

# Santa Clara County

## FireSafe Council

# Community Chipping Program 2024

**Online Applications Open March 11th**

Applications will be accepted in the order received  
Space is limited, apply early

### Neighborhood Chipping Services

#### At Home Chipping

Residents sign up for a scheduled chipping event to be performed at their home. Brush must be prepared in advance of scheduled chipping event & meet all specified guidelines

#### Drive Up Chipping Event

On a predesignated date, residents drive their brush to a designated location within the community & it is chipped on site

### About The Chipping Program

The Santa Clara County FireSafe Council Chipping Program is a **FREE** program designed to assist residents and communities in their efforts to create and maintain adequate and safe defensible space by processing or disposing vegetative material such as brush and tree branches. Required defensible space clearing is 0-100 feet from permanent structures. Due to the varying natures of hillside neighborhoods, different types of chipping services may be necessary.

Private Fire Hydrant Info 

## Private Fire Hydrant Maintenance

### Do you have a fire hydrant on your property?

Private fire hydrants, often called "wharf hydrants", supply water for residential fire protection on private property. They provide firefighters with an immediate water supply to extinguish flames and prevent the spread of fire to nearby structures or vegetation.

To ensure private hydrants remain accessible and operational at all times, homeowners must perform regular inspections and annual maintenance.
