u>	i =	<u>None</u>	Adjacent	<u>Yes</u>	1 year	<u>19.28.150</u>

4. Amend Section 19.12.030 Approval Authority, subsection R-1 Ordinance Permits to add the following:

Type of Permit or Decision A, B	Adminis trative Review	<u>Design</u> <u>Review</u> <u>Committee</u>	<u>Planning</u> <u>Commission</u>	<u>City</u> <u>Council</u>	Public Hearing/ Public Meeting/ Comment Period C	Noticing Radius ^D	Posted Site Notice	Expira tion Date ^E	Chapter/ Findings
<u>Miscellaneous</u> <u>Ministerial</u> Permit				Not	allowed				

- 5. Amend Section 19.12.110F of the Cupertino Municipal Code to read as follows:
 - F. Posted Site Notice:
 - 1. Applicants shall install notice(s) on the subject site that is/are clearly visible and legible from the right-of-way in accord with the requirements of Table 19.12.030.
 - a. Applicants must install a site notice in the front yard of the subject site.
 - b. For all applications other than Two Story Permits,
 Residential Design
 Review, <u>Miscellaneous Ministerial Permits</u>, and
 Tree Removal applications in R1 or R2 zones, if the

- subject site has more than one property line abutting a street, the applicant may be required to install more than one notice.
- 2. The notice shall be a weatherproof sign, firmly attached to 5 foot tall posts and:
 - a. For Two Story Permits, Residential Design Review, <u>Miscellaneous Ministerial Permits</u>, and Tree Removal applications in R1 or R2 zones, shall be at least 2 feet tall and 3 feet wide.
 - b. For all other applications that need a site notice, shall be at least 4 feet tall and 6 feet wide.
- 3. The notice shall be placed at least 14 days prior to the decision/public hearing and shall remain in place until an action has been taken on the application and the appeal period, if any, has passed.
- 4. The notice shall contain the following:
 - a. The exact address of the property, if known, or the location of the property, if the address is not known;
 - A brief description of the proposed project, the content of which shall be at the sole discretion of the City;
 - c. City contact information for public inquiries;
 - d. A deadline for the submission of public comments;
 - e. If proposing a physical alteration to an existing building or new buildings, at least one of the following visual representations of the proposed project:
 - i. A color perspective drawing or threedimensional (3-D) photographic simulation of the proposed project, in a size deemed appropriate by the Director of Community Development.
 - ii. For Two Story Permits, Residential Design Review <u>Permit</u>, and <u>Miscellaneous Ministerial</u> <u>Permit</u> applications, a color or black and white perspective drawing or three-dimensional (3-D) photographic simulation of the proposed project, at least 11 inches by 17 inches in size.

- iii. Visual Representation is not required for applications that do not have a material change in the physical appearance of the property.
- 6. Amend Section 19.28.110 of the Cupertino Municipal Code to add a new subsection G as follows:
 - G. Miscellaneous Ministerial Permit: For projects requiring notice of a Miscellaneous Ministerial Permit, notice shall be mailed in accord with subsection 19.12.110A(4) and posted on the property, fourteen calendar days prior to the date of action on the application.
- 7. Amend Section 19.28.170 of the Cupertino Municipal Code to read as follows:
 - A. An appeal may be filed by any person, firm or corporation aggrieved or affected by any grant, denial, modification or revocation of any permit, or any determination or interpretation related to any provision of this title. <u>No appeal of a Miscellaneous Ministerial Permit shall be allowed.</u>
- 8. Amend Section 19.28.040 of the Cupertino Municipal Code to read as follows:

Planning permit required prior to building permit application	Approval authority	Type of Project
A.None		One story single family project that does
A.None		One-story <u>single-family</u> project that does not require exception or variance from the
*		requirements of this ordinance
B. Minor Residential Permit,		1. One-story encroachment into a
pursuant to Chapter 19.12,		required rear yard setback, subject to
Administration		requirements of Section 19.28.070
	Admin.	2. One-story extension of an existing side
		yard nonconforming building wall
*		line, subject to requirements of Section
	11	19.28.100 in all districts except R1-a

Code Section	,				
64411.7			,		

Notes:

¹ Lots, which contain less area than required by its zoning designation, but not less than 5,000 square feet, may nevertheless be used as building sites, provided that all other applicable requirements of this title are fulfilled.

² Maximum grading quantity includes grading for the building pad, yard areas, driveway, and all other areas requiring grading, but does not include basements. The graded area shall be

Page 16

limited to the building pad area to the greatest extent possible. Grading quantities for multiple driveways are divided equally among the participating lots, e.g. two lots sharing a driveway will divide the driveway grading quantity in half. The divided share will be charged against the grading quantity allowed for that lot development.

- ³ All cut and fill areas shall be rounded to follow the natural contours and planted with landscaping that meets the following requirements:
 - i. A landscape plan shall be prepared that addresses measures to prevent soil erosion and to screen cut and fill slopes.
 - ii. A tree planting plan shall be prepared for the site which will screen grading areas, and residential structures, to the greatest possible extent, as well as to reintroduce trees on barren slopes which were denuded by prior agricultural activities.
- iii. Landscape improvements shall meet the requirements as established in the Landscape Ordinance, Chapter 14.15.
- iv. Landscape improvements shall be installed prior to final occupancy unless such installation is impracticable, in which case, the applicant shall post a bond, cash, or other security to ensure installation within an 18-month period from occupancy. All such landscape areas shall be properly maintained.
 - 10. Add a new Section 19.28.150 of the Cupertino Municipal Code to read as follows:

19.28.150 Ministerial Approval of Up to Two Units.

- A. Issuance of Miscellaneous Ministerial Permit. The Director of Community Development shall ministerially approve up to two residential units on a parcel in an R-1 single-family residence district or R-1 zoned Planned Development Zoning District if the proposed housing development meets the requirements of Government Code Section 65852.21 and complies with all applicable objective zoning standards, objective subdivision standards, and objective design review standards.
- B. The Director of Community Development shall impose all objective zoning standards, objective subdivision standards, and objective design review standards in the Municipal Code, General Plan, any applicable specific plan, and other objective land use specifications that do not conflict with the requirements of Government Code Section 65852.21, including but not limited to the objective zoning and design standards in Paragraph E.
- C. Notwithstanding Paragraph A, the Director of Community Development may deny a housing development project proposed under this Section if the Building Official makes a written finding, based

upon a preponderance of the evidence, that the proposed housing development project would have a specific, adverse impact, as defined and determined in Government Code Section 65589.5(d)(2), upon public health and safety or the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact.

D. Application and Fees. An application on a form made available by the City shall be completed by the applicant. The form shall be accompanied by a fee that the City Council may adopt by resolution to sufficiently recover the cost of administering the requirements of this section. The application shall be accompanied by all technical reports, plans and information required to make a determination on the proposed project.

E. Objective Zoning and Design Standards for Ministerially Approved Housing Development Projects in the R-1 District. In addition to any applicable objective zoning standards, objective subdivision standards, and objective design review standards in the Municipal Code, a housing development project approved pursuant to this Section must comply with all applicable objective zoning and design standards to the maximum extent permissible under Government Code Section 65852.21, including but not limited to the following standards for ministerial development projects:

1. <u>Development</u>
<u>Standards</u>
(Gov. Code, §
65852.21)

- a. Except as otherwise provided herein, units shall not exceed 800 square feet per unit and shall comply with Paragraph B.
- b. The floor area of the larger unit in a duplex development proposed pursuant to this Section shall be no more than 200 square feet greater than the smaller unit of the duplex development.
- c. Notwithstanding subparagraph (a), a duplex developed pursuant to this Section may have a Floor Area Ratio of up to 45% of the net lot area, plus an additional 5% for roof overhangs, patios, porches, and other similar features not Substantially Enclosed, if it complies with the requirements of

	Paragraph B and subparagraphs 2 through 16 of this Paragraph; provided, however, that a housing development project on a lot having a slope 30% or greater shall not exceed the floor area allowed under Chapter 19.40. However, under no circumstances shall the size of any ministerially approved unit exceed 2,000 square feet. d. If proposing a two unit development, no more than 25% of the existing exterior walls of an existing unit shall be demolished unless the site has not been occupied by a tenant in the last three years. e. If no dedication was required for creation of the lot, the project shall include a dedication to accommodate the predominant public right of way, as determined by the City Engineer, abutting the corresponding lot line and frontage improvements, including curb, gutter and sidewalk shall be installed by the applicant.
2. Second to	a. The ratio of the second story to first story
First Floor	floor area shall not exceed 50% except that:
Area Ratio:	i. In all R1 zoning districts except the R1-a
Allea Ratio.	district, the ratio of the second story to first
	story floor area may be up to a maximum of
	66%, if a combined first story setback of 15
	feet (with no first story side setback less
	than five feet) and a combined second story
	setback of at least 25 feet (with no second
	story side setback less than 15 feet) and a
	rear setback of 25 feet is provided,
	ii. <u>In the R1-a zoning district:</u>
	1. The maximum second story to first story
	floor area ratio is 40% of the existing or
	proposed first floor area but no larger
	than 500 square feet;
	2. A second floor may be at least 750
	square feet in area but shall not in any
	case exceed 1,100 square feet, if a

(with no first story side setback less than ten feet), a combined second story setback of 35 feet (with no second story side setback less than 15 feet) and a rear setback 40 feet is provided. b. Interior areas (measured from the finished floor to the top of the roof rafters) with heights greater than 16 feet shall be double counted as floor area as follows: i. For one story homes, the floor area shall be double counted as first floor area. ii. For two story homes, the floor area shall be counted once each for first and second floor area. a. Minimum first floor front setback is 20 feet, except as otherwise required in a tract map or zoning map except that: i. In the R1-a zoning district, the required minimum front setback is 30 feet. ii. Garages with up to two parking spaces shall be setback two additional feet from the face of the living area of the unit, not including a front entry feature or porch. iii. Third car garage spaces: 1. On lots when the garage is visible from the street: parking shall be provided in tandem or in a detached accessory structure at the rear of the principal unit: a third parking space may be on the same wall plane as the other two parking spaces. b. Minimum second floor front setback is 25 feet except that: i. In the R1-a zoning district, the required minimum front setback is 30 feet.		combined first story setback of 20 feet
setback of 35 feet (with no second story side setback less than 15 feet) and a rear setback 40 feet is provided. b. Interior areas (measured from the finished floor to the top of the roof rafters) with heights greater than 16 feet shall be double counted as floor area as follows: i. For one story homes, the floor area shall be double counted as first floor area shall be counted once each for first and second floor area. ii. For two story homes, the floor area shall be counted once each for first and second floor area. a. Minimum first floor front setback is 20 feet, except as otherwise required in a tract map or zoning map except that: i. In the R1-a zoning district, the required minimum front setback is 30 feet. iii. Garages with up to two parking spaces shall be setback two additional feet from the face of the living area of the unit, not including a front entry feature or porch. iii. Third car garage spaces: 1. On lots when the garage is visible from the street: parking shall be provided in tandem or in a detached accessory structure at the rear of the property. 2. On flag lots or on side-oriented garages located at the rear of the principal unit: a third parking space may be on the same wall plane as the other two parking spaces. b. Minimum second floor front setback is 25 feet except that: i. In the R1-a zoning district, the required		(with no first story side setback less
side setback less than 15 feet) and a rear setback 40 feet is provided. b. 		minimum front setback is 30 feet.

	c. First and Second Floor side and rear yard
	setbacks: Minimum side and rear setbacks
	shall be four feet; provided, however, that:
	i. No setback shall be required for an
	existing structure or a structure
	constructed in the same location and to
	the same dimensions as an existing
	structure.
	ii. No new or expanded structures shall
	encroach upon any existing public or
	<u>private utility easements.</u>
•	iii. No setback shall be required from a
	shared new lot line between the two
	new lots created pursuant to an urban
6	lot split under Government Code
	Section 66411.7 when more than one
	new primary dwelling unit is approved
	concurrently with the lot split.
	d. Corner Triangle: No portion of a structure
	shall be located within a corner triangle,
	provided that in no case a side yard setback
	of more than four feet would be required.
	e. <u>Detached primary residential structures:</u>
	Detached structures shall have a setback of
4)	five feet as measured between the eaves of
	the two structures.
4. Maximum	a. Principal Dwelling units are limited to 28
<u>height:</u>	feet, no more than two stories except that:
	i. In R-1 Zoning Districts with "i" suffix,
	buildings shall be limited to one story (not
	to exceed 18 feet).
	b. First floor building envelope: All the
	maximum exterior wall height and building
	height on single-story structures and single-
	story sections of two-story structures must fit
	into the building envelope defined by:
	i. A 9 foot high vertical line from natural
	grade measured at the property line; and

		 ii. A 25 degree roof line angle projected inward at the 9 foot high line referenced above; c. Notwithstanding the first floor building envelope, a gable end of a roof enclosing an unfinished attic space may have a maximum wall height of 13 feet to the peak of the roof as measured from natural grade. d. Second story building envelope: All the maximum exterior wall height and building height on two-story sections of two-story structures must fit into the building envelope defined by: i. A 15 foot high vertical line from natural grade measured at the property line; and ii. A 25 degree roof line angle projected inward at the 15 foot high line referenced above.
5. <u>Ba</u>	sements:	Not allowed.
and	ndscaping d Privacy otection:	 a. Landscaping: All proposed landscaping shall meet the requirements of Chapter 14.15 of the Municipal Code i. Front Yard Tree Required: A 24-inch box California native tree that typically grows to a mature height of more than 30 feet is required for all two story homes and must be placed in the center 50% of the front yard. ii. An existing mature tree in the front yard that is or can typically grow to a height of 30 feet of more and is located in the center 50% of the front yard can be used as the front yard tree, subject to an ISA certified arborist certifying that the tree is in good health. iii. A covenant shall be recorded to identify the front yard tree as a Protected Tree and notifying current and future property

owners to retain and maintain the tree in good health. b. Privacy Protection planting for windows from second story windows shall be required in the same manner as required pursuant to Section 19.28.070, except as provided below: i. Windows or other openings in the wall with a side vard setback less than 10 feet shall have a minimum windowsill height of five feet one inch or shall have obscure glass and be inoperable with a fixed pane(s). ii. Windows or other openings in the wall with a rear yard setback less than 25 feet shall have a minimum windowsill height of five feet one inch, or shall have obscure glass and be inoperable with a fixed pane(s). iii. Subsections (a) and (b) do not apply to skylights or windows which do not have views into an adjacent side or rear yard or that face a street or a non-residential zoning district. iv. Minimum planter width required for privacy planting shall be three feet. Emergency access paths shall not be concurrent with areas designated privacy planting planters. Each unit must provide at least 15% of the unit 7. Private open floor area as private open space on the first floor, space: with no dimension less than 10 feet. a. Front entry features, but not porches, may 8. Permitted yard encroachments encroach into a required front yard setback up to three feet. b. May extend into a required yard a distance not exceeding three feet. c. No architectural feature, or combination thereof, whether a portion of a principal or accessory structure, may extend closer than three feet to any property line.

	d. Architectural features may not exceed 50% of
*	the wall they are on, as seen from the interior.
9. <u>Second story</u>	Not allowed.

10. <u>Design</u>	a. Entry features:
standards:	i. A maximum of one entry feature per unit
	is allowed but no more than one entry
	feature per structure shall be allowed.
	ii. The entry feature shall be oriented to face
	the street and shall include a front entry
	door also oriented to face the street.
	iii. Maximum entry feature height is as 14
	feet to the top of the plate.
	iv. <u>If a duplex with attached units is</u>
	proposed, a proposed entry feature may
	incorporate two entrance doors for the
	two units. One of the entrance doors or a
	common opening into a shared entry
	portal shall be oriented to face the street.
	v. <u>If duplexes are proposed on corner lots</u> ,
9.	the entrances to the two units shall be on
	different street frontages, except that if
	the corner lot fronts a major collector,
×	both the entrances may be located on the
	minor collector or neighborhood street.
	b. If a front porch (not a front entry feature) is
	proposed, the porch shall be proportionately
	greater in width than in height.
	i. Porch elements shall have detailing that
	emphasizes the base and have caps for
	posts and fence elements of the porch.
*,	c. Exterior and/or uncovered stair access shall
entan busuan sekuntan kendangan penjan kendan kendan pengan pengan bahasan kena menangkan	not be allowed to the second floor.

- d. New structures shall be designed/located in a manner that no more than 10% of an existing solar panel array on an adjoining property is impacted by shade/shadow as demonstrated by a shadow study performed by a licensed engineer qualified to prepare such studies.
- e. All new structures proposed in the R1-e zoning district shall meet the building design requirements in Section 19.28.080 and shall meet the Eichler design guidelines.
- f. <u>In the R1-a zoning district, the second story</u> shall not cantilever over a first story wall plane.
- g. In addition to standards outlined in subsections (1) (9) above, development on properties with an average slope greater than 10% shall comply with Section 19.40.050(E), (F) and (G) and Section 19.40.060(E), (H), (I) and (J).
- h. Windows and doors shall either:
 - i. Have a minimum three-and-one half inch in width by three-quarter inch in depth trim when protruding from the wall or
 - ii. Be inset a minimum of three inches from the exterior finish of the structure. If recessed, the primary siding material shall cover the recessed edge faces and wrap toward the interior face of the window glazing or door by not less than two-inch depth.
- i. All garage doors shall be recessed a minimum of six (6) inches from the surrounding building wall and shall include trim of at least one and a half (1.5) inches in depth.
- j. Roof overhangs or building eaves shall be a minimum of 12 inches in width.

- k. <u>Detached structures on a lot must use the</u> same architectural style and materials.
- 1. Where the garage faces the side yard, but is visible from the street, the garage shall incorporate a window on the street front facade so that it appears to be a habitable portion of the house. The window style must be the same as the windows on the habitable dwelling unit(s).
- m. Enclosed living area shall be closer to the street than garage space. Garages shall be set back as identified in subparagraph (3) above.
- n. No more than fifty percent of the front elevation of a house shall consist of garage space.
- o. The maximum width of a garage on the front elevation shall be 24 feet for a two-car garage.
- p. Garage doors for no more than two car spaces shall be visible from the public right of way.
- q. <u>Outdoor lighting shall comply with the</u> requirements of Chapter 19.102.
- r. The elevation facing a street shall incorporate at least four architectural features, such as bay windows or an entry feature, and/or elements of architectural interest, such as wall insets or offsets, planters, railings, trellises, a combination of roofing elements (e.g. hip and gable roofs), dormers, change in architectural materials, quoins, accent tiles, or an accent window inset greater than six inches. Windowsills, door or window trim, and roofing materials do not count as one of the features.
- s. Gable ends and dutch gable ends taller than thirty inches shall include at least one element of architectural interest such as:
 - a wall offset with corbels, brackets or change in materials;
 - louvered wood or metal vents;
 - clay or terracotta tile vents;

	AND ASSESSED FOR	
		accent tile decoration;
		medallion decoration;
		metal grille;
		<u>a change in architectural materials;</u>
		incorporation of corbels;
		decorative gable pediments;
		 eyebrow trellises or pergola structurally
		attached to the building or
		windows/glazing.
,	t.	Stone veneer or accent materials used as a
		wainscot on a street facing façade shall be
		wrapped around to the side façade and end
		at a logical terminus, such as a fence line or a
		chimney.
	u.	Stone veneer or any other siding material
		wrapped on columns shall terminate at the
		floor.
11. Accessory	a.	Allowed pursuant to the requirements of
buildings/		Chapter 19.100, except that Accessory
structures:		Dwelling units or Junior Accessory Dwelling
,		units shall not be permitted on any lot in the
		R-1 zoning district if a lot split has been
		approved pursuant to Section 18.12.70 and
		unit(s) have been approved for construction
		pursuant to Section 19.28.150 on each lot.
	b.	Limited to one story (not to exceed 15 feet)
	c.	Accessory Dwelling Units shall meet
		subsections (1) and (2) above and shall
		additionally be in compliance with the
		regulations of Chapter 19.112.
	d.	Air conditioning units and similar
		mechanical equipment such as generators,
		sump pumps, heating, and ventilation
		equipment shall be ground-mounted and
		screened from public view or underground,
		and shall meet accessory structure setbacks
		and adhere to the requirements of Chapter
# #		10.48 of the Municipal Code
12. Fences	 	Shall comply with the requirements of
14. <u>Fences</u>		Chapter 19.48 of the Municipal Code.
		Chapter 13.30 of the withherpar Couc.

12 Pofrago	T	A minimum 9 foot land 2 foot areas were
13. <u>Refuse,</u>	a.	A minimum 8 foot by 3 foot space per unit,
recycling and		not visible from the street, shall be provided
<u>other</u>		in an interior yard behind a fence.
<u>containers</u>	b.	This area shall not be concurrent with any
		emergency access pathway required by the
		<u>Fire Department.</u>
14. Parking	a.	Units shall have at least one off-street
		parking space, except that parking
		requirements shall not be imposed in either
		of the following instances:
		i. The parcel is located within one-half mile
		walking distance of either a high-quality
		transit corridor, as defined in Public
2 2		Resources Code Section 21155(b) Code, or
		of a major transit stop, as defined in
4		Public Resources Code Section 21064.3.
		ii. There is a car share vehicle located within
		one block of the parcel.
	a.	Parking space(s) shall be provided in an
		enclosed garage encompassing 10' by 20'
		space for each space.
	b.	When additional enclosed parking space(s)
·		is/are provided, the space(s) shall meet the
	-	requirements of Chapter 19.124.
15. Driveway and	a.	A one car driveway shall be a minimum of 10
curb cuts:	64.	feet in width and a maximum of 12 feet in
carb cats.		width.
¥	h	A two car driveway shall be a maximum of 20
¥	υ.	V
		feet in width. Any third or more driveway
		spaces shall be in tandem.
,	C.	Subparagraphs a and b do not apply to the
-	7	flag lot access area.
	d.	A maximum 18' foot wide curb cut when a
		two car curb cut is permitted, shall be
		allowed.
	e.	A maximum 12' foot wide curb cut when a
a		one car curb cut is permitted, shall be
		<u>allowed.</u>

16. Short Term	No residential unit created pursuant to this
<u>Rentals</u>	Section may be rented for a term of 30 days or
Prohibited:	<u>less.</u>

- F. This Section shall remain in effect until such time as Government Code

 Section 65852.21 is repealed or superseded or its requirements for

 ministerial approval of housing development projects are materially

 amended, whether by legislation or initiative, or are held to be

 unenforceable by a court of competent jurisdiction, at which time this

 Section shall become null and void.
- G. Any dwelling unit approved pursuant to this Section shall be ineligible for conversion to a condominium, community apartment, or stock cooperative project. Any application for a tentative subdivision map or tentative parcel map for a residential condominium conversion of a unit created pursuant to this Section shall be denied by the Department of Community Development.
 - 11. Amend Section 19.40.050 of the Cupertino Municipal Code to read as follows:

A. Density		
1. Dwelling Unit Density	Determined by Appendix F of the General Plan based upon slope density standards described therein.	
2. Transfer of density credits	Density credits derived from application of a slope density formula to a lot or a group of lots may not be transferred to property outside any approved subdivision or parcel map boundary.	
B. Minimum Lot Area		
1. By zoning district symbol:	Lot area shall correspond to the number (multiplied by one thousand square feet) following the RHS zoning symbol. Examples: RHS-20: Minimum lot size of 20,000 square feet (20 * 1,000 s.f.) RHS-120: Minimum lot size of 120,000 square feet (120 * 1,000 s.f.)	

	RHS-218: Minimum lot size of 218,000 square feet (218 * 1,000 s.f.)
2. For subdivision	Minimum lot area shall be in accordance with Appendix F of the General Plan, unless clustered in accordance with Section 18.52.030 (Hillside Subdivisions). The minimum lot area shall be 10,000 square feet for each unit in a clustered subdivision.
3. Subdividable lots	Lot size zoning designation shall be assigned at time of subdivision <u>for properties not subdivided</u> <u>pursuant to Government Code Section 64411.7.</u>
4. Non- subdividable legally-created, developed lots	Shall reflect the existing lot size
5. Lots created pursuant to Government Code Section 64411.7	 a. Each resulting lot shall be at least 40% of the size of the original lot being split. b. Each resulting lot shall share one common driveway. If an existing driveway or curb cut exists, a new driveway or curb cut location shall not be approved. c. Up to two new property lines may be added to create a new lot and must follow the contours of the property. d. If in an area where direct sanitary sewer connection is unavailable, a percolation test completed within the last five years, or if the percolation test has been recertified, within the last 10 years, must be provided. e. Building pads shall be identified on the flattest portion of the resulting lots closest to an existing or proposed new driveway.
C. Minimum Lot Width	a. 70 feet at front setback line.b. No minimum lot width for lots served by private driveway and which do not adjoin a public street.

D. Development on Substandard Lots	A Hillside Exception shall be obtained to construct structures or improvements on existing vacant legal lots, except where prohibited by Government Code Section 65852.21.
E. Site Grading	
1. Maximum Grading Quantity	 a. Cumulative total of 2,500 cubic yards, cut plus fill. Includes: grading for building pad, yard areas, driveway and all other areas requiring grading. Excludes: basements b. All cut and fill shall be rounded to contour with natural contours and planted with landscaping which meets the requirements in Section 19.40.050G c. For each of the lots developed or created pursuant to Government Code Section 64411.7, a cumulative total of 1,250 cubic yards, cut plus fill (including grading for building pad, yard areas, driveway, all other areas requiring grading, and basements), except if the original lot that was subdivided has already performed prior grading, then the amount of grading that has previously occurred shall be reduced from the maximum grading quantity allowed cumulatively on the two resulting lots.
2. Graded Area	<u>a.</u> Shall be limited to the building pad area to the
	greatest extent possible. b. For lots developed or created pursuant to Government Code Sections 64411.7 and 65852.21, graded areas are limited to within 50 feet of the building pad area.
3. Multiple <u>Common</u> Driveways	Grading quantities shall be divided equally among the participating lots. E.g., two lots sharing a driveway shall divide the driveway grading quantity in half. The divided share will be charged against the grading quantity allowed for that lot development.

4. Flat Yard Area	<u>a.</u> Limited to a maximum of 2,500 square feet,
	excluding driveways <u>b. For lots developed or created pursuant to</u>
	Government Code Section 64411.7, limited to a
	maximum of 1,250 square feet per lot, excluding
	driveways, except as limited by subsection (I).
5. Soil Erosion	A licensed landscape architect shall review grading
and Screening of Cut and Fill	plans and shall, in consultation with the applicant and
Slopes Plan	the City Engineer, submit a plan to prevent soil erosion and to screen cut and fill slopes.
	erosion and to sereen ear and im stopes.
F. Landscaping	
	Shall be prepared by a licensed landscape architect
	to: <u>a.</u> Screen the residential structures to the greatest
	possible extent <u>from the following prominent</u>
n n	intersections. For projects pursuant to
	Government Code Section 65852.21, no more than
	10% of the structure shall be visible from the
	following prominent intersections:
1. Tree Planting	i. <u>Foothill Boulevard and Cristo Rey Drive</u> ii. <u>Foothill Boulevard and Alpine Way</u>
Plan	ii. <u>Foothill Boulevard and Alpine Way</u> iii. <u>Bellevue and Carmen Road</u>
	iv. Linda Vista Drive and Hyannisport Ave
	v. Hyannisport Ave and Bubb Road
	vi. Rainbow Ave and Weymoth Drive.
·	A visual simulation from each of the intersections
	above shall be provided to indicate compliance.
	<u>b.</u> Reintroduce trees on barren slopes which were
	denuded by prior agricultural activities
2. Landscape	Must comply with the Chapter 14.15, Landscaping
Requirements	Ordinance and Wildland Urban Interface Fire Area
	(WUIFA) requirements.
	At least 50% of the front yard area shall be landscaped (i.e., not hardscaped)
2 Installation (- · · · · · · · · · · · · · · · · · · ·
3. Installation of Landscape	Must be installed prior to final occupancy unless it is
Improvements	not practicable. If not installed, the applicant shall post a bond, cash or other security to insure cover the cost
Improvements	a sorta, capit of outer security to hisure cover the cost

		of installation within an 18 month period from occupancy.	
4.	Landscape Maintenance	All such landscape areas shall be properly maintained in conformance with the requirements of Chapter 14.15, Landscape Ordinance.	
5.	Native Trees	Should be integrated into the site design to the greatest extent possible.	
G.	Watercourse Prot	ection	
1.	Watercourse and Existing Riparian Vegetation	Any watercourse identified in Figure 6-G in the City's General Plan and its existing riparian vegetation must be shown on all development plans.	
2.	Setback	The setback shall be measured from the top of bank of the watercourses or from existing riparian vegetation, whichever is greater. The setback from riparian vegetation will be measured from the drip line perimeter. All new development, including structures, grading and clearing, must be set back as follows.	
	a. Lots < 1 acre	50 feet	
	b. Lots ≥ 1 acre	100 feet	
H.	H. Development Near Prominent Ridgelines		
1.	New structures	Shall not disrupt a 15% site line from a prominent ridge as identified in Appendix A. The fifteen percent site line shall be measured from the top of ridge at the closest point from the structure.	
2.	Additions to existing structures within the 15% site line of prominent ridgeline	<u>a.</u> MayShall not further encroach into the site line. For example, the addition may not add height or bulk which may increase the disruption to the fifteen percent ridgeline site line.	
3.	Impractible Clause	If (1) and (2) above are not practicable, alternatives may be considered through the exception process,	

	provided that no discretionary exemption process is allowed for projects seeking approval under Government Code Section 65852.21.
I. Development on Slopes of ≥ 30%	 a. Hillside Exception required for all grading, structures and other development > 500 square feet, except that on lots developed or created pursuant to Government Code Sections 64411.7 and 65852.21, grading, building pads for structures and other development is limited to a maximum of 500 square feet. b. If the lots developed or created pursuant to Government Code Sections 64411.7 and 65852.21 have no areas with slopes less than 30% that can accommodate up to two units 800 square foot each, grading and building pads for structures is limited to 800 square feet. No other development shall be permitted on such lots (e.g. development for flat yard area).
J. Trail Linkages and Lots Adjoining Public Open Spaces Site Plan	 1-a. Site plan must identify trail linkages as shown in the General Plan Trail Plan, on and adjacent to the site. 2-b. If a trail linkage is identified across a property being developed, development shall not take place within that area unless approved through the exception process, except that on lots developed or created pursuant to Government Code Sections 64411.7 and 65852.21, no development may occur in an area where a trail linkage is identified on the property. 3-c. For lots adjoining Public Open Spaces, driveways and buildings shall be located as far as feasible from the Public Open Space and designed in a manner to minimize impacts on the Public Open Space.
K. Views and Privacy	It is not the responsibility of City Government to ensure the privacy protection of the building permit applicant or owners of surrounding properties that may be affected by the structure under construction. However, the Director of Community Development

may confer with the building permit applicant to discuss alternate means of preventing privacy intrusion and preserving views except that for lots developed or created pursuant to Government Code Sections 64411.7 and 65852.21, privacy protection planting, as required pursuant to Section 19.28.120, is required for views from the second story into adjoining side or rear yards. Windows or other openings in the wall with a side yard setback less than 15 feet or a rear yard setback less than 25 feet shall have a minimum windowsill height of five feet one inch, or shall have obscure glass and be inoperable with a fixed pane(s).

12. Amend Section 19.40.060 of the Cupertino Municipal Code to read as follows:

Table 19.40.060: Building Development Regulations								
A. Floor Area Ratio (FAR)								
1. Maximum Allowable Development	a. Except as otherwise provided herein, a ministerially approved housing development project approved pursuant to this Section shall not exceed 800 square feet per unit. b. Notwithstanding Paragraph (a), a ministerially approved housing development approved pursuant to this Section may have a floor area as calculated in subsection (c) below, if it complies with the requirements of this Section; provided, however, that if the housing development is on a parcel created by a ministerial lot split under Chapter 18.20.170, the maximum allowable floor area for the original lot shall be allocated to each resulting lot equal to the proportionate size of each resulting lot to the original lot. However, under no circumstances shall the size of ministerially approved units exceed 2,000 square feet. c. For projects not subject to ministerial approval under Paragraph (a) or (b), maximum allowable development shall be the lesser of: a. i. 6,500 square feet; or b. ii. 4,500 square feet plus 59.59 square feet for every 1,000 square feet over 10,000 square of net lot area, times the slope adjustment factor pursuant to Section 19.40.060(A)(2)* *Formula = (4,500 + (Net Lot Area - 10000) (59.59)) x (Slope Adjustment Factor)							
	Arrayana	No voduction in allowable floor area	Avg. Slope	Reduction (1.5 x (Average Slope – 0.1))				
	a. Average Slope ≤ 10%	No reduction in allowable floor area Slope Adjustment Factor = 1	≤ 10%	0%				
	b. Average Slope between 10% and 30%		11%	1.5%				
			12%	3%				
2. Slope			13%	4.5%				
Adjustment			14%	6%				
Factor based on Average		A reduction in allowable floor area by one and one-half percent (1.5%) for each percent of slope over 10 percent. Slope Adjustment Factor = (1 - (1.5 x (Average slope of net lot area - 0.1))	15%	7.5%				
			16%	9%				
Lot Area			17%	10.5%				
			18%	12%

Porch must be at least 5 feet in width and extend the length of the wall on which it is located to be a qualifying offset feature. 2. Maximum Exposed Wall Height on Downhill Elevation 15 feet		Offset shall apply only the	primary setba	ck affected.
Height on Downhill Elevation	Roofed Porches	roofed porches. ii. Roof of the porch must match, in pitch and style, the roof of the main structure. iii. Porch must be at least 5 feet in width and extend the length of the		
F. Permitted Yard Encroachments		15 feet		
	F. Permitted Yard Encroachments			

1. Extension of a Legal Non-conforming Wall Plane for structures not located within a prominent ridgeline site line	 a. Where a building legally constructed according to existing first floor yard and setback regulations at the time of construction encroaches upon present required first floor setbacks, one encroaching side of the existing structure may be extended along existing building lines. b. Only one such extension shall be permitted for the life of the building. c. Encroachments into a required yard which are the result of the granting of a variance may not be further extended. d. Further encroachment into a required setback is not allowed. I.e., a non-conforming setback may not be further reduced. e. In no case shall any wall plane of a first-story addition be placed closer than three feet to any property line. f. Shall not apply to properties developed or created pursuant to Government Code Section 65852.21 and 64411.7.
2. Architectural Features	 a. May extend into a required yard a distance not exceeding three feet. b. No architectural feature, or combination thereof, whether a portion of a principal or accessory structure, may extend closer than three feet to any property line. c. Second story decks or balconies may not further encroach into a required setback than allowed in Subsection D.
G. Accessory Structures (including attached patio covers)	 a. As allowed by Chapter 19.100, Accessory Buildings/Structures b. Lots created and developed with unit(s) pursuant to Government Code Sections 64411.7 and 65852.21 may not develop an Accessory Dwelling Unit or Junior Accessory Dwelling Unit. c. Air conditioning units and similar mechanical equipment such as generators, sump pumps, heating, and ventilation equipment shall be ground-mounted and screened from public view or underground, and shall meet accessory structure setbacks and adhere to the requirements of Chapter 10.48 of the Municipal Code
H. Design Standards	
1. Building and Roof Forms	
a. Natural Contours	Building shall follow as closely as possible the primary natural contour of the lot.

b. Building Mass and Roof Pitches	The main building mass shall be on the upslope side of the building and the roof pitches shall trend downslope.
c. Second Story Dormers	Permitted within the second story setbacks as long as they are minor in shape and size.
d. Downhill Elevation of main structure	Shall have a minimum of four offset building and roof elements to provide varied building forms to produce shadow patterns which reduce the impact of visual mass.
e. High Wall Planes	Wall planes exceeding one story or 20 feet in height, whichever is more restrictive, shall contain architectural elements in order to provide relief and to break up expansive wall planes.
2. Colors	
a. Natural Earth Tones	All structures on the lot shall use natural earth tone and/or vegetation colors which complement the natural surroundings. Natural earth-tone and vegetation colors include natural hues of brown, green and shades of gray.
b. Reflectivity Value	Shall not exceed 60 on a flat surface
3. Outdoor Lighting	All outdoor lighting shall meet the requirements in Chapter 19.102.
4. Garages	 All projects shall strive to attain, except that projects pursuant to Government Code Section 65852.21 shall attain, the following standards: a. No more than 50% of the façade visible from the right of way shall comprise the garage. b. A two car garage face shall not exceed 24 feet and a one car garage face shall not exceed 12 feet. c. Garages visible from the right of way shall be setback a minimum of two feet from the livable areas of the home except if only the garage and/or the entrance to the home, and no other livable portions of the home, are accessible from the street level. d. Third car spaces shall be provided in tandem or shall be provided in a detached accessory structure.

5. Entry Features	 All projects shall strive to attain, except that projects pursuant to Government Code Section 65852.21 shall attain, the following standards: a. Only one entry feature shall be permitted per structure and only one entry feature shall be visible from the public street. b. Duplexes shall have entrances to each unit on different frontages. c. Entry features shall be limited to 14 feet in height from the natural grade to the top of wall plate.
6. Uncovered/exterior staircases	Not allowed.
I. Geologic and Soils Reports	
1. Applicability	A geological report prepared by a certified engineering geologist and a soils report prepared by a registered civil engineer qualified in soils mechanics by the State shall be submitted prior to issuance of permits for construction of any building or structure which: a. Is located on property in an RHS zoning district which has been designated by the General Plan to be within a geological hazard area; and b. Where an addition, alteration or repair of an existing building or structure include at least one of the following: i. The improvements include increasing the occupancy capacity of the dwelling such as adding a bedroom or secondary Accessory Dwelling unit, or ii. The cost of the completed addition, alteration or repairs will, during any period of twelve months, exceed twenty-five percent of the value of the existing improvements as determined by the building Building official Official based on current per foot value of the proposed structure to the existing structure's value on a parcel of property. For the purposes of this section, the value of existing improvements shall be deemed to be the estimated cost to rebuild the improvements in kind, which value shall be determined by the building Building officialOfficial.

2. Content of Reports	These reports shall contain, in addition to the requirements of Chapter 16.12 of this code, the following: a. All pertinent data, interpretations and evaluations, based upon the most current professionally recognized soils and geologic data; b. The significance of the interpretations and evaluations with respect to the actual development or implementation of the intended land use through identification of any significant geologic problems, critically expansive soils or other unstable soil conditions which if not corrected may lead to structural damage or aggravation of these geologic problems both on-and off-site; c. Recommendations for corrective measures deemed necessary to prevent or significantly mitigate potential damages to the proposed project and adjacent properties or to otherwise insure safe development of the property; d. Recommendations for additional investigations that should be made to insure safe development of the property; e. Any other information deemed appropriate by the City Engineer. All building and site plans shall incorporate the above-described		
3. Incorporation of Recommendations	corrective measures and must be approved by the City Engineer, upon a third-party peer review of the reports provided, at the		
	applicant's cost, prior to building permit issuance.		
J. Private Roads and Driveways			
1. Pavement Width and Design	The pavement width and design for a private road or common driveway serving two to five lots and a single-lot driveway shall comply with development standards contained in the Hillside Subdivision Ordinance, Chapter 18.52 of this code.		
2. Reciprocal Ingress/Egress Easement and Reciprocal Maintenance Agreement	The property owner for a lot served by a private road or common driveway shall, prior to issuance of building permits, record an appropriate deed restriction guaranteeing the following, to adjoining property owners who utilize the private road or common driveway for the primary access to their lot(s): a. Reciprocal ingress/egress easement, and b. Participation in a reciprocal maintenance agreement.		

K. Solar Design	The setback and height restrictions provided in this chapter may be varied for a structure utilized for passive or active solar purposes, provided that no such structure shall infringe upon solar easements or adjoining property owners. Variation from the setback or height restrictions of this chapter may be allowed only upon issuance of an Administrative Conditional Use Permit subject to Chapter 19.12, except that lots developed pursuant to Government Code Section 65852.21 shall not be eligible for such a discretionary permit.
L. Off-street Improvements	For lots developed pursuant to Government Code Section 65852.21, upon development of the lot, appropriate public right of way dedications shall be made to accommodate the predominant width of the street and street improvements shall be installed to the Public Works Departments standards.
M. Short Term Rentals Prohibited.	No residential unit created pursuant to Government Code Section 65852.21 may be rented for a term of 30 days or less.

13. Add a new Section 19.40.090 of the Cupertino Municipal Code to read as follows:

19.40.090 Ministerial Approval of Up to Two Units.

- A. Miscellaneous Ministerial Permit Required. The Director of Community Development shall ministerially approve up to two residential units on a parcel in an RHS residential hillside zoning district if the proposed housing development meets the requirements of Government Code Section 65852.21 and complies with all applicable objective zoning standards, objective subdivision standards, and objective design review standards.
- B. The Director of Community Development shall impose all objective zoning standards, objective subdivision standards, and objective design review standards in the Municipal Code, General Plan, any applicable specific plan, and other objective land use specifications that do not conflict with the requirements of Government Code Section 65852.21, including but not limited to the standards for ministerial development projects in Section 19.40.050 and 19.40.060.
- C. Notwithstanding Paragraph A, the Director of Community Development may deny a housing development project proposed under

this Section if the Building Official makes a written finding, based upon a preponderance of the evidence, that the proposed housing development project would have a specific, adverse impact, as defined and determined in Government Code Section 65589.5(d)(2), upon public health and safety or the physical environment and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact.

- D. Application and Fees. An application on a form made available by the City shall be completed by the applicant. The form shall be accompanied by a fee that the City Council may adopt by resolution to sufficiently recover the cost of administering the requirements of this section. The application shall be accompanied by all technical reports, plans and information required to make a determination on the proposed project.
- E. Objective Zoning and Design Standards for Ministerially Approved Housing Development Projects. In addition to any applicable objective zoning standards, objective subdivision standards, and objective design review standards in the Municipal Code, a housing development project approved pursuant to this Section must comply with all applicable objective zoning and design standards to the maximum extent permissible under Government Code Section 65852.21, including but not limited to the standards for ministerial development projects in Section 19.40.050 and 19.40.060 and the following:

1. Basements	Not allowed.
2. Balconies,	Not allowed.
decks or other	·
<u>similar</u>	
<u>structures</u>	
3. Design	a. Windows and doors shall either:
<u>Standards</u>	i. Have a minimum three-and-one half inch
	in width by three-quarter inch in depth
	trim when protruding from the wall or
	ii. Be inset a minimum of three inches from
	the exterior finish of the structure. If
	recessed, the primary siding material
	shall cover the recessed edge faces and

- wrap toward the interior face of the window glazing or door by not less than two-inch depth.
- b. All garage doors shall be recessed a minimum of six (6) inches from the surrounding building wall and shall include trim of at least one and a half (1.5) inches in depth.
- c. Roof overhangs or building eaves shall be a minimum of 12 inches in width.
- d. <u>Detached structures on a lot must use the same architectural style and materials.</u>
- e. Where the garage faces the side yard, but is visible from the street, the garage shall incorporate a window on the street front facade so that it appears to be a habitable portion of the house. The window style must be the same as the windows on the habitable dwelling unit(s).
- f. Garage doors for no more than two car spaces shall be visible from the public right of way.
- g. The elevation facing a street shall incorporate at least four architectural features, such as bay windows or an entry feature, and/or elements of architectural interest, such as wall insets or offsets, planters, railings, trellises, a combination of roofing elements (e.g. hip and gable roofs), dormers, change in architectural materials, quoins, accent tiles, or an accent window inset greater than six inches. Windowsills, door or window trim, and roofing materials do not count as one of the features.
- h. Gable ends and dutch gable ends taller than thirty inches shall include at least one element of architectural interest such as:
 - a wall offset with corbels, brackets or change in materials;
 - louvered wood or metal vents;
 - clay or terracotta tile vents;
 - accent tile decoration;

	- 1.11: - 1
	 medallion decoration;
	metal grille;
	a change in architectural materials;
	incorporation of corbels;
	decorative gable pediments;
	 eyebrow trellises or pergola structurally
	attached to the building or
v v	windows/glazing.
	i. Stone veneer or accent materials used as a
9	wainscot on a street facing façade shall be
	wrapped around to the side façade and end at a
	logical terminus, such as a fence line or a
	<u>chimney.</u>
	j. Stone veneer or any other siding material
	wrapped on columns shall terminate at the
	floor.
4. Private Open	Each unit must provide at least 15% of the unit
<u>Space</u>	floor area as private open space on the first floor,
	with no dimension less than 10 feet.
5. Refuse,	a. A minimum 8 foot by 3 foot space per unit, not
recycling and	visible from the street, shall be provided in an
other containers	interior yard behind a fence.
	b. This area shall not be concurrent with any
	emergency access pathway required by the
	Fire Department.
6. Parking	a. Units shall have at least one off-street parking
, •	space, except that parking requirements shall
6	not be imposed in either of the following
	instances:
* ,	i. The parcel is located within one-half mile
	walking distance of either a high-quality
	transit corridor, as defined in Public
	Resources Code Section 21155(b) Code, or
	of a major transit stop, as defined in Public
	Resources Code Section 21064.3.
	ii. There is a car share vehicle located within
,	one block of the parcel.
	b. Parking space(s) shall be provided in an
	enclosed garage encompassing 10' by 20'
	space for each space.
	space for each space.

c.	When additional enclosed parking space(s)	
	is/are provided, the space(s) shall meet the	
	requirements of Chapter 19.124.	

- F. This Section shall remain in effect until such time as Government Code Section 65852.21 is repealed or superseded or its requirements for ministerial approval of housing development projects are materially amended, whether by legislation or initiative, or are held to be unenforceable by a court of competent jurisdiction, at which time this Section shall become null and void.
- G. Any dwelling unit approved pursuant to this Section shall be ineligible for conversion to a condominium, community apartment, or stock cooperative project. Any application for a tentative subdivision map or tentative parcel map for a residential condominium conversion of a unit created pursuant to this Section shall be denied by the Department of Community Development.
- 14. Add a new Section 19.112.060 of the Cupertino Municipal Code to read as follows:

19.112.060 Accessory Dwelling Units Prohibited on Certain Lots.

Notwithstanding Government Code Section 65852.2 or 65852.22 or any provision of this Chapter, no accessory dwelling unit or a junior accessory dwelling unit shall be permitted on any lot in single-family residence district (R-1 or RHS) if a lot split has been approved pursuant to Section 18.12.70 and one or more residential units has been approved for construction pursuant to Section 19.28.150 or 19.40.090 (Government Code Section 65852.21).

Section 4. Development standards and other provisions to implement the provisions of Senate Bill 9 allowing for ministerial approval of housing development projects and lot splits in single family residential districts are necessary to protect public health, safety, and welfare of residents of the City of Cupertino. The City Council therefore finds that an interim ordinance adopted pursuant to Government Code Section 65858 is necessary prevent a current and imminent threat to the public, health, safety, and welfare.

Ordinance No. 21-2235 Page 47

Section 5. If any portion of this Ordinance or its application is for any reason held to be invalid, unenforceable or unconstitutional, by a court of competent jurisdiction, that portion shall be deemed severable, and such invalidity, unenforceability or unconstitutionality shall not affect the validity or enforceability of the remaining portions of the Ordinance, or its application to any other person or circumstance. The City Council hereby declares that it would have adopted each section, sentence, clause or phrase of this Ordinance, irrespective of the fact that any one or more other sections, sentences, clauses or phrases of the Ordinance be declared invalid, unenforceable or unconstitutional.

<u>Section 6</u>. Under Government Code Sections 66411.7(n) and 65852.21(j), an ordinance adopted to implement the requirements of Senate Bill 9 shall not be considered a project under the California Environmental Quality Act ("CEQA"), Public Resources Code Section 21000 *et seq*. Public Resources Code. The Ordinance is therefore exempt from CEQA.

Section 7. This ordinance is adopted pursuant to Government Code Section 65858 and shall take effect on January 1, 2022.

Introduced and adopted on this 21st day of December, 2021, at a Regular Meeting of the City Council of the City of Cupertino by the following roll call vote:
