Chair Ganga introduced Christopher Kidd from Alta Planning + Design who gave a presentation.

Commissioners asked questions which the presenter responded to.

Chair Ganga opened the public comment period and the following people spoke:

- Pam Hershey
- Jennifer Shearin
- Stuart Chessen
- Evan Lojewski
- Ishan Khosla

Chair Ganga closed the public comment period.

Commissioners asked questions and made comments, which the presenter responded to.

Commissioners provided the following feedback and recommendations:

- Emphasis was placed on considering road maintenance before approving new projects, along with the importance of balancing both positive and negative public feedback.
- There was strong support for prioritizing safety, particularly for cyclists, pedestrians, seniors, and disabled individuals, with extra points suggested for projects near schools and along high-injury corridors.
- Calls were made to ensure decisions are based on data rather than emotions, and to avoid penalizing projects that involve parking or lane removal, as those decisions should be left to City Council.
- The evolving nature of the city was acknowledged, with a push to ensure plans address both current and future needs, particularly in growing residential areas.
- Concerns were raised about including public dislikes and emotional comments in the evaluation process, and it was suggested they be treated cautiously.
- A comprehensive, citywide vision for active transportation was encouraged, rather than treating projects in isolation.
- Recommendations included identifying a few key focus areas—like school access or pedestrian safety—for the next 5–10 years, supported by clear implementation

packages and measurable outcomes.

- Speed reduction on streets beyond main corridors was advocated, with support for non-barrier bike lanes and solutions that slow vehicles without removing car lanes.
- Staff were asked to return with a list of top projects and a structured plan highlighting three or four main priorities to guide the commission's work moving forward.

NEW BUSINESS - None
