**Summary of LRC Positions**

[This is a courtesy recap from the July 1, 2025 City Council meeting Item 10 RE: **AB 306 (Rivas)** – State building standards moratorium. LRC recommendation: **Oppose**. **AB 340 (Ahrens)** – Employer-employee relations: confidential communications: **Oppose**. Sent to suspense file.

**AB 648 (Zbur)** – Community colleges: housing: local zoning regulations: exemption: **Oppose**. Still active.

**AB 650 (Papan)** – Planning and zoning: housing element: regional housing needs allocation: **Support**. Still active with no opposition.

**SB 79 (Wiener)** – Local government land: public transit use: housing development: transit-oriented development: **Oppose**. Still active.

**SB 501 (Allen)** – Household Hazardous Waste Producer Responsibility Act: **Support**. On suspense and inactive.

**SB 753 (Cortese)** – Special business regulations: shopping carts: **Support**. Still active.

**New bills and items of discussion:**

**SB 63 (Wiener)** – The Subcommittee had a robust discussion of this proposed sales tax across the region, transit ridership, traffic, associated laws regarding transit route frequency, and recommended an oppose position. It was noted there is no direct correlation between the average daily traffic and bus frequency on transit corridors in Cupertino.

**SB 707 (Durazo)** – Changes to the Brown Act. The Subcommittee recommended an oppose position due to the unfunded and unreasonable requirements of the bill during technological difficulties during meetings with remote attendees.

Santa Clara County Board of Supervisors Measure A was discussed and possibly a position opposing the tax will be taken after researching the matter to see if it fits within the LRC scope.

There will be a Special Meeting October 13, 2025, 7 p.m., Community Hall with legislators for a legislative update.

The Ad-Hoc Legislative Review Subcommittee will hold an end of session wrap-up meeting October 28, 2025.

#### **SB 79 (Wiener) Local government land: public transit use: housing development: transit-oriented development.**

- SB 79 forces cities in urban transit counties defined as “a county with more than 15 rail stations” to approve transit-oriented development projects near specified transit stops, up to seven stories high and a density of 120 homes per acre, without regard to the community's needs, environmental review, or public input. Similarly, cities in non-urban transit counties near specific transit stops would need to approve

development projects by right, up to five stories high, with a density of 80 homes per acre. SB 79 defies cities' general plans and provides transit agencies unlimited land use authority on property they own or have a permanent easement on or before January 1, 2026, within a half mile of a transit stop. Transit agencies would have the power to determine nearly all aspects of the development including height, density, and design, without any regard to local zoning or planning.
