A Message from the City Manager

Hello Neighbors,

It was great to see so many of you out and about in the community this past week. Thank you to everyone who joined us for the Big Bunny 5K this past weekend. I also want to thank the residents and community partners who attended our 2026 State of the City address last month. Your engagement and participation make these moments meaningful, and they help shape the work we do together in Cupertino.

Earlier this month, many in our community also celebrated Holi, the vibrant festival of colors that marks the arrival of spring and highlights themes of renewal, joy, and community.

In this week's newsletter, you'll find updates on the City's efforts to negotiate a fair law enforcement contract, transportation improvements at the I-280/Wolfe Interchange, emergency preparedness planning, economic activity in our community, and opportunities for teens and residents to get involved. As always, thank you for staying informed and engaged.
