Property Owner: Castello Geno I and Victoria M Et Al
Location: 10075 E. Estates & 19610 Stevens Creek Blvd. (A.P.N.: 369-06-002, -

SECTION II: FINDINGS FOR A TENTATIVE MAP:

WHEREAS, the Planning Commission of the City of Cupertino received an application for a Tentative Map as described in Section I of this resolution; and

WHEREAS, the project is determined to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15332 of the CEQA Guidelines; and

WHEREAS, on November 12, 2025, the Planning Commission held a duly noticed public hearing to receive staff's presentation and public testimony, and to consider the information contained in the Infill Exemption Memorandum along with all staff reports, other pertinent documents, and all written and oral statements received prior to and at the public hearing; and

WHEREAS, on November 12, 2025 the Planning Commission recommended on a 5-0 vote that the City Council approve the Development Permit (DP-2024-004) in substantially similar form to the Resolution presented (Resolution No. 2025-16), approve the Architectural and Use Permit (U-2025-004) in substantially similar form to the Resolution presented (Resolution No. 2025-17), approve the Architectural and Site Approval Permit (ASA-2024-008) in substantially similar form to the Resolution presented (Resolution No. 2025-18), and approve the Vesting Tentative Map (TM-2024-005), in substantially similar form to the Resolution presented (Resolution No. 2025-19); and

WHEREAS, all necessary public notices having been given as required by the City of Cupertino Municipal Code and the Government Code, and the Planning Commission held at least one public hearing in regard to this application; and

WHEREAS, the City Council of the City of Cupertino is the decision-making body for this Resolution; and

WHEREAS, the applicant has met the burden of proof required to support the application for a Tentative Map; and

WHEREAS, the City Council finds as follows with regard to this application:

- a. That the proposed subdivision map is consistent with the City of Cupertino General Plan.

The subject property is consistent with the General Plan since the property is permitted to have up to 25 dwelling units an acre pursuant to the vesting provisions of SB330 which vested the development standards to those that were in place in February 2024.

- b. That the design and improvements of the proposed subdivision are consistent with the General Plan.

The off-site improvements are consistent with the City's General Plan and Heart of the City Specific Plan policies related to applicable pedestrian and bicycle safety with improvements made in accordance with the right-of-way design and an urban canopy within the public right-of-way.

- c. That the site is physically suitable for the type of development contemplated under the approved subdivision.

The proposed tentative map is compatible with the adjoining land uses and no physical constraints are present that would conflict with the anticipated land use and development. Moreover, there are no topographical anomalies that differentiate this property from adjacent properties and the site is located on the valley floor and is not listed within any environmentally sensitive zone.

- d. That the site is physically suitable for the intensity of development contemplated under the approved subdivision.

The subject property is physically suitable in size and shape and in conformance to development standards and is configured to accommodate a multi-unit development like the one proposed.

- e. That the design of the subdivision or the proposed improvements are not likely to cause substantial environmental damage or substantially and avoidably injure fish and wildlife or their habitat.

The design of the subdivision and proposed improvements will not injure fish and wildlife or their habitat because the property is a previously developed site, with no fish and wildlife habitat in the vicinity; the site is located in an urbanized area where residential land use is allowed.

- f. That the design of the subdivision or the type of improvements associated therewith are not likely to cause serious public health problems.

The proposed subdivision design and improvements will not cause serious public health problems. The proposed development is consistent with the intent of the policies of the General Plan for a development of this density on this site, and the on-site and off-site improvements improve neighborhood walkability through improved sidewalk construction with size-appropriate driveway curb-cuts and street and private trees planting.

- g. That the design of the subdivision and its associated improvements will not conflict with easements acquired by the public at large for access through or use of property within the proposed subdivision.

No easement or right-of-way exists currently that would be impeded or conflict with the proposed subdivision.

NOW, THEREFORE, BE IT RESOLVED:

That after careful consideration of maps, facts, exhibits, testimony and other evidence submitted in this matter, subject to the conditions which are enumerated in this Resolution beginning on PAGE 3 thereof, and those contained in all other Resolutions approved for this Project.

The application for a Vesting Tentative Map, Application No. TM-2024-005, is hereby approved, and that the sub-conclusions upon which the findings and conditions specified in this Resolution are based are contained in the Public Hearing record concerning Application No. TM-2024-005 as set forth in the Minutes of the City Council Meeting of December 16, 2025 meeting, and are incorporated by reference as though fully set forth herein.
