STAFF AND COMMITTEE REPORTS**COMMITTEEMEMBER ATTENDANCE AT UPCOMING MEETINGS AND EVENTS****FUTURE AGENDA SETTING****ADJOURNMENT**

In compliance with the Americans with Disabilities Act (ADA), anyone who is planning to attend this meeting who is visually or hearing impaired or has any disability that needs special assistance should call the City Clerk's Office at 408-777-3223, at least 48 hours in advance of the meeting to arrange for assistance. In addition, upon request, in advance, by a person with a disability, meeting agendas and writings distributed for the meeting that are public records will be made available in the appropriate alternative format.

Any writings or documents provided to a majority of the members after publication of the agenda will be made available for public inspection. Please contact the City Clerk's Office in City Hall located at 10300 Torre Avenue, Cupertino, California 95014, during normal business hours.

IMPORTANT NOTICE: *Please be advised that pursuant to Cupertino Municipal Code section 2.08.100 written communications sent to the Cupertino City Council, Commissioners or City staff concerning a matter on the agenda are included as supplemental material to the agendized item. These written communications are accessible to the public through the City's website and kept in packet archives. Do not include any personal or private information in written communications to the City that you do not wish to make public, as written communications are considered public records and will be made publicly available on the City website.*

Members of the public are entitled to address the members concerning any item that is described in the notice or agenda for this meeting, before or during consideration of that item. If you wish to address the members on any other item not on the agenda, you may do so during the public comment.

Audit Committee Special Meeting
Minutes
March 21, 2024

CALL TO ORDER

At 4:00 p.m., Chair Chen called the special meeting to order in the City of Cupertino Conference Room A, 10300 Torre Avenue.

ROLL CALL

Committee Members Present: Chair Eno Schmidt, Vice Chair Sheila Mohan, Committee member Angela Chen, Committee member Hanyan Wu, Committee member Hung Wei

City Staff Present: Kristina Alfaro, Thomas Leung, Janet Liang, Matt Morley, Jonathan Orozco

Absent:

Guests: Carlos Oblites (Chandler), Colleen Rozillis (Moss Adams), Chelsea Ritchie (Moss Adams), Sophia Kuo (The Pun Group), Kenneth Pun (The Pun Group), Ryan Maxey (U.S. Bank), Jennifer Meza (PARS), Dennis Mullins (U.S. Bank)

ORDERS OF THE DAY

1. APPROVE MINUTES OF REGULAR MEETING ON OCTOBER 23, 2023

Vice Chair Mohan motioned; Chair Chen seconded. No public comment. The motion passes unanimously.

POSTPONEMENTS

ORAL COMMUNICATIONS

Peggy Griffin provided comments.

NEW BUSINESS

2. Appointment of Audit Committee Chair and Vice Chair

Chair Chen nominated Committee member Schmidt as Chair and Vice Chair Mohan to continue as Vice Chair. Committee member Wei seconded. The motion passes unanimously.

No public comment.

3. Receive the Committee's Roles and Responsibilities ([CMC 2.88.100](#))

Orozco provided an overview of the report.

No Public Comment.

4. Receive PARS Presentation

Meza provided an overview of PARS. Mullins provided an overview of PFM Asset Management. Chair Schmidt asked when the change was effective. Mullins confirmed that it was effective July 1, 2023. Chair Schmidt asked if they follow the city's procedures and policy. Mullins confirmed that PFM Management is a wholly owned subsidiary of U.S. Bank and allowed them to keep all existing paperwork.

No public comment.

5. Receive Chandler Investments Presentation

Oblites provided an overview of Chandler. Chair Schmidt asked how often are cash needs updated. Oblites noted that they communicate with the city no less than a quarterly basis and the analysis is revisited every year as they are long-term decisions. Chair Schmidt noted that relative to the benchmark the duration is much shorter, and is it related to the cash needs. Oblites confirmed and one of the communications with staff is that there may be an increased need for available cash for financial reasons and as a result the strategy was revisited to generate cash and lowering the duration target to make sure there is cash available.

Committee member Wu asked about the fee structure with Chandler and PFM. Orozco noted that it is negotiated within the contract. Oblites added that it is a fixed fee based on assets that they manage and averages around 5 (0.05%) or 6 (0.06%) basis points, less than a tenth of the percentage per year.

Committee member Wei asked if the investments they do for the city has rules to follow with CA government codes. Oblites confirmed. Committee member Wei asked about the cash flow and if it is done once a year with the City. Oblites noted that Chandler is in communication with staff and the city is focused on building up cash due to a tax event that the city is facing resulting in a need to build up cash.

Committee member Chen asked with all the changes in the market, how does Chandler plan to adjust the investment strategy. Oblites noted that reports are provided monthly and quarterly, and they anticipate that the Federal Reserve will be lowering interest rates later in the year.

Peggy Griffin provided public comment. Rhonda Fry provided public comment. Orozco noted that the fees from Chandler are remitted to the custodian, which is paid directly to them, the City does not directly pay them. He added that the City is working on looking into the BMR transactions.

Vice Chair Mohan asked if the investments follow a benchmark and what is included in the benchmarks. Oblites noted that the biggest driver of risk and return in this portfolio is the duration and measures the sensitivity of the market value of the portfolio to a given interest rate shift. As a result, a benchmark is selected with a similar duration and is shifting to a 1-3 year treasury and agency benchmark.

6. Receive The Pun Group Presentation

Pun provided an overview of The Pun Group. Chair Schmidt asked if they are getting cooperation from the previous auditor in terms of getting the necessary documents. Pun noted that they have a good relationship and are getting the necessary information. Committee member Wu asked if the external audit has identified issues and how does the oversight work. Pun noted that if there are any findings there is always a follow-up in the next audit and every 3 years a CPA firm goes through peer review. Vice Chair Mohan asked when will the first draft be expected. Orozco noted that it will come at the next Audit Committee meeting.

No public comment.

7. Receive Moss Adams Presentation

Rozillis provided an overview on Moss Adams. Ritchie provided an overview. Chair Schmidt asked what the volume for FWA is. Rozillis noted that the hotline activity is consistent, a couple of reports a month. Committee member Chen asked if they can include how many of the issues get addressed and how long it takes to get addressed into the report. Rozillis noted that the report identifies closed reports.

Peggy Griffin provided public comment.

8. Receive Budget Feedback on the City's current recommended Service Level Reductions (SLRs)

Alfaro provided an overview.

Rhoda Fry provided public comment.

9. Budget Format Review

Alfaro provided an overview. Committee member Wei asked how often is it best practice to look at the budget format. Alfaro noted that it is reviewed every year and is submitted for budget awards.

Peggy Griffin provided public comment.

10. Receive the proposed Audit Committee 2024 Schedule and Workplan

Orozco presented the committee's work plan.

Peggy Griffin provided public comment.

Subject: Internal Audit Status Report January 15, 2024 through April 15, 2024

FY22-23 INTERNAL AUDIT PROGRAM		ENTERPRISE RISK ASSESSMENT	CITYWIDE POLICY REVIEW	ONGOING INTERNAL AUDIT SERVICES
Objective	To identify, analyze, and measure the City's overarching areas of risk by the level of inherent vulnerability, the level of preparedness to mitigate them, and the impact such negative events could have on the City should they occur. This assessment serves as management's and the internal auditor's basis for determining possible actions for managing and mitigating uncertainty, both on an inherent and a residual basis, and informs the three-year internal audit work program.		Inventory City policies in each department, identify gaps, and review policies for opportunities for update and alignment with best practice. Provide a prioritized implementation plan for policy update.	Manage the annual internal audit program.
Schedule	December 2023 through May 2024		September 2023 through June 2024	July 2023 through June 2024
Activities for This Period	<ul style="list-style-type: none">Collected and reviewed data and documents from the CityScheduled and conducted interviews with City staff and CouncilAdministered an all-staff surveyDrafted and finalized preliminary risk ratings and observations and reviewed them with management		<p>Collected and inventoried policies for the following departments/function:</p> <ul style="list-style-type: none">Council and CommissionParks and RecreationInformation Technology.Administrative ServicesCity Manager's OfficePublic Works <p>Provided initial feedback to the departments/functions listed above based on the policies that have been received.</p>	Met biweekly with City staff, monitored FWA hotline, and provided assistance at the City's request.

MARKET SUMMARY

Provided by Sub-Advisor - PFM Asset Management LLC

THE ECONOMY

- ▶ In the third quarter, U.S. gross domestic product (GDP) grew at an annualized rate of 4.9%, marking the strongest growth since the fourth quarter of 2021, as resilient consumer spending drove the economy. This is above global growth estimates of 3.0%, which have been buoyed by emerging markets (EM) and developing economies.
- ▶ The U.S. labor market remains strong, ending the quarter with 3.7% unemployment rate that is in line with September's reading and a 62.5% participation rate, which is a slight decrease from last quarter. The number of job openings to unemployed ratio fell to 1.40, down from its high of 2.0 in 2022.
- ▶ Headline inflation (CPI) cooled over the quarter, with a year-over-year (YoY) rate of 3.1% in November, down from 3.7% at the end of the second quarter. These cooler readings came in large part from falling energy prices which dropped 5.4% in November, the less volatile core inflation reading (which excludes food and energy) still tells the same story of cooling over the quarter but shows a slightly higher level of inflation at 4.0% YoY.
- ▶ Through the strong labor market and continued growth, consumer confidence saw relative improvement. The Michigan Consumer Sentiment survey ended the quarter at 69.7, up 8.4 year-to-date, though below the long-term average. Consumers savings and income standpoint remain strong, but debt levels and defaults are increasing.

WHAT WE'RE WATCHING

- ▶ After a total of four hikes this year, the final quarter closed out with the Federal Open Market Committee (FOMC) on pause with member expectations that the policy rate is at or near its peak. Looking forward, the median dot plot projection shows 75 basis points (bps) of cuts for 2024 as inflation and economic growth slow. Globally, most major central banks also held rates steady, with European Central Bank (ECB) and Bank of England (BOE) both pausing despite increasing pressure from poor economic growth.
- ▶ The U.S. saw manufacturing conditions worsen during the quarter as ISM U.S. Manufacturing fell to 47.4 in December, marking the fourteenth month of contractionary readings as producers saw diminishing demand for their goods, amid high borrowing costs and continued inflation. Services weakened slightly over the quarter but remain expansionary at 50.6.
- ▶ Globally, conditions varied. The HCOB Eurozone manufacturing PMI improved over the quarter but remained in sharply contractionary territory, at 44.4. The Eurozone services PMI continued to struggle, remaining flat at 48.8 for year end. Meanwhile, China's Caxin manufacturing PMI inched up over the quarter, with an expansionary reading of 50.8 after a dip into contractionary in October. China's services sectors saw a rebound over the quarter as the Caixin Service PMI rose to 52.9, marking the fastest expansion since July as new business grew solidly.

DOMESTIC EQUITY

- ▶ The S&P 500 Index (S&P) posted an 11.69% return for the fourth quarter of 2023. As of December 31, 2023, the trailing 1-year return for the index was 26.29%.
- ▶ After being dominated by the Magnificent Seven for the first three quarters of the year, domestic equity markets saw a broadening of performance, as indicated by the S&P 500 Equal-Weighted index performing in line with the market capitalization-weighted index for the fourth quarter. Throughout the year, the equal-weighted index had significantly lagged the market capitalization-weighted index.
- ▶ Within S&P 500, the only GICS sector to post a negative return for the quarter was Energy (-6.99%). The next worst performers were Consumer Staples (5.54%) and Healthcare (6.41%). The sectors that led performance over the quarter were Real Estate (18.83%), Information Technology (17.17%) and Financials (13.98%).
- ▶ Small-caps, as represented by the Russell 2000 Index, returned 14.03% during the quarter, outperforming mid- and large-caps. The Russell Midcap and Russell 1000 indices returned 12.82% and 11.96%, respectively.
- ▶ According to FactSet Earnings Insight (as of December 18, 2023), the expected YoY earnings growth rate for S&P 500 for calendar year 2023 is 0.6%, which is below the 10-year average of 8.4%.
- ▶ As of the end of the quarter, the S&P 500 P/E ratio was 23.85, above its 5-year average of 21.91. By comparison, the S&P 600, which represents small-cap stocks, had a P/E ratio of 16.0, below its 5-year average of 16.96.

NON-U.S. EQUITY

- ▶ Markets outside of the United States, as measured by the MSCI ACWI ex-U.S. Index, underperformed their U.S. counterparts, returning 9.75% for the quarter.
- ▶ Developed ex-U.S. Markets, as represented by the MSCI EAFE Index, outperformed emerging markets (EM), represented by the MSCI Emerging Market Index, returning 10.42% versus 7.87% for the quarter.
- ▶ Stocks in the Eurozone fared better amid signs of falling inflation and increased manufacturing activity, leading to the outperformance of MSCI EMU (12.43%) versus the MSCI EAFE Index. The UK (6.48%) was the worst performer of the five largest-weighted countries in the index. The country continues to grapple with falling yet stubbornly high inflation.
- ▶ Within EM, MSCI Brazil outperformed the index. Brazilian equities soared 17.84% during the quarter as inflation slowed in line with expectations, inching toward the central bank's target range. Conversely, MSCI China (-4.22%) lagged the index despite better retail sales and industrial production data.
- ▶ Value stocks underperformed growth stocks for the quarter as represented by the broad benchmark, a reversal of the trend observed during the first three quarters of the year. MSCI AC World ex-USA Value returned 8.43% while MSCI AC World ex-USA Growth returned 11.13%. Within EM, value continued to outperform growth returning 8.05% versus 7.72%.
- ▶ Small-caps, as represented by MSCI ACWI ex-U.S. Small Cap Index, outperformed within the international equity markets, returning 10.12% for the quarter.
- ▶ Non-U.S. equities valuations have moved closer to their long-term average across international equity markets. As of December 31, 2023, MSCI EM's P/E stood at 13.67 versus a 5-year average of 13.21. MSCI EAFE ended the year with a P/E ratio of 14.25, slightly lower than its 5-year average of 15.92.

FIXED INCOME

► The U.S. bond market represented by the Bloomberg U.S. Aggregate Index (Aggregate) had sharp gains in the quarter, rising 6.82%. The calendar year return for the U.S. Aggregate Index is 5.53%.

► The Bloomberg U.S. Treasury Index closed the quarter with a gain of 5.66%. During the period, the FOMC maintained interest rate levels and signaled several cuts for 2024. Long rates dropped anticipating a pivot on tightening. The curve remains inverted as the Fed Funds rate remains targeted at 5.5%. The 10-year declined about 69 bps in the quarter, ending at 3.88%, while the 2-year ended at 4.25%.

► Corporate credit had strong results for the quarter on the declining rates. The investment-grade (IG) Bloomberg U.S. Corporate (IG Corp) Index surged 8.50% higher while high yield bonds, as represented by the Bloomberg U.S. Corporate High Yield (HY) Index, posted a significant gain of 7.16%. Spreads declined across all quality buckets, but BBB-rated bonds outperformed the high yield space.

► The fixed-rate mortgage market, as measured by the Bloomberg U.S. Mortgage-Backed Securities (MBS) Index, gained 7.48%, aided by rates falling. On the commercial side, the Bloomberg U.S. Agency CMBS Index rose 5.60%.

► Emerging market USD sovereign bonds, as represented by the JP Morgan EMBI Global Diversified index, gained 9.16% led by some of the largest weighted countries.

ALTERNATIVES

► REITs, as measured by the FTSE NAREIT Equity REITs Index, gained 16.22% in the fourth quarter of 2023, compared to a -7.13% return in the prior quarter. All major sectors posted gains during the quarter as market participants now expect falling interest rates in the near-term. The best performers were the Office and Self-Storage sectors, which posted returns of 23.54% and 23.51%, respectively. The worst performers during the quarter were the Apartments and Healthcare sectors, which posted returns of 8.89% and 10.47%, respectively.

► Listed infrastructure, as measured by the FTSE Global Core Infrastructure 50/50 Index, gained 11.11% in the fourth quarter of 2023, compared to a -7.80% decrease in the prior quarter. Most major sectors had positive returns during the quarter as interest rates fell from their highs. The best performing industry groups were Telecom Towers and Specialized, which posted returns of 30.67% and 25.66%, respectively. The worst performing industry groups during the quarter were Cable & Satellite Communications and Alternative Carriers, which posted returns of -5.07% and 3.29%, respectively.

► Commodity futures, represented by the Bloomberg Commodity Total Return Index, fell 4.63% in the fourth quarter of 2023, compared to a 4.71% gain in the prior quarter. The U.S. Dollar Index (DXY) fell 4.56% during the same period. The price of gold increased 11.60% in Q4, due to expectations of falling yields and rising geopolitical tensions. Gold finished the quarter at \$2,062.98 per ounce, up from \$1,848.63 at the end of the previous quarter. The West Texas Intermediate (WTI) Crude Oil spot price fell 21.08% from \$90.79 to \$71.65 per barrel as the impacts of high supplies and falling demand outweighed potential price tailwinds arising from concerns in the Middle East.

► Private real estate, as measured by the NCREIF Property Index, fell -1.37% in the third quarter of 2023, resulting in a -8.40% return over the twelve-month period ended September 2023. This was the fourth consecutive quarter of negative returns for the index. Weak performance has been driven by property value declines across sectors; although, Office has seen the most significant decline. Hotel properties were again the top performers, with a total return of 1.86% in the third quarter, comprised of 2.12% in income return and -0.25% in appreciation return. Office properties were again the worst performers with total return of -3.67%, comprised of 1.30% in income return and -4.97% in appreciation return.

Returns for Liquid and Semi-Liquid Alternative Assets

Periods Ended December 31, 2023

Sources: Bloomberg and Hedge Fund Research, Inc.

ALTERNATIVES (continued)

► In the third quarter of 2023, infrastructure funds raised \$10.25 billion. While this is up from the prior quarter, 2023 has seen a sharp decline in fundraising with fewer funds raising capital. Infrastructure dry powder has also fallen from previous years and stands at \$244.06 billion as of Q1 2023. The asset class has received attention from investors in recent years due to expectations that it could provide steady returns during periods of volatility, inflation, and recession. According to PitchBook, infrastructure funds posted a return of 5.97% in Q1 2023. The asset class has generated an annualized return of 10.53% for the 5 years ended Q1 2023.

► In the third quarter of 2023, private debt funds raised \$31.70 billion, down from the prior quarter. Private debt dry powder has fallen to \$449.00 billion as of Q1 2023; although, it remains above the long-term average. The asset class has performed well relative to public fixed income over the long-term and may see more opportunities emerge in the near-term as tightening lending standards continue to push banks out of the private lending space. According to Cliffwater Direct Lending Index, U.S. middle market loans, a proxy for private debt, posted a return of 3.17% in Q3 2023. The asset class has also generated an annualized return of 8.64% for the 5 years ended Q3 2023.

► In the third quarter of 2023, private capital fundraising was led by private equity funds, which closed on \$133.40 billion, up from the prior quarter. Global private equity dry powder, which accounts for the bulk of private capital dry powder, remains high at \$1.55 trillion as of Q1 2023. Recent private equity performance has weakened as a result of increasing cost of leverage, slowing deal flow, and macroeconomic uncertainty; however, longer term performance relative to public equities remains strong. According to Cambridge Associates, U.S. private equity posted a return of 2.76% in Q2 2023. The asset class has generated an annualized return of 17.77% for the 5 years ended Q2 2023.

► Hedge fund returns were mostly positive quarter-to-date through November 2023 with the HFRI Fund Weighted Composite Index returning 0.99%. During the same period, the HFRI Macro (Total) Index returned -1.67%. The HFRI Equity Hedge (Total) Index and the HFRI Fund of Funds Index returned 1.82% and 1.15%, respectively.

Performance reports included may show performance results gross of fees and expenses. If fees and expenses were included, the performance would be lower. If you have any questions, please speak with your relationship manager for additional information.

Based on our strategic approach to creating diversified portfolios, guidelines are in place concerning the construction of portfolios and how investments should be allocated to specific asset classes based on client goals, objectives and tolerance for risk. Not all recommended asset classes will be suitable for every portfolio. **Diversification and asset allocation do not guarantee returns or protect against losses.**

Important disclosures (page 2 of 4)

Equity securities are subject to stock market fluctuations that occur in response to economic and business developments. **Stocks of small-capitalization companies** involve substantial risk. These stocks historically have experienced greater price volatility than stocks of larger companies and may be expected to do so in the future. **Stocks of mid-capitalization companies** can be expected to be slightly less volatile than those of small-capitalization companies, but still involve substantial risk and may be subject to more abrupt or erratic movements than large-capitalization companies. The value of **large-capitalization stocks** will rise and fall in response to the activities of the company that issued them, general market conditions and/or economic conditions. **Growth investments** focus on stocks of companies whose earnings/profitability are accelerating in the short term or have grown consistently over the long term. Such investments may provide minimal dividends, which could otherwise cushion stock prices in a market decline. Stock value may rise and fall significantly based, in part, on investors' perceptions of the company, rather than on fundamental analysis of the stocks. Investors should carefully consider the additional risks involved in growth investments. **Value investments** focus on stocks of income-producing companies whose price is low relative to one or more valuation factors, such as earnings or book value. Such investments are subject to risks that their intrinsic values may never be realized by the market, or such stocks may turn out not to have been undervalued. Investors should carefully consider the additional risks involved in value investments.

International investing involves special risks, including foreign taxation, currency risks, risks associated with possible differences in financial standards and other risks associated with future political and economic developments. Investing in **emerging markets** may involve greater risks than investing in more developed countries. In addition, concentration of investments in a single region may result in greater volatility.

Investments in **real estate securities** can be subject to fluctuations in the value of the underlying properties, the effect of economic conditions on real estate values, changes in interest rates and risks related to renting properties (such as rental defaults). There are special risks associated with an investment in **commodities**, including market price fluctuations, regulatory changes, interest rate changes, credit risk, economic changes and the impact of adverse political or financial factors.

Investments in **fixed income securities** are subject to various risks, including changes in interest rates, credit quality, market valuations, liquidity, prepayments, early redemption, corporate events, tax ramifications and other factors. Investment in fixed income securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term securities. Investments in lower-rated and non-rated securities present a greater risk of loss to principal and interest than higher-rated securities. Investments in **high yield bonds** offer the potential for high current income and attractive total return, but involve certain risks. Changes in economic conditions or other circumstances may adversely affect a bond issuer's ability to make principal and interest payments.

Important disclosures (page 3 of 4)

The **municipal bond** market is volatile and can be significantly affected by adverse tax, legislative or political changes and the financial condition of the issues of municipal securities. Interest rate increases can cause the price of a bond to decrease. Income on municipal bonds is free from federal taxes, but may be subject to the federal alternative minimum tax (AMT), state and local taxes.

Treasury Inflation-Protected Securities (TIPS) offer a lower return compared to other similar investments and the principal value may increase or decrease with the rate of inflation. Gains in principal are taxable in that year, even though not paid out until maturity.

Non-financial **specialty assets**, such as real estate, farm, ranch and timber properties, oil, gas and mineral interests or closely-held business interests are complex and involve unique risks specific to each asset type, including the total loss of value. Special risk considerations may include natural events or disasters, complex tax considerations and lack of liquidity. Specialty assets may not be suitable for all investors.

Alternative investments very often use speculative investment and trading strategies. There is no guarantee that the investment program will be successful. Alternative investments are designed only for investors who are able to tolerate the full loss of an investment. These products are not suitable for every investor even if the investor does meet the financial requirements. It is important to consult with your investment professional to determine how these investments might fit your asset allocation, risk profile and tax situation. **Hedge funds** are speculative and involve a high degree of risk. An investment in a hedge fund involves a substantially more complicated set of risk factors than traditional investments in stocks or bonds, including the risks of using derivatives, leverage and short sales, which can magnify potential losses or gains. Restrictions exist on the ability to redeem or transfer interests in a fund. **Exchange-traded funds (ETFs)** are baskets of securities that are traded on an exchange like individual stocks at negotiated prices and are not individually redeemable. ETFs are designed to generally track a market index and shares may trade at a premium or a discount to the net asset value of the underlying securities. **Private equity** investments provide investors and funds the potential to invest directly into private companies or participate in buyouts of public companies that result in a delisting of the public equity. Investors considering an investment in private equity must be fully aware that these investments are illiquid by nature, typically represent a long-term binding commitment and are not readily marketable. The valuation procedures for these holdings are often subjective in nature. **Private debt** investments may be either direct or indirect and are subject to significant risks, including the possibility of default, limited liquidity and the infrequent availability of independent credit ratings for private companies. **Structured products** are subject to market risk and/or principal loss if sold prior to maturity or if the issuer defaults on the security. Investors should request and review copies of Structured Products Pricing Supplements and Prospectuses prior to approving or directing an investment in these securities.

Important disclosures (page 4 of 4)

Mutual fund investing involves risk and principal loss is possible. Investing in certain funds involves special risks, such as those related to investments in small- and mid-capitalization stocks, foreign, debt and high-yield securities and funds that focus their investments in a particular industry. Please refer to the fund prospectus for additional details pertaining to these risks. An investment in **money market funds** is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although these funds seek to preserve the value of an investment at \$1.00 per share, it is possible to lose money by investing in these funds.

Holdings of First American Funds: U.S. Bancorp Asset Management, Inc. is a registered investment advisor and subsidiary of U.S. Bank National Association. U.S. Bank National Association is a separate entity and wholly owned subsidiary of U.S. Bancorp. U.S. Bank is not responsible for and does not guarantee the products, performance or services of U.S. Bancorp Asset Management. U.S. Bancorp Asset Management, Inc. serves as an investment advisor to First American Funds. **Holdings of Nuveen mutual funds:** Firststar Capital Corporation (Firststar Capital), an affiliate of U.S. Bancorp, holds a less-than-10 percent ownership interest in Windy City Investments Holdings, LLC which was formerly the parent of Windy City Investment Inc. and the indirect parent of Nuveen Fund Advisors, LLC which is the investment advisor to the Nuveen Mutual Funds. On October 1, 2014, Windy City Investments, Inc. was sold to Teachers Insurance and Annuity Association of America. As a result of the sale, U.S. Bancorp no longer has an indirect ownership interest in Nuveen Fund Advisors, LLC. Depending on the outcome of certain factors, Firststar Capital might in the future receive an earn-out payment in respect of its interest in Windy City Investment Holdings, LLC, under the terms of the sale. **Non-proprietary mutual funds:** U.S. Bank may enter into agreements with other non-proprietary mutual funds or their service providers whereby U.S. Bank provides shareholder services and/or sub-transfer agency, custodial and other administrative support services and receives compensation for these services. Compensation received by U.S. Bank directly or indirectly from mutual funds does not increase fund fees and expenses beyond what is disclosed in the fund prospectuses. For more information, review the fund prospectus.

Definitions of report and statement terms (page 1 of 5)

Accredited Investor: Private placement securities generally require that investors be accredited due to the additional risks and speculative nature of the securities. For natural persons, the criteria is met by a net worth of more than \$1 million (excluding primary residence) or an income of more than \$200,000 individually (\$300,000 jointly) for the two most recent years and a reasonable expectation for the same in the current year. For other entities, such as corporations, partnerships, trusts and employee benefit plans, the criteria is met with at least \$5 million in assets. See full definition in Rule 501 of Regulation D under the Securities Act of 1933.

Alpha: A measure of risk-adjusted performance. A statistic measuring that portion of a stock, fund or composite's total return attributable to specific or non-market risk. Alpha measures non-market return and indicates how much value has been added or lost. A positive Alpha indicates the fund or composite has performed better than its Beta would predict (i.e., the manager has added value above the benchmark). A negative Alpha indicates a fund or composite has underperformed given the composite's Beta.

Alternative Investments: As used by U.S. Bank, an investment considered to be outside of the traditional asset classes of long-only stocks, bonds and cash. Examples of alternative investments include hedge funds, private equity, options and financial derivatives.

Annualized Excess Return: Shows the difference between the annualized linked returns of a portfolio and the model benchmark. Performance reports provided annualize only periods greater than one year.

Annualized or Annual Rate of Return: Represents the average annual change in the value of an investment over the periods indicated.

Batting Average: Shows how consistently the portfolio return met or beat the market.

Beta: A measure of your portfolio's risk relative to a benchmark. A portfolio with a beta of 1.5, for example, would be expected to return roughly 1.5 times the benchmark's return. A high Beta indicates a riskier portfolio.

Bond Credit Rating: A grade given to bonds by a private independent rating service that indicates their credit quality. Ratings are the opinion of Standard & Poor's or other agencies as noted and not the opinion of U.S. Bank.

Consumer Price Index (CPI): A measure of the average change in prices over time in a market basket of goods and services and is one of the most frequently used statistics for identifying periods of inflation and deflation.

Convexity to Stated Maturity: A measure of the curvature in the relationship between bond prices and bond yields that demonstrates how the duration of a bond changes as the interest rate changes. Convexity is used as a risk-management tool and helps to measure and manage the amount of market risk to which a portfolio of bonds is exposed. This version of convexity measures the rate change in duration of a bond as the yield to (stated) maturity changes.

Definitions of report and statement terms (page 2 of 5)

Cost basis/book value: The original value of an asset at the time it was acquired. This is normally the purchase price or appraised value at the time of acquisition. This data is for information purposes only.

Cumulative Excess Return: Shows the difference between the annualized linked returns of a portfolio and the model benchmark. Performance reports provided use unannualized returns in periods up to one year, but annualized returns for periods exceeding one year.

Downside Capture: The downside capture ratio reflects how a portfolio compares to a benchmark during periods when the benchmark is down. A downside capture ratio of 0.80 (or 80 percent) means the portfolio has historically declined only 80 percent as much as the benchmark during down markets.

Downside Deviation: The deviation of returns that fall below a minimum acceptable return (MAR). Although the numerator includes only returns below the MAR, the denominator includes all returns in the performance period. This risk statistic is similar to the downside standard deviation except the sum is restricted to returns less than the MAR instead of the mean.

Downside Standard Deviation: The deviation of returns that fall below the mean return. Although the numerator includes only returns below the mean, the denominator includes all returns in the performance period. This risk statistic is similar to the downside deviation except the sum is restricted to returns less than the mean instead of the minimum acceptable return (MAR).

Effective Maturity: The date of a bond's most likely redemption, given current market conditions, taking into consideration the optional and mandatory calls, the optional, mandatory and recurring puts, and the stated maturity.

Estimated annual income: The amount of income a particular asset is anticipated to earn over the period indicated. The shares multiplied by the annual income rate.

Gain/loss calculation: If an asset was sold, the difference between the proceeds received from the sale compared to the cost of acquiring the asset. If the value of the proceeds is the higher of the two numbers, then a gain was realized. If the value of the proceeds is the lower of the two numbers, a loss was incurred. This data is for information purposes only.

Gross of Fees: Represents all assets included in the calculation of the portfolio -- before the deduction of trust and asset management fees -- and is inclusive of all applicable third party security fees and expenses. Details of those fees and expenses are provided in the security's prospectus or offering documents.

Information Ratio: The information ratio compares the average excess return of the portfolio over its associated benchmark divided by the tracking error.

M-Squared: The hypothetical return of the portfolio after its risk has been adjusted to match a benchmark.

Definitions of report and statement terms (page 3 of 5)

Market Value: Publicly traded assets are valued using market quotations or valuation methods from financial industry services believed by us to be reliable. Assets, that are not publicly traded, may be reflected at values from other external sources or special valuations prepared by us. Assets for which a current value is not available may be reflected as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could have been bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

Market Value Over Time: Many factors can impact the portfolio value over time, such as contributions to the account, distributions from the account, the investment of dividends and interest, the deduction of fees and expenses, and market performance.

Modified Duration to Effective Maturity: A formula that expresses the measurable change in the value of a security in response to a change in interest rates. This version of Modified Duration takes into consideration a “horizon date/price” that is, given current conditions, the most likely redemption date/price using the set of calls/puts, as well as stated maturity.

Modified Duration to Stated Maturity: A formula that expresses the measurable change in the value of a security in response to a change in interest rates. This version of Modified Duration uses stated maturity as the “horizon date/price” and ignores any potential call/put/pre-refunding, even if they are mandatory.

Net of Fees: Represents all assets included in the calculation of the portfolio -- after the deduction of trust and asset management fees. Please refer to the client fee schedule for additional information.

Price/Earnings Ratio (P/E): The P/E ratio of a company is calculated by dividing the price of the company’s stock by its trailing 12-month earnings per share. A high P/E usually indicates that the market is paying a premium for current earnings because it believes in the firm’s ability to grow its earnings. A low P/E indicates the market has less confidence that the company’s earnings will increase. Within a portfolio, P/E is the weighted average of the price/earnings ratios of the stocks in the portfolio.

Qualified Purchaser: Some private placement securities require that investors be Qualified Purchasers in addition to being Accredited Investors. For natural persons, the criteria is generally met when the client (individually or jointly) owns at least \$5 million in investments. For other entities, such as corporations, partnerships, trusts and employee benefit plans, the criteria is met with at least \$25 million in investments though there are other eligibility tests that may apply. See full definition in Section 2(a)(51) of the Investment Company Act of 1940.

R-Squared: Measures the portion of the risk in your portfolio that can be attributed to the risk in the benchmark.

Realized and Unrealized Gains/Losses: Are calculated for individual tax lots based on the records we have available. Some data may be incomplete or differ from what you are required to report on your tax return. Some data used in these calculations may have been obtained from outside sources and cannot be verified by U.S. Bank. The data is intended for informational purposes only and should not be used for tax reporting purposes. Please consult with your tax or legal advisor for questions concerning your personal tax or financial situation.

Definitions of report and statement terms (page 4 of 5)

Residual Risk: The amount of risk specific to the assets in a portfolio distinct from the market, represented by a benchmark.

Return: An indication of the past performance of your portfolio.

Sharpe Ratio: Measures of risk-adjusted return that calculates the return per unit of risk, where risk is the Standard Deviation of your portfolio. A high Sharpe ratio indicates that the portfolio is benefiting from taking risk.

Sortino Ratio: Intended to differentiate between good and bad volatility. Similar to the Sharpe ratio, except it uses downside deviation for the denominator instead of standard deviation, the use of which doesn't discriminate between up and down volatility.

Spread: The difference between the yields of two bonds with differing credit ratings (most often, a corporate bond with a certain amount of risk is compared to a standard traditionally lower risk Treasury bond). The bond spread will show the additional yield that could be earned from a bond which has a higher risk.

Standard Deviation: A measure of the volatility and risk of your portfolio. A low standard deviation indicates a portfolio with less volatile returns and therefore less inherent risk.

Time-weighted Return: The method used to calculate performance. Time-weighted return calculates period by period returns that negates the effect of external cash flows. Returns for periods of greater than one year are reported as an annualized (annual) rate of return. Returns of less than one year are reported on a cumulative return basis. Cumulative return is the aggregate amount an investment has gained or lost over time, independent of the period involved.

Tracking Error: A divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark. This is often in the context of a hedge or mutual fund that did not work as effectively as intended, creating an unexpected profit or loss instead.

Traditional Investments: As used by U.S. Bank, an investment made in equity, fixed income or cash securities, mutual funds or exchange-traded funds (ETFs) where the investor buys at a price with the goal that the investment will go up in value.

Top 10 Holdings: The 10 assets with the highest market values in the account.

Total Portfolio Gross of Fees: Represents all assets included in the calculation of the portfolio, before the deduction of trust and asset management fees, and is inclusive of all applicable third-party security fees and expenses. Details of those fees and expenses are provided in the security's prospectus or offering documents.

Definitions of report and statement terms (page 5 of 5)

Total Return: The rate of return that includes the realized and unrealized gains and losses plus income for the measurement period.

Treynor Ratio: Measures the performance of a sector relative to risk by dividing the return of the sector in excess of the risk-free return by the sector's Beta. The higher the Treynor ratio, the better the return relative to risk.

Turnover Percent: Indicates how frequently asset are bought and sold within a portfolio.

Turnover Ratio: The percentage of a mutual fund's or other investment vehicle's holdings that have been "turned over" or replaced with other holdings in a given year.

Unrealized gain (loss) — The difference between the current market value (at the end of the statement period) and the cost to acquire the asset. If the current market value is higher than the cost, a gain is reflected. If the current market value is lower than the cost paid, a loss is reflected. This data is for information purposes only.

Upside Capture: The upside capture ratio reflects how a portfolio compares to the selected model benchmark during periods when the benchmark is up. An upside capture ratio of 1.15 (or 115 percent) means the portfolio has historically beat the benchmark by 15 percent during up markets.

Yield: The annual rate of return on an investment, expressed as a percentage. For bonds, it is the coupon rate divided by the market price. For stocks, it is the annual dividend divided by the market price.

Frequently used indexes (page 1 of 5)

Bloomberg Barclays 1-3 year U.S. Treasury Index: Measures the performance of the U.S. government bond market and includes public obligations of the U.S. Treasury with a maturity between one year and up to (but not including) three years.

Bloomberg Barclays 1-5 year U.S. Treasury Index: Includes all publicly issued, U.S. Treasury securities that have a remaining maturity of greater than or equal to one year and less than five years, are rated investment grade and have \$250 million or more of outstanding face value.

The Bloomberg Barclays 1-5 year Municipal Index: Measures the performance of municipal bonds with time to maturity of more than one year and less than five years.

Bloomberg Barclays 7-year Municipal Index: Includes municipal bonds with a minimum credit rating of Baa that have been issued as part of a transaction of at least \$50 million, have a maturity value of at least \$5 million and a maturity range of four to six years.

Bloomberg Barclays Global Aggregate Index ex-U.S. Index: Measure of global investment grade debt from 24 local currency markets. This multi-currency benchmark includes Treasury, government-related, corporate and securitized fixed-rate bonds from both developed and emerging markets issuers.

Bloomberg Barclays Global Treasury ex-U.S. Index: Includes government bonds issued by investment-grade countries outside the United States, in local currencies, that have a remaining maturity of one year or more and are rated investment grade.

Bloomberg Barclays High Yield Municipal Bond Index: An unmanaged index made up of bonds that are non-investment grade, unrated or below Ba1 bonds.

Bloomberg Barclays Intermediate Aggregate Index: Consists of one- to 10-year governments, one- to 10-year corporate bonds, all mortgages and all asset-backed securities within the Aggregate Index.

Bloomberg Barclays Mortgage-Backed Securities Index: Covers agency mortgage-backed pass-through securities (both fixed-rate and hybrid adjustable-rate mortgages) issued by Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC).

Bloomberg Barclays U.S. Aggregate Bond Index: Measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities, asset-backed securities and commercial mortgage-backed securities.

Bloomberg Barclays U.S. Corporate Bond Index: Measures the investment grade, fixed-rate, taxable corporate bond market and includes U.S. dollar-denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers.

Frequently used indexes (page 2 of 5)

Bloomberg Barclays U.S. Corporate High Yield Bond Index: Measures the U.S. dollar denominated, high yield, fixed-rate corporate bond market.

Bloomberg Barclays U.S. Municipal Bond Index: Measures the investment grade, U.S. dollar-denominated, fixed tax-exempt bond market. The index includes state and local general obligation, revenue, insured and pre-refunded bonds.

Bloomberg Barclays U.S. Treasury Index: Measures U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury.

Bloomberg Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index: An unmanaged index includes all publicly issued, U.S. TIPS that have at least one year remaining to maturity, are rated investment grade, and have \$250 million or more of outstanding face value.

Cambridge U.S. Private Equity Index: This index is based on returns data compiled for U.S. private equity funds (including buyout, growth equity and mezzanine funds) that represent the majority of institutional capital raised by private equity partnerships formed since 1986. Returns may be delayed by up to six months. Quarterly performance is prorated based on the cube root for the months of the quarter.

Citigroup 3-Month Treasury Bills: An unmanaged index and represents monthly return equivalents of yield averages of the last three-month Treasury Bill issues.

Citigroup 6-Month Treasury Bills: An unmanaged index and represents monthly return equivalents of yield averages of the last six-month Treasury Bill issues.

Credit Suisse Leverage Loan Index: Represents tradable, senior-secured, U.S. dollar-denominated non-investment grade loans.

Dow Jones Industrial Average (DJIA): The price-weighted average of 30 significant U.S. stocks traded on the New York Stock Exchange and NASDAQ. The DJIA is the oldest and single most watched index in the world.

Dow Jones Select REIT Index: Measures the performance of publicly traded REITs and REIT-like securities in the U.S. and is a proxy for direct real estate investment, in part by excluding companies whose performance may be driven by factors other than the value of real estate.

HFRI Indices: The Hedge Fund Research, Inc. (HFRI) indexes are a series of benchmarks designed to reflect hedge fund industry performance by constructing composites of constituent funds, as reported by the hedge fund managers listed within the HFR Database.

Frequently used indexes (page 3 of 5)

HFR Equity Hedge Total Index: Uses the HFR (Hedge Fund Research) database and consists only of equity hedge funds with a minimum of \$50 million assets under management or a 12-month track record and that reported assets in U.S. dollars.

HFR Relative Value Fixed Income Corporate Index: Uses the HFR (Hedge Fund Research) database and consists of only relative value fixed income corporate funds with a minimum of \$50 million assets under management or a 12-month track record and that reported assets in U.S. dollars.

ICE BofAML 1-3 Year Corporate Index: Tracks U.S. dollar-denominated investment grade public debt issued in the U.S. bond market with maturities of one to three years.

ICE BofAML 1-5 Year Corporate and Government Index: Tracks the performance of short-term U.S. investment grade government and corporate securities with maturities between one and five years.

ICE BofAML U.S. 7-10 Year Index: Tracks the performance of U.S. dollar denominated investment grade rated corporate debt publicly issued in the U.S. domestic market and includes all securities with a remaining term to maturity of greater than or equal to seven years and less than 10 years.

ICE BofAML Global Broad Market Index: Tracks the performance of investment grade public debt issued in the major domestic and Eurobond markets, including global bonds.

ICE BofAML U.S. High Yield Master II Index: Commonly used benchmark index for high yield corporate bonds and measures the broad high yield market.

J.P. Morgan Emerging Markets Bond Index Global (EMBI Global): Tracks total returns for traded external debt instruments in the emerging markets.

London Interbank Offered Rate (LIBOR) 3-months: The interest rate offered by a specific group of London banks for U.S. dollar deposits with a three-month maturity.

London Interbank Offered Rate (LIBOR) 9-months: The interest rate offered by a specific group of London banks for U.S. dollar deposits with a nine-month maturity.

MSCI All Country World Index (ACWI): Designed to measure the equity market performance of developed and emerging markets.

Frequently used indexes (page 4 of 5)

Russell 2000 Value Index: Measures companies in the Russell 2000 Index having lower price-to-book ratios and lower forecasted growth values. The Russell 2000 Index includes the 2,000 firms from the Russell 3000 Index with the smallest market capitalizations.

Russell 3000 Index: Measures the performance of the 3,000 largest U.S. securities based on total market capitalization.

Russell Midcap Index: Measures the 800 smallest companies in the Russell 3000 Index.

Russell Midcap Growth Index: Measures companies in the Russell Midcap Index having higher price-to-book ratios and higher forecasted growth values.

Russell Midcap Value Index: Measures companies in the Russell Midcap Index having lower price-to-book ratios and lower forecasted growth values.

MSCI All County World ex-U.S. Index (ACWI, excluding United States): Tracks the performance of stocks representing developed and emerging markets around the world that collectively comprise most foreign stock markets. U.S. stocks are excluded from the index.

MSCI EAFE Index: Includes approximately 1,000 companies representing the stock markets of 21 countries in Europe, Australasia and the Far East.

MSCI Emerging Markets (EM) Index: Designed to measure equity market performance in global emerging markets.

MSCI World Index: Tracks equity market performance of developed markets through individual country indices.

NAREIT Index: Includes REITs (Real Estate Investment Trusts) listed on the New York Stock Exchange, NASDAQ and American Stock Exchange.

NASDAQ Composite Index: A market capitalization-weighted average of roughly 5,000 stocks that are electronically traded in the NASDAQ market.

NCREIF Property Index (NPI): Measures the investment performance of a very large pool of individual commercial real estate properties acquired in the private market for investment purposes only.

Russell 1000 Index: Measures the performance of the 1,000 largest companies in the Russell 3000 Index and is representative of the U.S. large capitalization securities market.

Frequently used indexes (page 5 of 5)

Russell 1000 Growth Index: Measures companies in the Russell 1000 Index with higher price-to-book ratios and higher forecasted growth values. It includes the largest 1,000 firms in the Russell 3000 Index.

Russell 1000 Value Index: Measures companies in the Russell 1000 Index with lower price-to-book ratios and lower forecasted growth values. It includes the largest 1,000 firms in the Russell 3000 Index.

Russell 2000 Index: Measures the performance of the 2,000 smallest companies in the Russell 3000 Index and is representative of the U.S. small capitalization securities market.

Russell 2000 Growth Index: Measures companies in the Russell 2000 Index having higher price-to-book ratios and higher forecasted growth values, and is representative of U.S. securities exhibiting growth characteristics. The Russell 2000 Index includes the 2,000 firms from the Russell 3000 Index with the smallest market capitalizations.

S&P 500 Index: Consists of 500 widely traded stocks that are considered to represent the performance of the U.S. stock market.

S&P Global ex-U.S. Property Index: Measures the investable universe of publicly traded property companies domiciled in developed and emerging markets excluding the United States. The companies included are engaged in real estate related activities such as property ownership, management, development, rental and investment.

S&P GSCI: A composite index of commodity sector returns, representing an unleveraged, long-only investment in commodity futures that is broadly diversified across the spectrum of commodities.

S&P/Case-Shiller Home Price Indexes: A group of indexes that track changes in home prices throughout the United States. Case-Shiller produces indexes representing certain metropolitan statistical areas (MSA) as well as a national index.

Swiss Re Global Cat Bond Total Return Index: Tracks the aggregate performance of all U.S. dollar-denominated euros and Japanese yen-denominated catastrophe bonds, capturing all ratings, perils and triggers.

U.S. Dollar Index: Indicates the general international value of the U.S. dollar by averaging the exchange rates between the U.S. dollar and six major world currencies.

Wilshire 5000 Index: Composed of more than 6,700 publicly-traded U.S. companies and is designed to track the overall performance of the American stock markets.

Years of Experience (As of 12/31/23)	Assets under Management & Advisement

* Assets under management and advisement as of December 31, 2023 includes fixed income and multi asset class portfolios

PARS IRS-APPROVED SECTION 115 TRUST

Subaccounts

OPEB and pension assets are individually sub-accounted, and can be divided by dept., bargaining group, or cost center.

Financial Stability

Assets in the PARS Section 115 Combination Trust can be used to address unfunded liabilities.

Flexible Investing

Allows separate investment strategies for OPEB and pension subaccounts.

Anytime Access

Trust funds are available anytime; OPEB for OPEB and pension for pension.

Economies-of-Scale

OPEB and pension assets aggregate and reach lower fees on tiered schedule sooner – saving money!

No Set Up Cost or Minimums

No set-up costs, no minimum annual contribution amounts, and no fees until assets are added.

MARKET SUMMARY

Provided by Sub-Advisor - PFM Asset Management LLC

THE ECONOMY

- ▶ In the fourth quarter, U.S. gross domestic product (GDP) grew at an annualized rate of 3.4%, cooling somewhat from the third quarter’s 4.9% growth. This growth was supported by both non-residential business investment and consumer spending. Consumer spending added 2.2% and was the largest contributing sector to GDP growth. The continued strength of the U.S. economy is a sharp contrast to other developed markets such as the euro area which stagnated at 0.1% growth and Japan which expanded just 0.4% during the quarter.
- ▶ The U.S. labor market remains strong. While the unemployment rate ticked up slightly it remains at historical lows, ending the quarter at 3.8%. The labor participation rate rose slightly to 62.7%, while average hourly earnings year-over-year (YoY) growth cooled to 4.1%, which bodes well for easing wage pressures on inflation without a large increase in unemployment.
- ▶ Inflation remains somewhat “sticky” as headline inflation (CPI) grew at a YoY rate of 3.2% in February, down from the 3.4% growth at the end of the fourth quarter, but up slightly from January. Core CPI, which excludes volatile food and energy, eased to a near three year low of 3.8%. Both readings remain well above the Fed target of 2%, likely reinforcing the Federal Reserve’s (Fed) wait and see approach to rate cuts.

WHAT WE'RE WATCHING

- ▶ The Federal Open Market Committee (FOMC) continued to hold rates steady in the first quarter at 5.50% as Fed officials need “greater confidence” that inflation is slowing sustainably to 2%. Looking forward, while the committee revised both their projections for growth and inflation slightly higher, three rate cuts are still expected for 2024. Globally, most major central banks also held rates steady, with the European Central Bank (ECB) and the Bank of England (BOE) both pausing despite increasing pressure from poor economic growth. The Central Bank of Japan bucked this trend, raising its key interest rate for the first time in 17 years in March.
- ▶ The U.S. saw manufacturing conditions improve during the quarter as U.S. ISM Manufacturing Index turned expansionary with a reading of 50.3 in March, the first non-contractionary result in over a year, as demand increased. The service sector continued to expand through the quarter, though at a slowing pace with a March reading of 51.4.
- ▶ The Michigan Consumer Sentiment survey ended the quarter at 79.4, the highest reading since July 2021 as consumer assessments of both current conditions and the economic outlook brightened. This positive outlook suggests continued strength in consumer spending though at what rate is to be determined. The personal savings rate fell in February to 3.6% while consumer debt and delinquency rates steadily increased in the fourth quarter, though overall delinquency rates remain lower than pre-COVID rates.

DOMESTIC EQUITY

- ▶ The S&P 500 Index (S&P) posted a 10.56% return for the first quarter of 2024. As of March 31, 2024, the trailing 1-year return for the index was 29.88%.
- ▶ The market capitalization-weighted S&P 500 continued its outperformance over the equal-weighted S&P 500 Index, though the difference was not as wide as we saw in 2023. During the quarter, there were periods of broadening in performance outside of the Magnificent Seven names, but they started to see cracks as Apple and Tesla posted negative returns. Additionally, mid-caps outperformed large-caps in February and March but finished the quarter behind large-caps.
- ▶ Within S&P 500, the only GICS sector to post a negative return for the quarter was Real Estate (-0.55%). The next worst performers were Utilities (4.57%), Consumer Discretionary (4.98%) and Healthcare (8.85%). The sectors that led performance over the quarter were Communication Services (15.82%), Energy (13.69%) and Information Technology (12.69%).
- ▶ Small-caps, as represented by the Russell 2000 Index, returned 5.2% during the quarter and underperformed mid- and large-caps. The Russell Midcap and Russell 1000 indices returned 8.60% and 10.30%, respectively.
- ▶ According to FactSet Earnings Insight (as of March 28, 2024), the expected YoY earnings growth rate for the S&P for the first quarter of 2024 is 3.6%, a slight decline from the December 31, 2023 estimate. For calendar year 2024, analysts are calling for YoY earnings growth of 11.0%.
- ▶ As of the end of the quarter, the forward S&P 500 P/E ratio was 23.3, above its 5-year average of 22.2. By comparison the forward S&P 500 P/E ratio was 20.3 in March 2023.

NON-U.S. EQUITY

- ▶ Markets outside of the United States, as measured by the MSCI ACWI ex-U.S. Index, underperformed their U.S. counterparts, returning 4.69% for the quarter.
- ▶ Seven of the 11 sectors posted strong positive returns for the quarter, with Information Technology (11.37%) leading the way, followed by Consumer Discretionary (7.20%) and Industrials (6.95%). Consumer Staples (-3.16%) was the worst performer followed by Utilities (-2.98%) and Materials (-1.64%) for the quarter.
- ▶ Developed ex-U.S. Markets, as represented by the MSCI EAFE Index, outperformed emerging markets (EM), represented by the MSCI Emerging Market Index, returning 5.78% versus 2.37% for the quarter.
- ▶ MSCI Japan (11.01%) outperformed the MSCI EAFE Index. Japanese equities rose as better corporate governance practices, strong corporate earnings, and the Bank of Japan accommodative policy stance reinforced positive investor sentiment. Switzerland (-1.24%) was the worst performer of the five largest-weighted countries in the index. The country's strong currency dampened exports, resulting in a drag on many large Swiss firms' earnings.
- ▶ Within EM, MSCI Taiwan outperformed the index, soaring 12.50% during the quarter. TSMC and other semiconductor names within the country fared well, bolstered by strong demand for artificial intelligence-enabling processors. Conversely, MSCI China (-0.63%) lagged the index. Despite the rebound in February and the Chinese government's willingness to unleash more stimulus in the economy, investor sentiment remains negative and challenges in the property sector persist.
- ▶ Value stocks underperformed growth stocks for the quarter as represented by the broad benchmark. MSCI AC World ex-USA Value returned 3.40% while MSCI AC World ex-USA Growth returned 5.91%.
- ▶ Small-caps, as represented by MSCI ACWI ex-U.S. Small Cap Index, underperformed within the international equity markets, returning 2.11% for the quarter.
- ▶ Non-US equities valuations have moved closer to their long-term average across international equity markets. As of March 31, 2024, MSCI EAFE's forward P/E stood at 15.61 versus a five-year average of 15.96. MSCI EM ended the year with a forward P/E ratio of 12.63, slightly lower than its five-year average of 13.26.

FIXED INCOME

- ▶ The U.S. bond market represented by the Bloomberg U.S. Aggregate (Aggregate) Index was down -0.78% in the quarter. The trailing one-year period return is 1.69%.
- ▶ The Bloomberg U.S. Treasury Index closed the quarter with a loss of -0.96%. During the period, the FOMC maintained interest rate levels and continued to signal fewer cuts for 2024 than the market anticipated on the back of some stickier inflationary data. All rates beyond one year rose with the largest increases in intermediate maturities. The curve remains inverted as the Fed Funds rate remains targeted at 5.5%. The 10-year rose to 4.2%, while the 2-year ended at 4.6%.
- ▶ Corporate credit had positive relative results for the quarter on the rising rates. The investment-grade (IG) Bloomberg U.S. Corporate (IG Corp) Index lost 0.40% while high yield bonds, as represented by the Bloomberg U.S. Corporate High Yield (HY) Index, gained 1.47%, continuing strong performance from 2023. Spreads declined across all quality buckets with the lowest quality high yield performing best.
- ▶ The fixed-rate mortgage market, as measured by the Bloomberg U.S. Mortgage-Backed Securities (MBS) Index, lost 1.04%, on rates rising with much of the market being in lower coupons with higher duration. On the commercial side, the Bloomberg U.S. Agency CMBS Index was relatively better, down 0.29%.
- ▶ EM USD sovereign bonds, as represented by the JP Morgan EMBI Global Diversified index, gained 2.04% supported by strong returns in select high yield rated countries.

ALTERNATIVES

► Public REITs, as measured by the FTSE NAREIT Equity REITs Index, returned -0.20% in the first quarter of 2024, compared to a 16.22% return in the prior quarter while private real estate, as measured by the NCREIF Property Index, fell -3.02% in the fourth quarter of 2023, resulting in a -7.90% return over the twelve-month period ended December 2023. This was the fifth consecutive quarter of negative returns for the index. Weak performance has been driven by property value declines across sectors.

► Listed infrastructure, as measured by the FTSE Global Core Infrastructure 50/50 Index, gained 1.75% in the first quarter of 2024, compared to a 11.11% increase in the prior quarter with mixed performance across the major sectors. In 2023, private infrastructure funds raised \$65.36 billion, a sharp decline from the \$110.91 billion raised in the prior year. The asset class has received attention from investors in recent years due to expectations of stable returns in uncertain market environments, inflation hedging potential, and secular demand tailwinds such as decarbonization and digitization. According to PitchBook, private infrastructure funds posted a return of -3.55% in Q3 2023. The asset class has generated an annualized return of 8.45% for the five years ended Q3 2023.

► In 2023, private debt funds raised \$190.93 billion but experienced a sharp slowdown in fundraising during the second half of the year. The asset class has performed well relative to public fixed income over the long-term and may see more opportunities emerge as tightening lending standards continue to push banks out of the private lending space. According to Cliffwater Direct Lending Index, U.S. middle market loans, a proxy for private debt, posted a return of 2.95% in Q4 2023. The asset class has also generated an annualized return of 9.09% for the five years ended Q4 2023.

► In 2023, private equity funds raised \$554.04 billion, with a majority of the total raised in the second half of the year as inflation eased and monetary tightening flattened. Recent private equity performance has weakened due to increasing leverage costs, slow deal flow and macroeconomic uncertainty. However, longer term performance relative to public equities remains strong. According to Cambridge Associates, U.S. private equity posted a return of 0.58% in Q3 2023. The asset class has generated an annualized return of 16.98% for the five years ended Q3 2023.

Based on our strategic approach to creating diversified portfolios, guidelines are in place concerning the construction of portfolios and how investments should be allocated to specific asset classes based on client goals, objectives and tolerance for risk. Not all recommended asset classes will be suitable for every portfolio. **Diversification and asset allocation do not guarantee returns or protect against losses.**

Important disclosures (page 2 of 4)

Equity securities are subject to stock market fluctuations that occur in response to economic and business developments. **Stocks of small-capitalization companies** involve substantial risk. These stocks historically have experienced greater price volatility than stocks of larger companies and may be expected to do so in the future. **Stocks of mid-capitalization companies** can be expected to be slightly less volatile than those of small-capitalization companies, but still involve substantial risk and may be subject to more abrupt or erratic movements than large-capitalization companies. The value of **large-capitalization stocks** will rise and fall in response to the activities of the company that issued them, general market conditions and/or economic conditions. **Growth investments** focus on stocks of companies whose earnings/profitability are accelerating in the short term or have grown consistently over the long term. Such investments may provide minimal dividends, which could otherwise cushion stock prices in a market decline. Stock value may rise and fall significantly based, in part, on investors' perceptions of the company, rather than on fundamental analysis of the stocks. Investors should carefully consider the additional risks involved in growth investments. **Value investments** focus on stocks of income-producing companies whose price is low relative to one or more valuation factors, such as earnings or book value. Such investments are subject to risks that their intrinsic values may never be realized by the market, or such stocks may turn out not to have been undervalued. Investors should carefully consider the additional risks involved in value investments.

International investing involves special risks, including foreign taxation, currency risks, risks associated with possible differences in financial standards and other risks associated with future political and economic developments. Investing in **emerging markets** may involve greater risks than investing in more developed countries. In addition, concentration of investments in a single region may result in greater volatility.

Investments in **real estate securities** can be subject to fluctuations in the value of the underlying properties, the effect of economic conditions on real estate values, changes in interest rates and risks related to renting properties (such as rental defaults). There are special risks associated with an investment in **commodities**, including market price fluctuations, regulatory changes, interest rate changes, credit risk, economic changes and the impact of adverse political or financial factors.

Investments in **fixed income securities** are subject to various risks, including changes in interest rates, credit quality, market valuations, liquidity, prepayments, early redemption, corporate events, tax ramifications and other factors. Investment in fixed income securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term securities. Investments in lower-rated and non-rated securities present a greater risk of loss to principal and interest than higher-rated securities. Investments in **high yield bonds** offer the potential for high current income and attractive total return, but involve certain risks. Changes in economic conditions or other circumstances may adversely affect a bond issuer's ability to make principal and interest payments.

Important disclosures (page 3 of 4)

The **municipal bond** market is volatile and can be significantly affected by adverse tax, legislative or political changes and the financial condition of the issues of municipal securities. Interest rate increases can cause the price of a bond to decrease. Income on municipal bonds is free from federal taxes, but may be subject to the federal alternative minimum tax (AMT), state and local taxes.

Treasury Inflation-Protected Securities (TIPS) offer a lower return compared to other similar investments and the principal value may increase or decrease with the rate of inflation. Gains in principal are taxable in that year, even though not paid out until maturity.

Non-financial **specialty assets**, such as real estate, farm, ranch and timber properties, oil, gas and mineral interests or closely-held business interests are complex and involve unique risks specific to each asset type, including the total loss of value. Special risk considerations may include natural events or disasters, complex tax considerations and lack of liquidity. Specialty assets may not be suitable for all investors.

Alternative investments very often use speculative investment and trading strategies. There is no guarantee that the investment program will be successful. Alternative investments are designed only for investors who are able to tolerate the full loss of an investment. These products are not suitable for every investor even if the investor does meet the financial requirements. It is important to consult with your investment professional to determine how these investments might fit your asset allocation, risk profile and tax situation. **Hedge funds** are speculative and involve a high degree of risk. An investment in a hedge fund involves a substantially more complicated set of risk factors than traditional investments in stocks or bonds, including the risks of using derivatives, leverage and short sales, which can magnify potential losses or gains. Restrictions exist on the ability to redeem or transfer interests in a fund. **Exchange-traded funds (ETFs)** are baskets of securities that are traded on an exchange like individual stocks at negotiated prices and are not individually redeemable. ETFs are designed to generally track a market index and shares may trade at a premium or a discount to the net asset value of the underlying securities. **Private equity** investments provide investors and funds the potential to invest directly into private companies or participate in buyouts of public companies that result in a delisting of the public equity. Investors considering an investment in private equity must be fully aware that these investments are illiquid by nature, typically represent a long-term binding commitment and are not readily marketable. The valuation procedures for these holdings are often subjective in nature. **Private debt** investments may be either direct or indirect and are subject to significant risks, including the possibility of default, limited liquidity and the infrequent availability of independent credit ratings for private companies. **Structured products** are subject to market risk and/or principal loss if sold prior to maturity or if the issuer defaults on the security. Investors should request and review copies of Structured Products Pricing Supplements and Prospectuses prior to approving or directing an investment in these securities.

Important disclosures (page 4 of 4)

Mutual fund investing involves risk and principal loss is possible. Investing in certain funds involves special risks, such as those related to investments in small- and mid-capitalization stocks, foreign, debt and high-yield securities and funds that focus their investments in a particular industry. Please refer to the fund prospectus for additional details pertaining to these risks. An investment in **money market funds** is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although these funds seek to preserve the value of an investment at \$1.00 per share, it is possible to lose money by investing in these funds.

Holdings of First American Funds: U.S. Bancorp Asset Management, Inc. is a registered investment advisor and subsidiary of U.S. Bank National Association. U.S. Bank National Association is a separate entity and wholly owned subsidiary of U.S. Bancorp. U.S. Bank is not responsible for and does not guarantee the products, performance or services of U.S. Bancorp Asset Management. U.S. Bancorp Asset Management, Inc. serves as an investment advisor to First American Funds. **Holdings of Nuveen mutual funds:** Firststar Capital Corporation (Firststar Capital), an affiliate of U.S. Bancorp, holds a less-than-10 percent ownership interest in Windy City Investments Holdings, LLC which was formerly the parent of Windy City Investment Inc. and the indirect parent of Nuveen Fund Advisors, LLC which is the investment advisor to the Nuveen Mutual Funds. On October 1, 2014, Windy City Investments, Inc. was sold to Teachers Insurance and Annuity Association of America. As a result of the sale, U.S. Bancorp no longer has an indirect ownership interest in Nuveen Fund Advisors, LLC. Depending on the outcome of certain factors, Firststar Capital might in the future receive an earn-out payment in respect of its interest in Windy City Investment Holdings, LLC, under the terms of the sale. **Non-proprietary mutual funds:** U.S. Bank may enter into agreements with other non-proprietary mutual funds or their service providers whereby U.S. Bank provides shareholder services and/or sub-transfer agency, custodial and other administrative support services and receives compensation for these services. Compensation received by U.S. Bank directly or indirectly from mutual funds does not increase fund fees and expenses beyond what is disclosed in the fund prospectuses. For more information, review the fund prospectus.

Definitions of report and statement terms (page 1 of 5)

Accredited Investor: Private placement securities generally require that investors be accredited due to the additional risks and speculative nature of the securities. For natural persons, the criteria is met by a net worth of more than \$1 million (excluding primary residence) or an income of more than \$200,000 individually (\$300,000 jointly) for the two most recent years and a reasonable expectation for the same in the current year. For other entities, such as corporations, partnerships, trusts and employee benefit plans, the criteria is met with at least \$5 million in assets. See full definition in Rule 501 of Regulation D under the Securities Act of 1933.

Alpha: A measure of risk-adjusted performance. A statistic measuring that portion of a stock, fund or composite's total return attributable to specific or non-market risk. Alpha measures non-market return and indicates how much value has been added or lost. A positive Alpha indicates the fund or composite has performed better than its Beta would predict (i.e., the manager has added value above the benchmark). A negative Alpha indicates a fund or composite has underperformed given the composite's Beta.

Alternative Investments: As used by U.S. Bank, an investment considered to be outside of the traditional asset classes of long-only stocks, bonds and cash. Examples of alternative investments include hedge funds, private equity, options and financial derivatives.

Annualized Excess Return: Shows the difference between the annualized linked returns of a portfolio and the model benchmark. Performance reports provided annualize only periods greater than one year.

Annualized or Annual Rate of Return: Represents the average annual change in the value of an investment over the periods indicated.

Batting Average: Shows how consistently the portfolio return met or beat the market.

Beta: A measure of your portfolio's risk relative to a benchmark. A portfolio with a beta of 1.5, for example, would be expected to return roughly 1.5 times the benchmark's return. A high Beta indicates a riskier portfolio.

Bond Credit Rating: A grade given to bonds by a private independent rating service that indicates their credit quality. Ratings are the opinion of Standard & Poor's or other agencies as noted and not the opinion of U.S. Bank.

Consumer Price Index (CPI): A measure of the average change in prices over time in a market basket of goods and services and is one of the most frequently used statistics for identifying periods of inflation and deflation.

Convexity to Stated Maturity: A measure of the curvature in the relationship between bond prices and bond yields that demonstrates how the duration of a bond changes as the interest rate changes. Convexity is used as a risk-management tool and helps to measure and manage the amount of market risk to which a portfolio of bonds is exposed. This version of convexity measures the rate change in duration of a bond as the yield to (stated) maturity changes.

Definitions of report and statement terms (page 2 of 5)

Cost basis/book value: The original value of an asset at the time it was acquired. This is normally the purchase price or appraised value at the time of acquisition. This data is for information purposes only.

Cumulative Excess Return: Shows the difference between the annualized linked returns of a portfolio and the model benchmark. Performance reports provided use unannualized returns in periods up to one year, but annualized returns for periods exceeding one year.

Downside Capture: The downside capture ratio reflects how a portfolio compares to a benchmark during periods when the benchmark is down. A downside capture ratio of 0.80 (or 80 percent) means the portfolio has historically declined only 80 percent as much as the benchmark during down markets.

Downside Deviation: The deviation of returns that fall below a minimum acceptable return (MAR). Although the numerator includes only returns below the MAR, the denominator includes all returns in the performance period. This risk statistic is similar to the downside standard deviation except the sum is restricted to returns less than the MAR instead of the mean.

Downside Standard Deviation: The deviation of returns that fall below the mean return. Although the numerator includes only returns below the mean, the denominator includes all returns in the performance period. This risk statistic is similar to the downside deviation except the sum is restricted to returns less than the mean instead of the minimum acceptable return (MAR).

Effective Maturity: The date of a bond's most likely redemption, given current market conditions, taking into consideration the optional and mandatory calls, the optional, mandatory and recurring puts, and the stated maturity.

Estimated annual income: The amount of income a particular asset is anticipated to earn over the period indicated. The shares multiplied by the annual income rate.

Gain/loss calculation: If an asset was sold, the difference between the proceeds received from the sale compared to the cost of acquiring the asset. If the value of the proceeds is the higher of the two numbers, then a gain was realized. If the value of the proceeds is the lower of the two numbers, a loss was incurred. This data is for information purposes only.

Gross of Fees: Represents all assets included in the calculation of the portfolio -- before the deduction of trust and asset management fees -- and is inclusive of all applicable third party security fees and expenses. Details of those fees and expenses are provided in the security's prospectus or offering documents.

Information Ratio: The information ratio compares the average excess return of the portfolio over its associated benchmark divided by the tracking error.

M-Squared: The hypothetical return of the portfolio after its risk has been adjusted to match a benchmark.

Definitions of report and statement terms (page 3 of 5)

Market Value: Publicly traded assets are valued using market quotations or valuation methods from financial industry services believed by us to be reliable. Assets, that are not publicly traded, may be reflected at values from other external sources or special valuations prepared by us. Assets for which a current value is not available may be reflected as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could have been bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

Market Value Over Time: Many factors can impact the portfolio value over time, such as contributions to the account, distributions from the account, the investment of dividends and interest, the deduction of fees and expenses, and market performance.

Modified Duration to Effective Maturity: A formula that expresses the measurable change in the value of a security in response to a change in interest rates. This version of Modified Duration takes into consideration a “horizon date/price” that is, given current conditions, the most likely redemption date/price using the set of calls/puts, as well as stated maturity.

Modified Duration to Stated Maturity: A formula that expresses the measurable change in the value of a security in response to a change in interest rates. This version of Modified Duration uses stated maturity as the “horizon date/price” and ignores any potential call/put/pre-refunding, even if they are mandatory.

Net of Fees: Represents all assets included in the calculation of the portfolio -- after the deduction of trust and asset management fees. Please refer to the client fee schedule for additional information.

Price/Earnings Ratio (P/E): The P/E ratio of a company is calculated by dividing the price of the company’s stock by its trailing 12-month earnings per share. A high P/E usually indicates that the market is paying a premium for current earnings because it believes in the firm’s ability to grow its earnings. A low P/E indicates the market has less confidence that the company’s earnings will increase. Within a portfolio, P/E is the weighted average of the price/earnings ratios of the stocks in the portfolio.

Qualified Purchaser: Some private placement securities require that investors be Qualified Purchasers in addition to being Accredited Investors. For natural persons, the criteria is generally met when the client (individually or jointly) owns at least \$5 million in investments. For other entities, such as corporations, partnerships, trusts and employee benefit plans, the criteria is met with at least \$25 million in investments though there are other eligibility tests that may apply. See full definition in Section 2(a)(51) of the Investment Company Act of 1940.

R-Squared: Measures the portion of the risk in your portfolio that can be attributed to the risk in the benchmark.

Realized and Unrealized Gains/Losses: Are calculated for individual tax lots based on the records we have available. Some data may be incomplete or differ from what you are required to report on your tax return. Some data used in these calculations may have been obtained from outside sources and cannot be verified by U.S. Bank. The data is intended for informational purposes only and should not be used for tax reporting purposes. Please consult with your tax or legal advisor for questions concerning your personal tax or financial situation.

Definitions of report and statement terms (page 4 of 5)

Residual Risk: The amount of risk specific to the assets in a portfolio distinct from the market, represented by a benchmark.

Return: An indication of the past performance of your portfolio.

Sharpe Ratio: Measures of risk-adjusted return that calculates the return per unit of risk, where risk is the Standard Deviation of your portfolio. A high Sharpe ratio indicates that the portfolio is benefiting from taking risk.

Sortino Ratio: Intended to differentiate between good and bad volatility. Similar to the Sharpe ratio, except it uses downside deviation for the denominator instead of standard deviation, the use of which doesn't discriminate between up and down volatility.

Spread: The difference between the yields of two bonds with differing credit ratings (most often, a corporate bond with a certain amount of risk is compared to a standard traditionally lower risk Treasury bond). The bond spread will show the additional yield that could be earned from a bond which has a higher risk.

Standard Deviation: A measure of the volatility and risk of your portfolio. A low standard deviation indicates a portfolio with less volatile returns and therefore less inherent risk.

Time-weighted Return: The method used to calculate performance. Time-weighted return calculates period by period returns that negates the effect of external cash flows. Returns for periods of greater than one year are reported as an annualized (annual) rate of return. Returns of less than one year are reported on a cumulative return basis. Cumulative return is the aggregate amount an investment has gained or lost over time, independent of the period involved.

Tracking Error: A divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark. This is often in the context of a hedge or mutual fund that did not work as effectively as intended, creating an unexpected profit or loss instead.

Traditional Investments: As used by U.S. Bank, an investment made in equity, fixed income or cash securities, mutual funds or exchange-traded funds (ETFs) where the investor buys at a price with the goal that the investment will go up in value.

Top 10 Holdings: The 10 assets with the highest market values in the account.

Total Portfolio Gross of Fees: Represents all assets included in the calculation of the portfolio, before the deduction of trust and asset management fees, and is inclusive of all applicable third-party security fees and expenses. Details of those fees and expenses are provided in the security's prospectus or offering documents.

Definitions of report and statement terms (page 5 of 5)

Total Return: The rate of return that includes the realized and unrealized gains and losses plus income for the measurement period.

Treynor Ratio: Measures the performance of a sector relative to risk by dividing the return of the sector in excess of the risk-free return by the sector's Beta. The higher the Treynor ratio, the better the return relative to risk.

Turnover Percent: Indicates how frequently asset are bought and sold within a portfolio.

Turnover Ratio: The percentage of a mutual fund's or other investment vehicle's holdings that have been "turned over" or replaced with other holdings in a given year.

Unrealized gain (loss) — The difference between the current market value (at the end of the statement period) and the cost to acquire the asset. If the current market value is higher than the cost, a gain is reflected. If the current market value is lower than the cost paid, a loss is reflected. This data is for information purposes only.

Upside Capture: The upside capture ratio reflects how a portfolio compares to the selected model benchmark during periods when the benchmark is up. An upside capture ratio of 1.15 (or 115 percent) means the portfolio has historically beat the benchmark by 15 percent during up markets.

Yield: The annual rate of return on an investment, expressed as a percentage. For bonds, it is the coupon rate divided by the market price. For stocks, it is the annual dividend divided by the market price.

Frequently used indexes (page 1 of 5)

Bloomberg Barclays 1-3 year U.S. Treasury Index: Measures the performance of the U.S. government bond market and includes public obligations of the U.S. Treasury with a maturity between one year and up to (but not including) three years.

Bloomberg Barclays 1-5 year U.S. Treasury Index: Includes all publicly issued, U.S. Treasury securities that have a remaining maturity of greater than or equal to one year and less than five years, are rated investment grade and have \$250 million or more of outstanding face value.

The Bloomberg Barclays 1-5 year Municipal Index: Measures the performance of municipal bonds with time to maturity of more than one year and less than five years.

Bloomberg Barclays 7-year Municipal Index: Includes municipal bonds with a minimum credit rating of Baa that have been issued as part of a transaction of at least \$50 million, have a maturity value of at least \$5 million and a maturity range of four to six years.

Bloomberg Barclays Global Aggregate Index ex-U.S. Index: Measure of global investment grade debt from 24 local currency markets. This multi-currency benchmark includes Treasury, government-related, corporate and securitized fixed-rate bonds from both developed and emerging markets issuers.

Bloomberg Barclays Global Treasury ex-U.S. Index: Includes government bonds issued by investment-grade countries outside the United States, in local currencies, that have a remaining maturity of one year or more and are rated investment grade.

Bloomberg Barclays High Yield Municipal Bond Index: An unmanaged index made up of bonds that are non-investment grade, unrated or below Ba1 bonds.

Bloomberg Barclays Intermediate Aggregate Index: Consists of one- to 10-year governments, one- to 10-year corporate bonds, all mortgages and all asset-backed securities within the Aggregate Index.

Bloomberg Barclays Mortgage-Backed Securities Index: Covers agency mortgage-backed pass-through securities (both fixed-rate and hybrid adjustable-rate mortgages) issued by Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC).

Bloomberg Barclays U.S. Aggregate Bond Index: Measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities, asset-backed securities and commercial mortgage-backed securities.

Bloomberg Barclays U.S. Corporate Bond Index: Measures the investment grade, fixed-rate, taxable corporate bond market and includes U.S. dollar-denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers.

Frequently used indexes (page 2 of 5)

Bloomberg Barclays U.S. Corporate High Yield Bond Index: Measures the U.S. dollar denominated, high yield, fixed-rate corporate bond market.

Bloomberg Barclays U.S. Municipal Bond Index: Measures the investment grade, U.S. dollar-denominated, fixed tax-exempt bond market. The index includes state and local general obligation, revenue, insured and pre-refunded bonds.

Bloomberg Barclays U.S. Treasury Index: Measures U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury.

Bloomberg Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index: An unmanaged index includes all publicly issued, U.S. TIPS that have at least one year remaining to maturity, are rated investment grade, and have \$250 million or more of outstanding face value.

Cambridge U.S. Private Equity Index: This index is based on returns data compiled for U.S. private equity funds (including buyout, growth equity and mezzanine funds) that represent the majority of institutional capital raised by private equity partnerships formed since 1986. Returns may be delayed by up to six months. Quarterly performance is prorated based on the cube root for the months of the quarter.

Citigroup 3-Month Treasury Bills: An unmanaged index and represents monthly return equivalents of yield averages of the last three-month Treasury Bill issues.

Citigroup 6-Month Treasury Bills: An unmanaged index and represents monthly return equivalents of yield averages of the last six-month Treasury Bill issues.

Credit Suisse Leverage Loan Index: Represents tradable, senior-secured, U.S. dollar-denominated non-investment grade loans.

Dow Jones Industrial Average (DJIA): The price-weighted average of 30 significant U.S. stocks traded on the New York Stock Exchange and NASDAQ. The DJIA is the oldest and single most watched index in the world.

Dow Jones Select REIT Index: Measures the performance of publicly traded REITs and REIT-like securities in the U.S. and is a proxy for direct real estate investment, in part by excluding companies whose performance may be driven by factors other than the value of real estate.

HFRI Indices: The Hedge Fund Research, Inc. (HFRI) indexes are a series of benchmarks designed to reflect hedge fund industry performance by constructing composites of constituent funds, as reported by the hedge fund managers listed within the HFR Database.

Frequently used indexes (page 3 of 5)

HFR Equity Hedge Total Index: Uses the HFR (Hedge Fund Research) database and consists only of equity hedge funds with a minimum of \$50 million assets under management or a 12-month track record and that reported assets in U.S. dollars.

HFR Relative Value Fixed Income Corporate Index: Uses the HFR (Hedge Fund Research) database and consists of only relative value fixed income corporate funds with a minimum of \$50 million assets under management or a 12-month track record and that reported assets in U.S. dollars.

ICE BofAML 1-3 Year Corporate Index: Tracks U.S. dollar-denominated investment grade public debt issued in the U.S. bond market with maturities of one to three years.

ICE BofAML 1-5 Year Corporate and Government Index: Tracks the performance of short-term U.S. investment grade government and corporate securities with maturities between one and five years.

ICE BofAML U.S. 7-10 Year Index: Tracks the performance of U.S. dollar denominated investment grade rated corporate debt publicly issued in the U.S. domestic market and includes all securities with a remaining term to maturity of greater than or equal to seven years and less than 10 years.

ICE BofAML Global Broad Market Index: Tracks the performance of investment grade public debt issued in the major domestic and Eurobond markets, including global bonds.

ICE BofAML U.S. High Yield Master II Index: Commonly used benchmark index for high yield corporate bonds and measures the broad high yield market.

J.P. Morgan Emerging Markets Bond Index Global (EMBI Global): Tracks total returns for traded external debt instruments in the emerging markets.

London Interbank Offered Rate (LIBOR) 3-months: The interest rate offered by a specific group of London banks for U.S. dollar deposits with a three-month maturity.

London Interbank Offered Rate (LIBOR) 9-months: The interest rate offered by a specific group of London banks for U.S. dollar deposits with a nine-month maturity.

MSCI All Country World Index (ACWI): Designed to measure the equity market performance of developed and emerging markets.

Frequently used indexes (page 4 of 5)

Russell 2000 Value Index: Measures companies in the Russell 2000 Index having lower price-to-book ratios and lower forecasted growth values. The Russell 2000 Index includes the 2,000 firms from the Russell 3000 Index with the smallest market capitalizations.

Russell 3000 Index: Measures the performance of the 3,000 largest U.S. securities based on total market capitalization.

Russell Midcap Index: Measures the 800 smallest companies in the Russell 3000 Index.

Russell Midcap Growth Index: Measures companies in the Russell Midcap Index having higher price-to-book ratios and higher forecasted growth values.

Russell Midcap Value Index: Measures companies in the Russell Midcap Index having lower price-to-book ratios and lower forecasted growth values.

MSCI All County World ex-U.S. Index (ACWI, excluding United States): Tracks the performance of stocks representing developed and emerging markets around the world that collectively comprise most foreign stock markets. U.S. stocks are excluded from the index.

MSCI EAFE Index: Includes approximately 1,000 companies representing the stock markets of 21 countries in Europe, Australasia and the Far East.

MSCI Emerging Markets (EM) Index: Designed to measure equity market performance in global emerging markets.

MSCI World Index: Tracks equity market performance of developed markets through individual country indices.

NAREIT Index: Includes REITs (Real Estate Investment Trusts) listed on the New York Stock Exchange, NASDAQ and American Stock Exchange.

NASDAQ Composite Index: A market capitalization-weighted average of roughly 5,000 stocks that are electronically traded in the NASDAQ market.

NCREIF Property Index (NPI): Measures the investment performance of a very large pool of individual commercial real estate properties acquired in the private market for investment purposes only.

Russell 1000 Index: Measures the performance of the 1,000 largest companies in the Russell 3000 Index and is representative of the U.S. large capitalization securities market.

Frequently used indexes (page 5 of 5)

Russell 1000 Growth Index: Measures companies in the Russell 1000 Index with higher price-to-book ratios and higher forecasted growth values. It includes the largest 1,000 firms in the Russell 3000 Index.

Russell 1000 Value Index: Measures companies in the Russell 1000 Index with lower price-to-book ratios and lower forecasted growth values. It includes the largest 1,000 firms in the Russell 3000 Index.

Russell 2000 Index: Measures the performance of the 2,000 smallest companies in the Russell 3000 Index and is representative of the U.S. small capitalization securities market.

Russell 2000 Growth Index: Measures companies in the Russell 2000 Index having higher price-to-book ratios and higher forecasted growth values, and is representative of U.S. securities exhibiting growth characteristics. The Russell 2000 Index includes the 2,000 firms from the Russell 3000 Index with the smallest market capitalizations.

S&P 500 Index: Consists of 500 widely traded stocks that are considered to represent the performance of the U.S. stock market.

S&P Global ex-U.S. Property Index: Measures the investable universe of publicly traded property companies domiciled in developed and emerging markets excluding the United States. The companies included are engaged in real estate related activities such as property ownership, management, development, rental and investment.

S&P GSCI: A composite index of commodity sector returns, representing an unleveraged, long-only investment in commodity futures that is broadly diversified across the spectrum of commodities.

S&P/Case-Shiller Home Price Indexes: A group of indexes that track changes in home prices throughout the United States. Case-Shiller produces indexes representing certain metropolitan statistical areas (MSA) as well as a national index.

Swiss Re Global Cat Bond Total Return Index: Tracks the aggregate performance of all U.S. dollar-denominated euros and Japanese yen-denominated catastrophe bonds, capturing all ratings, perils and triggers.

U.S. Dollar Index: Indicates the general international value of the U.S. dollar by averaging the exchange rates between the U.S. dollar and six major world currencies.

Wilshire 5000 Index: Composed of more than 6,700 publicly-traded U.S. companies and is designed to track the overall performance of the American stock markets.

AUDIT COMMITTEE STAFF REPORT

Meeting: April 22, 2024

Subject

Receive the Treasurer's Investment Report for the Quarter Ending March 31, 2024

Recommended Action

Receive the Treasurer's Investment Report for the Quarter Ending March 31, 2024

Reasons for Recommendation

Background

On May 16, 2023, the City Council approved the City Investment Policy. Per the City's Investment Policy, the Treasurer shall submit a quarterly investment report to the City Council approximately 45 days following the end of the quarter. In addition to the quarterly investment reports, monthly transaction reports are submitted to the City Council within 30 days of the end of the reporting period per California Government Code Section 53607. The quarterly investment report offers a more extensive discussion of the City's economy, cash flow, and investments.

The City's Municipal Code Section 2.24.050 Investment Authority states that the Treasurer shall make a monthly report of all investment transactions to the City Council. The City's Municipal Code Section 2.48.020(A)(3) states that the Director of Administrative Services also shall be appointed Treasurer and also shall act as ex officio Assessor and shall assess and collect all City taxes save and except for those collected by State and County officers for the City. Lastly, the City's Municipal Code Section 2.88.100 Duties-Powers-Responsibilities lists one of the powers and functions of the Audit Committee is "to review the quarterly Treasurer's Investment report."

Per the referenced code provisions, a Treasurer's Investment Report is made available to the City Council quarterly.

Treasurer's Investment Report

The report provides an update on the City's investment portfolio for the month ending March 31, 2024. The report is as of April 16, 2024.

The attached statements include balances and transactions of the City's investments with the Local Agency Investment Fund (LAIF) and Chandler Asset Management. The Chandler investment report provides information on the investment type, issuer, purchase date, maturity date, cost value, par value, and market value for each security, as well as the weighted average maturity and weighted average yield of all investments.

While not governed by the City's Investment Policy, statements for the Public Agency Retirement Services (PARS) Section 115 Trusts are also attached per a request from the Treasurer's Report sub-committee.

The City's General Ledger cash and investments balance was \$253.6 million, a \$14.7 million increase from the prior quarter.

Cash and Investments – General Ledger Balance

Fund Type	Quarter Ending December 31, 2023	Quarter Ending March 31, 2024
General Fund	141,499,792	156,022,661
Special Revenue	41,412,237	43,487,002
Debt Service	2,356,550	2,356,550
Capital Projects	36,107,366	35,814,019
Enterprise	10,016,565	10,188,953
Internal Service	7,567,025	5,750,623
Total	\$238,959,536	\$253,619,809

Cash and Investments by Fund

The \$253.6 million in cash and investments include \$17.9 million in cash, \$67.0 million in cash equivalents, \$149.6 million in investments, and \$19.1 million restricted for funding pension costs.

The City pools cash for all funds except restricted funds. However, the City accounts for interest earnings, revenues, and expenditures separately for each fund to adequately meet the purpose and restrictions of each funding source. Pooling funds is a common and appropriate practice used in public agencies. By pooling funds, the City can benefit from economies of scale, diversification, liquidity, and ease of administration.

Cash and Investments by Type

Cash and Investments – General Ledger Balance

	Quarter Ending December 31, 2023	Quarter Ending March 31, 2024	% of Portfolio
Cash in banks and on hand			
Operating Checking (Wells Fargo)	48,460,978	17,890,177	7%
Workers' Compensation Checking (Wells Fargo)	22,010	34,199	0%
Payroll Checking (Wells Fargo)	-	-	0%
Restricted for Bond Repayments ¹ (BNY Mellon)	-	-	0%
Petty Cash and Change	3,586	3,586	0%
Cash Equivalents			
Local Agency Investment Fund	21,787,939	67,006,824	26%
Investments			
Investments (Chandler)	149,596,163	149,596,163	59%
Restricted for Pension ² (PARS)	19,088,859	19,088,859	8%
Total Cash and Investments³	\$238,959,536	\$253,619,809	100%

¹ Cash held by fiscal agent for bond repayments

² In accordance with GASB 67/68, the assets in the Section 115 Pension Trust are reported as restricted cash and investments in the General Fund. The assets can only be used to fund CalPERS costs.

³ Assets in the Section 115 OPEB Trust are excluded as the City cannot use these assets to fund its own operations. The assets are held in trust for retirees' post-employment health benefits.

The table below shows the bank balances for the City's cash and investments. Bank and General Ledger balances differ due to timing. Bank balances do not include outstanding checks and deposits in transit. The General Ledger is updated quarterly with interest earnings and annually with the year-end investment market values.

Cash and Investments – Bank Balance

	Quarter Ending December 31, 2023	Quarter Ending March 31, 2024	% of Portfolio
Cash in banks and on hand			
Operating Checking (Wells Fargo)	49,177,441	20,797,662	8%
Workers' Compensation Checking (Wells Fargo)	23,013	27,369	0%
Payroll Checking (Wells Fargo)	-	-	0%
Restricted for Bond Repayments ¹ (BNY Mellon)	-	-	0%

Total Cash and Investments³	\$245,335,970	\$264,167,784	100%

¹ Cash held by fiscal agent for bond repayments

² In accordance with GASB 67/68, the assets in the Section 115 Pension Trust are reported as restricted cash and investments in the General Fund. The assets can only be used to fund CalPERS costs.

³ Assets in the Section 115 OPEB Trust are excluded as the City cannot use these assets to fund its own operations. The assets are held in trust for retirees' post-employment health benefits.

Local Agency Investment Fund (LAIF)

LAIF is an investment pool administered by the State of California Treasurer and governed by California Government Code. The City can withdraw funds from LAIF at any time. As a result, the City uses LAIF for short-term investment, liquidity, and yield.

The City's LAIF account had a balance of \$67.0 million. The quarterly interest rate was 4.30%. The City deposited roughly \$45 million to earn interest on the City's cash equivalents in the quarter ending March 2024.

Investment Portfolio

In FY 2018-19, the City conducted a Request for Proposal (RFP) for investment management services and selected Chandler Asset Management. Under the City's Treasurer's direction, Chandler Asset Management manages the City's investment portfolio in accordance with the City's investment objectives. The City's investment objectives, in order of priority, are to provide:

- Safety to ensure the preservation of capital in the overall portfolio
- Sufficient liquidity for cash needs
- A market rate of return consistent with the investment program

The performance objective is to earn a total rate of return through a market cycle equal to or above the return on the benchmark index. Chandler Asset Management invests in high-quality fixed-income securities consistent with the City's Investment Policy and California Government Code to achieve the objective.

The portfolio's market value was \$154.8 million, compared to \$154.0 million at the end of the previous quarter. The table below includes historical comparisons of the City's portfolio:

	December 31, 2023	March 31, 2024
Market Value	153,958,566	154,139,738
Par Value	158,767,712	159,493,887
Book Value	158,476,712	159,262,128
Average Maturity	2.10 years	2.10 years
Average Modified Duration	1.86	1.75
Average Purchase Yield	2.19%	2.44%
Average Market Yield	4.69%	5.14%
Average Quality ¹	AA/Aa1	AA+

¹ S&P and Moody's respectively

The portfolio's market value fluctuates depending on interest rates. When interest rates decrease after an investment is purchased, the market value of the investment increases. In contrast, when interest rates increase after an investment is purchased, the market value of the investment decreases. At the time of purchase, the City intends to hold all investments until maturity, meaning that changes in market value will not impact the City's investment principal. If the market value decreases, the City will incur an unrealized loss. However, the loss will only be realized if the City sells its investments before their maturity. The market values for the portfolio were provided by Chandler Asset Management.

Section 115 Trust Investment Portfolio

The City established Section 115 Trusts to reduce pension rate volatility and pre-fund Other Post-Employment Benefits (OPEB) costs. These trusts are a tax-exempt investment tool that local governments can use to set aside funds for pension and retiree health costs. Contributions made to the trust can only be used to fund retirement plans.

Investments in the Section 115 Trusts are governed by separate investment policies, which are distinct from the City's Investment Policy. On December 5, 2023, City Council

approved the Pension Trust Investment Policy and OPEB Trust Investment Policy. Public Agency Retirement Services (PARS) administers the trust, while US Bank manages the investments in accordance with the approved investment policies.

Both Section 115 Trusts are invested in "balanced" portfolios. The investment objective is designed to provide a moderate amount of current income with moderate growth of capital. This type of investment strategy is generally recommended for investors with a long-term horizon. The strategic asset allocation ranges for this investment objective are:

Asset Class	Range	Target
Equities	50-70%	63%
Fixed Income	20-40%	29%
Real Estate	0-15%	5%
Commodities	0-10%	2%
Cash	0-10%	1%

The Section 115 Pension Trust had a balance of \$21.6 million, an increase of \$1.2 million from the prior quarter due to investment gains. The Section 115 OPEB Trust had a balance of \$39.2 million, an increase of \$2.1 million from the prior quarter due to investment gains. The quarterly investment return for OPEB Trust was 5.86% and Pension Trust was 5.84%.

Analysis

The City compares its portfolio to LAIF and one-year and two-year Treasury yields. Yield comparisons for the one-year Treasury, two-year Treasury, LAIF, and City average are presented below:

In June, one-year and two-year Treasury yields increased. The yield curve remained inverted and the spread between the two-year and 10-year Treasury yield became more inverted. The one-year and two-year Treasury yields were 5.03% and 4.59%, respectively. The one-year Treasury yield increased by 24 basis points, and the two-year Treasury yield increased by 36 basis points from December 31, 2023. The yield of the City's investment portfolio was 5.14%, higher than the one-year Treasury yield, two-year Treasury yield and LAIF.

Cash Flow History

Historical revenues, expenditures, and liquidity ratios are presented below:

Revenues, Expenditures, Cash & Cash Equivalents

Liquidity Ratios

As the City's portfolio becomes more or less liquid over time, the ratio of cash and cash equivalents to revenues and expenditures will increase or decrease, respectively. The portfolio's investment structure is complete, so the City anticipates the ratio of cash and cash equivalents to revenues and expenditures to continue to flatten out moving forward. While a formal liquidity level has not been established, significant and consistent fluctuations in the ratio may indicate that additional funds should be invested or, conversely, that investments should be liquidated. In recent years, sufficient liquidity levels for operating revenues and expenditures have approximated a ratio of 1.0. In March 2022, the City transferred \$15.0 million from the operating account to the investment portfolio, which reduced the March 2022 liquidity ratios. Liquidity ratios have been higher in FY 2023-24 due to increased cash and investment balances as the City anticipated an adverse decision from a California Department of Tax and Fee Administration (CDTFA) audit of a City taxpayer. On October 10, 2023, the City established a Sales Tax Repayment Reserve with an initial allocation of \$56.5 million to set aside disputed sales tax revenue.

As of March 31, 2024, the liquidity ratio was 2.5 and 1.4 for revenues and expenditures, respectively. The City will monitor inflows and outflows during FY 2023-24 and bring recommendations for the City's investment portfolio as necessary and applicable.

As of March 31, 2024, the City had \$87.8 million in cash and cash equivalents in the bank and on hand. Based on the cash flow forecast, the City maintains the ability to meet its expenditure requirements for the next six months.

Cash Flow Forecast

Applying three-year historical trend data for each of the City's revenue and expenditure line items to the FY 2023-24 Adopted Budget, the City estimated the following cash flow forecast for FY 2023-24:

FY 2023-24 Adopted Budget Cash Flow Forecast

FY 2023-24 Adopted Budget Liquidity Balance Forecast

The purpose of this cash flow and liquidity forecast is to illustrate the timing of the City's revenues and expenditures throughout a fiscal year using historical trend data. The first quarter of the fiscal year experiences expenditures exceeding revenues since the City begins receiving its property tax distributions in November and April of the respective fiscal year. In January and April, the City receives additional property tax revenues due to the Vehicle License Fee (VLF) swap. In June, the City tends to experience higher activities, particularly expenditures, due to the year-end close and accrual process. From one fiscal year to the next, the City typically incurs one-time special project or capital expenditure costs. The timing of these costs is more difficult to pinpoint in a particular month.

From a cash flow analysis perspective, the Adopted and Amended Budgets are efficient planning tools for determining cash flow needs for a single fiscal year. If a budget is adopted at a position in which revenues and expenditures are balanced, then it is reasonable to conclude cash flow is unlikely to be of concern. Beyond one fiscal year, a City prepares a long-term forward-looking forecast using historical and prospective assumptions. This forecast model is incorporated and presented to the City Council as part of the City's Adopted Budget.

Compliance

All of the City's investments comply with state law and the City's Investment Policy. In compliance with California Government Code 53646 (b)(3), the City maintains the ability to meet its expenditure requirements for the next six months.

Sustainability Impact

No sustainability impact.

Fiscal Impact

No fiscal impact.

SECTION 1	Economic Update
SECTION 2	Account Profile
SECTION 3	Portfolio Holdings
SECTION 4	Transactions

Section 1 | Economic Update

Economic Update

- Recent economic data has shown above trend growth fueled by a rise in consumer spending and a continuing healthy US job market. Inflationary trends are subsiding, but core levels remain above the Fed's target. Given the cumulative effects of restrictive monetary policy and tighter financial conditions, we believe the economy will gradually soften and the Fed will loosen monetary policy in 2024.
- As expected at the March meeting, the Federal Open Market Committee voted unanimously to leave the Federal Funds rate unchanged at a target range of 5.25 - 5.50%. The March Summary of Economic Projections (SEP) showed stronger real GDP growth outlook and higher core inflation projections for 2024 on resilient labor market and consumer data. The median projection for Federal Funds rate by year-end remained the same at 4.625%, implying three 0.25% cuts. We continue to believe the FOMC will loosen monetary policy in mid-2024 as inflation and economic growth continue to moderate.
- The US Treasury yield curve stabilized in March as the FOMC left the Federal Funds rate unchanged. The 2-year Treasury yield was unchanged at 4.62%, the 5-year Treasury fell 4 basis points to 4.21%, and the 10-year Treasury yield dropped 5 basis points to 4.20%. The inversion between the 2-year Treasury yield and 10-year Treasury yield widened to -42 basis points at March month-end versus -37 basis points at February month-end. The spread between the 2-year Treasury and 10-year Treasury yield one year ago was -56 basis points. The inversion between 3-month and 10-year Treasuries widened to -117 basis points in March from -113 basis points in February.

Employment

The U.S. economy added a better-than-expected 303,000 jobs in March, and the prior two months were revised up by 22,000. Leading sectors included healthcare and government. Job creation remains healthy, with the three-month moving average payrolls at 276,000 and the six-month moving average at 244,000. The unemployment rate edged down to 3.8% in March. The labor participation rate ticked up to 62.7% but remained below the pre-pandemic level of 63.3%. The U-6 underemployment rate, which includes those who are marginally attached to the labor force and employed part time for economic reasons was unchanged at 7.3%. Average hourly earnings rose 4.1% year-over-year in March, down from 4.3% last month. Employment remains strong by historical standards.

Job Openings & Labor Turnover Survey

Job Openings

Source: US Department of Labor

The Labor Department's Job Openings and Labor Turnover Survey (JOLTS) edged up to 8.756 million in February compared to a downwardly revised 8.748 million in January. Job openings still represent a healthy ratio of around 1.4 jobs for each unemployed individual. While the current level of job openings remains elevated from a historical perspective, the trend is decelerating.

Inflation

Consumer Price Index (CPI)

Source: US Department of Labor

Personal Consumption Expenditures (PCE)

Source: US Department of Commerce

The Consumer Price Index (CPI) came in higher than expected in February, increasing 0.4% month-over-month and 3.2% year-over-year. The Core CPI, which excludes volatile food and energy components, was up 0.4% month-over-month and 3.8% year-over-year in February, falling from 3.9% last month. Shelter costs remain elevated, accounting for about two-thirds of the year-over-year increase. The Personal Consumption Expenditures (PCE) Index headline inflation increased 0.3% month-over-month and rose 2.5% year-over-year in February, in line with expectations. Core PCE, the Federal Reserve's preferred inflation gauge, increased 0.3% month-over-month and rose 2.8% year-over-year. While the trend is moderating, the path to the Fed's 2% inflation target remains uneven.

Consumer

Retail Sales YOY % Change

Source: US Department of Commerce

Consumer Confidence

Source: The Conference Board
All time high is 144.70 (1/31/00); All time low is 25.30 (2/28/09)

February Retail Sales fell short of expectations but rebounded 0.6% month-over-month from a downwardly revised 1.1% decline last month. On a year-over-year basis, Retail Sales growth increased just 1.5% for February. Sales got a boost in the month from building materials and garden equipment stores, motor vehicles, and higher prices at the pump. Control-group sales, which are used to calculate gross domestic product, were unchanged in February after falling in the prior month, suggesting weaker economic activity in the first quarter. The Conference Board's Consumer Confidence Index edged down to 104.7 in March after a sizeable downward revision to 104.8 in February. The lower reading was largely due to a deteriorating view of the labor market and future business conditions, along with concerns about the highly polarized political environment. While the consumer has been resilient, dwindling excess savings, rising credit card balances, and the resumption of student loan payments pose potential headwinds to future economic growth.

Leading Indicators of Economic Activity

Leading Economic Indicators (LEI)

Source: The Conference Board

Chicago Fed National Activity Index (CFNAI)

Source: Federal Reserve Bank of Chicago

The Conference Board's Leading Economic Index (LEI) rose to 0.1% month-over-month in February ending its 2-year uninterrupted contraction since February 2022. The index declined 6.3% year-over-year. The Conference Board is no longer calling for recession but expects GDP growth to slow to near zero this year. The Chicago Fed National Activity Index (CFNAI) increased +0.05 in February from a downwardly revised -0.54 in January. On a 3-month moving average basis, the CFNAI decreased to -0.18 in February from -0.11 in January, indicating moderating economic growth.

Housing

Annualized Housing Starts

Source: US Department of Commerce

S&P/Case-Shiller 20 City Composite Home Price Index

Source: S&P

Housing Starts increased 10.7% month-over-month in February to 1.521 million units, due to milder weather than seen in January and some rising confidence among homebuilders as mortgage rates fell below 7%. Starts for multi-family homes increased 8.6%, while single family homes increased 11.6% for the month. Total starts of new single-family homes are up 35.2% year-over-year. According to Freddie Mac, 30-year fixed mortgage rates averaged 6.79% as of March 31st. According to the Case-Shiller 20-City Home Price Index, housing prices rose 6.59% year-over-year in January, accelerating from a 6.15% year-over-year gain in December. Tight inventories and higher mortgage rates continue to impact affordability.

Survey Based Measures

The Institute for Supply Management (ISM) Manufacturing index unexpectedly expanded to 50.3 in March from 47.8 in February, marking the first month of expansion in factory activity above a reading of 50 since 2022. Production and new orders surged, while employment improved and prices paid increased. The ISM Services Index fell to 51.4 in March from 52.6 in February but remained in expansion territory for the 15th consecutive month. The survey reflected slower growth in new orders, a contraction in employment, faster supplier deliveries, and declining price pressures.

Gross Domestic Product (GDP)

Components of GDP	3/23	6/23	9/23	12/23
Personal Consumption Expenditures	2.5%	0.6%	2.1%	2.2%
Gross Private Domestic Investment	-1.7%	0.9%	1.7%	0.2%
Net Exports and Imports	0.6%	0.0%	0.0%	0.3%
Federal Government Expenditures	0.3%	0.1%	0.5%	0.2%
State and Local (Consumption and Gross Investment)	0.5%	0.5%	0.5%	0.6%
Total	2.3%	2.1%	4.9%	3.4%

Source: US Department of Commerce

Source: US Department of Commerce

According to the third estimate, fourth quarter GDP increased at an annualized rate of 3.4%, revised up from the second estimate of 3.2%. The upward revision was due mainly to stronger personal consumption expenditures and nonresidential investment. GDP growth for the full year 2023 is estimated at 2.5%. The consensus projection calls for 2.0% growth in the first quarter and 2.2% growth for the full year 2024.

Federal Reserve

Federal Reserve Balance Sheet Assets

Source: Federal Reserve

Effective Federal Funds Rate

Source: Bloomberg

As expected at the March meeting, the Federal Open Market Committee voted unanimously to leave the federal funds rate unchanged at a target range of 5.25-5.50%. The FOMC Statement and Summary of Economic Projections (SEP) was minimally changed from January. The Fed assesses the progress to achieving its employment and inflation goals are moving into better balance, yet changes to monetary policy remain data dependent. For 2024, the March SEP showed stronger real GDP growth outlook of 2.1% from 1.4% in December as labor market and consumer data have been resilient. Core inflation projections nudged up from 2.4% to 2.6%. The median projection for the Federal Funds rate by the end of the year remained the same at 4.625%, implying three 0.25% cuts in 2024, three cuts in 2025 and three cuts in 2026. We believe the FOMC will loosen monetary policy in mid-2024 as inflation and economic growth continue to moderate. Since the Fed began its Quantitative Tightening campaign in June 2022, securities holdings have declined by over \$1.5T to approximately \$7.5T.

Bond Yields

US Treasury Note Yields

Source: Bloomberg

US Treasury Yield Curve

Source: Bloomberg

At the end of March, the 2-year Treasury yield was 59 basis point higher, and the 10-Year Treasury yield was 73 basis points higher, year-over-year. The inversion between the 2-year Treasury yield and 10-year Treasury yield widened to -42 basis points at March month-end versus -37 basis points at February month-end. The average historical spread (since 2003) is about +130 basis points. The inversion between 3-month and 10-year Treasuries widened to -117 basis points in March from -113 basis points in February.

Section 2 | Account Profile

Investment Objectives

The City of Cupertino's investment objectives, in order of priority, are to provide safety to ensure the preservation of capital in the overall portfolio, provide sufficient liquidity for cash needs and a market rate of return consistent with the investment program.

Chandler Asset Management Performance Objective

The performance objective for the portfolio is to earn a total rate of return through a market cycle that is equal to or above the return on the benchmark index.

Strategy

In order to achieve these objectives, the portfolio invests in high quality fixed incomes securities consistent with the investment policy and California Government Code.

City of Cupertino

Assets managed by Chandler Asset Management are in full compliance with state law and with the City's investment policy.

Important Disclosures

As of March 31, 2024

2024 Chandler Asset Management, Inc, An Independent Registered Investment Adviser.

Information contained herein is confidential. Prices are provided by ICE Data Services Inc ("IDS"), an independent pricing source. In the event IDS does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance results are presented gross-of-advisory fees and represent the client's Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Source ICE Data Indices, LLC ("ICE"), used with permission. ICE permits use of the ICE indices and related data on an "as is" basis; ICE, its affiliates and their respective third party suppliers disclaim any and all warranties and representations, express and/or implied, including any warranties of merchantability or fitness for a particular purpose or use, including the indices, index data and any data included in, related to, or derived therefrom. Neither ICE data, its affiliates or their respective third party providers guarantee the quality, adequacy, accuracy, timeliness or completeness of the indices or the index data or any component thereof, and the indices and index data and all components thereof are provided on an "as is" basis and licensee's use it at licensee's own risk. ICE data, its affiliates and their respective third party do not sponsor, endorse, or recommend chandler asset management, or any of its products or services.

This report is provided for informational purposes only and should not be construed as a specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

Ratings information have been provided by Moody's, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities ("MBS") reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest and carries a AA+/Aaa/AAA by S&P, Moody's and Fitch respectively.

Your qualified custodian bank maintains control of all assets reflected in this statement and we urge you to compare this statement to the one you receive from your qualified custodian. Chandler does not have any authority to withdraw or deposit funds from/to the custodian account.

ICE BofA 1-3 Yr US Treasury & Agency Index

The ICE BofA 1-3 Year US Treasury & Agency Index tracks the performance of US dollar denominated US Treasury and nonsubordinated US agency debt issued in the US domestic market. Qualifying securities must have an investment grade rating (based on an average of Moody's, S&P and Fitch). Qualifying securities must have at least one year remaining term to final maturity and less than three years remaining term to final maturity, at least 18 months to maturity at time of issuance, a fixed coupon schedule, and a minimum amount outstanding of \$1 billion for sovereigns and \$250 million for agencies.

ASSET VALUATION PRACTICES

VALUES REFLECTED FOR PUBLICLY TRADED ASSETS ARE OBTAINED FROM UNAFFILIATED SOURCES. IN SITUATIONS WHERE AN ASSET VALUE CANNOT BE PROVIDED BY OUR UNAFFILIATED PRICING SOURCES, SUCH AS BUT NOT LIMITED TO NON-PUBLICLY TRADED ASSETS, THE CUSTOMER OR THEIR DESIGNATED REPRESENTATIVE MUST PROVIDE THE UPDATED VALUE. IF PRINCIPAL CUSTODY SOLUTIONS DOES NOT RECEIVE AN UPDATED VALUE, OR IS UNABLE TO USE THE VALUE PROVIDED, THE LAST REPORTED VALUE WILL CONTINUE TO BE REPORTED.

TRADE CONFIRMS

PURSUANT TO FEDERAL REGULATION, MONTHLY OR QUARTERLY ACCOUNT STATEMENTS THAT INCLUDE INVESTMENT TRANSACTION DETAILS MAY BE PROVIDED IN LIEU OF SEPARATE TRADE CONFIRMATIONS. SEPARATE TRADE CONFIRMS MAY BE OBTAINED AT NO ADDITIONAL COST UPON WRITTEN REQUEST TO THE ACCOUNT MANAGER.

UNCLAIMED PROPERTY DESIGNATED REPRESENTATIVE NOTIFICATION

YOUR PROPERTY MAY BE TRANSFERRED TO THE APPROPRIATE STATE IF NO ACTIVITY OCCURS IN THE ACCOUNT WITHIN THE TIME PERIOD SPECIFIED BY STATE LAW. IF YOUR STATE OF RESIDENCE ALLOWS, YOU MAY DESIGNATE A REPRESENTATIVE FOR THE PURPOSE OF RECEIVING NOTICE OF ACCOUNT INACTIVITY BY PROVIDING THE NAME AND MAILING OR EMAIL ADDRESS OF A REPRESENTATIVE. THE DESIGNATED REPRESENTATIVE DOES NOT HAVE ANY RIGHTS TO YOUR ACCOUNT. PLEASE REFER TO YOUR STATE'S UNCLAIMED PROPERTY WEBSITE FOR MORE INFORMATION AND INSTRUCTIONS ON HOW TO DESIGNATE A REPRESENTATIVE FOR NOTICE.

CITY COUNCIL STAFF REPORT

Meeting: February 21, 2024

Subject

Receive the Treasurer's Investment Report for the Quarter Ending December 31, 2023

Recommended Action

Receive the Treasurer's Investment Report for the Quarter Ending December 31, 2023

Reasons for Recommendation

Background

On May 16, 2023, the City Council approved the City Investment Policy. Per the City's Investment Policy, the Treasurer shall submit a quarterly investment report to the City Council approximately 45 days following the end of the quarter. In addition to the quarterly investment reports, monthly transaction reports are submitted to the City Council within 30 days of the end of the reporting period per California Government Code Section 53607. The quarterly investment report offers a more extensive discussion of the City's economy, cash flow, and investments.

The City's Municipal Code Section 2.24.050 Investment Authority states that the Treasurer shall make a monthly report of all investment transactions to the City Council. The City's Municipal Code Section 2.48.020(A)(3) states that the Director of Administrative Services also shall be appointed Treasurer and also shall act as ex officio Assessor and shall assess and collect all City taxes save and except for those collected by State and County officers for the City. Lastly, the City's Municipal Code Section 2.88.100 Duties-Powers-Responsibilities lists one of the powers and functions of the Audit Committee is "to review the quarterly Treasurer's Investment report."

Per the referenced code provisions, a Treasurer's Investment Report is made available to the City Council quarterly.

Treasurer's Investment Report

The report provides an update on the City's investment portfolio for the month ending December 31, 2023. The report is as of January 17, 2024.

The attached statements include balances and transactions of the City's investments with the Local Agency Investment Fund (LAIF) and Chandler Asset Management. The Chandler investment report provides information on the investment type, issuer, purchase date, maturity date, cost value, par value, and market value for each security, as well as the weighted average maturity and weighted average yield of all investments.

While not governed by the City's Investment Policy, statements for the Public Agency Retirement Services (PARS) Section 115 Trusts are also attached per a request from the Treasurer's Report sub-committee.

The City's General Ledger cash and investments balance was \$239.4 million, a \$4.1 million increase from the prior quarter.

Cash and Investments – General Ledger Balance

Fund Type	Quarter Ending September 30, 2023	Quarter Ending December 31, 2023
General Fund	131,872,784	141,743,483
Special Revenue	42,942,560	41,761,918
Debt Service	2,684,450	2,361,650
Capital Projects	37,978,199	36,434,860
Enterprise	11,167,451	10,277,394
Internal Service	8,615,981	6,784,421
Total	\$235,261,426	\$239,363,725

Cash and Investments by Fund

The \$239.4 million in cash and investments includes \$48.5 million in cash, \$21.7 million in cash equivalents, \$151.9 million in investments, and \$17.2 million restricted for funding pension costs.

The City pools cash for all funds except restricted funds. However, the City accounts for interest earnings, revenues, and expenditures separately for each fund to adequately meet the purpose and restrictions of each funding source. Pooling funds is a common and appropriate practice used in public agencies. By pooling funds, the City can benefit from economies of scale, diversification, liquidity, and ease of administration.

Cash and Investments by Type

Cash and Investments – General Ledger Balance

	Quarter Ending September 30, 2023	Quarter Ending December 31, 2023	% of Portfolio
Cash in banks and on hand			
Operating Checking (Wells Fargo)	44,563,856	48,488,626	20%
Workers' Compensation Checking (Wells Fargo)	43,934	26,746	0%
Payroll Checking (Wells Fargo)	-	-	0%
Restricted for Bond Repayments ¹ (BNY Mellon)	-	-	0%

Investments			
Investments (Chandler)	151,856,206	151,856,206	63%
Restricted for Pension ² (PARS)	17,240,051	17,240,051	7%
Total Cash and Investments³	\$235,261,426	\$239,363,725	100%

¹ Cash held by fiscal agent for bond repayments

² In accordance with GASB 67/68, the assets in the Section 115 Pension Trust are reported as restricted cash and investments in the General Fund. The assets can only be used to fund CalPERS costs.

³ Assets in the Section 115 OPEB Trust are excluded as the City cannot use these assets to fund its own operations. The assets are held in trust for retirees' post-employment health benefits.

The table below shows the bank balances for the City's cash and investments. Bank and General Ledger balances differ due to timing. Bank balances do not include outstanding checks and deposits in transit. The General Ledger is updated quarterly with interest earnings and annually with the year-end investment market values.

Cash and Investments – Bank Balance			
	Quarter Ending September 30, 2023	Quarter Ending December 31, 2023	% of Portfolio
Cash in banks and on hand			
Operating Checking (Wells Fargo)	49,304,330	49,177,441	20%
Workers' Compensation Checking (Wells Fargo)	45,984	23,013	0%
Payroll Checking (Wells Fargo)	-	-	0%
Restricted for Bond Repayments ¹ (BNY Mellon)	-	-	0%

Restricted for Pension ² (PARS)	18,500,105	20,389,010	8%
Total Cash and Investments³	\$239,537,391	\$245,335,970	100%

¹ Cash held by fiscal agent for bond repayments

² In accordance with GASB 67/68, the assets in the Section 115 Pension Trust are reported as restricted cash and investments in the General Fund. The assets can only be used to fund CalPERS costs.

³ Assets in the Section 115 OPEB Trust are excluded as the City cannot use these assets to fund its own operations. The assets are held in trust for retirees' post-employment health benefits.

Local Agency Investment Fund (LAIF)

LAIF is an investment pool administered by the State of California Treasurer and governed by California Government Code. The City can withdraw funds from LAIF at any time. As a result, the City uses LAIF for short-term investment, liquidity, and yield.

The City's LAIF account had a balance of \$21.8 million. The quarterly interest rate was 4.00%. The City did not make any deposits or withdrawals in the quarter ending December 2023.

Investment Portfolio

In FY 2018-19, the City conducted a Request for Proposal (RFP) for investment management services and selected Chandler Asset Management. Under the City's Treasurer's direction, Chandler Asset Management manages the City's investment portfolio in accordance with the City's investment objectives. The City's investment objectives, in order of priority, are to provide:

- Safety to ensure the preservation of capital in the overall portfolio
- Sufficient liquidity for cash needs
- A market rate of return consistent with the investment program

The performance objective is to earn a total rate of return through a market cycle equal to or above the return on the benchmark index. Chandler Asset Management invests in high-quality fixed-income securities consistent with the City's Investment Policy and California Government Code to achieve the objective.

The portfolio's market value was \$154.0 million, compared to \$150.1 million at the end of the previous quarter. The table below includes historical comparisons of the City's portfolio:

	September 30, 2023	December 31, 2023
Market Value	150,093,752	153,958,566
Par Value	158,177,925	158,767,712
Book Value	157,776,718	158,476,712
Average Maturity	2.14 years	2.10 years
Average Modified Duration	1.83	1.86
Average Purchase Yield	2.03%	2.19%
Average Market Yield	5.36%	4.69%
Average Quality ¹	AA/Aa1	AA/Aa1

¹ S&P and Moody's respectively

The portfolio's market value fluctuates depending on interest rates. When interest rates decrease after an investment is purchased, the market value of the investment increases. In contrast, when interest rates increase after an investment is purchased, the market value of the investment decreases. At the time of purchase, the City intends to hold all investments until maturity, meaning that changes in market value will not impact the City's investment principal. If the market value decreases, the City will incur an unrealized loss. However, the loss will only be realized if the City sells its investments before their maturity. The market values for the portfolio were provided by Chandler Asset Management.

Section 115 Trust Investment Portfolio

The City established Section 115 Trusts to reduce pension rate volatility and pre-fund Other Post-Employment Benefits (OPEB) costs. These trusts are a tax-exempt investment tool that local governments can use to set aside funds for pension and retiree health costs. Contributions made to the trust can only be used to fund retirement plans.

Investments in the Section 115 Trusts are governed by separate investment policies, which are distinct from the City's Investment Policy. On December 5, 2023, City Council approved the Pension Trust Investment Policy and OPEB Trust Investment Policy. Public Agency Retirement Services (PARS) administers the trust, while US Bank manages the investments in accordance with the approved investment policies.

Both Section 115 Trusts are invested in "balanced" portfolios. The investment objective is designed to provide a moderate amount of current income with moderate growth of capital. This type of investment strategy is generally recommended for investors with a long-term horizon. The strategic asset allocation ranges for this investment objective are:

Asset Class	Range	Target
Equities	50-70%	63%
Fixed Income	20-40%	29%
Real Estate	0-15%	5%
Commodities	0-10%	2%
Cash	0-10%	1%

The Section 115 Pension Trust had a balance of \$20.4 million, an increase of \$1.0 million from the prior quarter due to investment gains. The Section 115 OPEB Trust had a balance of \$37.1 million, an increase of \$1.9 million from the prior quarter due to investment gains. The quarterly investment returns were 10.3% for both the Pension Trust and OPEB Trust.

Analysis

The City compares its portfolio to LAIF and one-year and two-year Treasury yields. Yield comparisons for the one-year Treasury, two-year Treasury, LAIF, and City average are presented below:

Yield Comparisons

1-Year Treasury, 2-Year Treasury, LAIF and City Average

In June, one-year and two-year Treasury yields increased. The yield curve remained inverted and the spread between the two-year and 10-year Treasury yield became more inverted. The one-year and two-year Treasury yields were 4.79% and 4.23%, respectively. The one-year Treasury yield decreased by 67 basis points, and the two-year Treasury yield decreased by 80 basis points from September 30, 2023. The yield of the City's investment portfolio was 4.69%, lower than the one-year Treasury yield but higher than the two-year Treasury yield and LAIF.

Cash Flow History

Historical revenues, expenditures, and liquidity ratios are presented below:

As the City's portfolio becomes more or less liquid over time, the ratio of cash and cash equivalents to revenues and expenditures will increase or decrease, respectively. The portfolio's investment structure is complete, so the City anticipates the ratio of cash and cash equivalents to revenues and expenditures to continue to flatten out moving forward. While a formal liquidity level has not been established, significant and consistent fluctuations in the ratio may indicate that additional funds should be invested or, conversely, that investments should be liquidated. In recent years, sufficient liquidity levels for operating revenues and expenditures have approximated a ratio of 1.0. In March 2022, the City transferred \$15.0 million from the operating account to the investment portfolio, which reduced the March 2022 liquidity ratios. Liquidity ratios have been higher in FY 2023-24 due to increased cash and investment balances as the City anticipated an adverse decision from a California Department of Tax and Fee Administration (CDTFA) audit of a City taxpayer. On October 10, 2023, the City established a Sales Tax Repayment Reserve with an initial allocation of \$56.5 million to set aside disputed sales tax revenue.

As of December 31, 2023, the liquidity ratio was 3.9 and 2.4 for revenues and expenditures, respectively. The City will monitor inflows and outflows during FY 2023-24 and bring recommendations for the City's investment portfolio as necessary and applicable.

As of December 31, 2023, the City had \$71.0 million in cash and cash equivalents in the bank and on hand. Based on the cash flow forecast, the City maintains the ability to meet its expenditure requirements for the next six months.

Cash Flow Forecast

Applying three-year historical trend data for each of the City's revenue and expenditure line items to the FY 2023-24 Adopted Budget, the City estimated the following cash flow forecast for FY 2023-24:

FY 2023-24 Adopted Budget Cash Flow Forecast

FY 2023-24 Adopted Budget Liquidity Balance Forecast

The purpose of this cash flow and liquidity forecast is to illustrate the timing of the City's revenues and expenditures throughout a fiscal year using historical trend data. The first quarter of the fiscal year experiences expenditures exceeding revenues since the City begins receiving its property tax distributions in November and April of the respective fiscal year. In January and April, the City receives additional property tax revenues due to the Vehicle License Fee (VLF) swap. In June, the City tends to experience higher activities, particularly expenditures, due to the year-end close and accrual process. From one fiscal year to the next, the City typically incurs one-time special project or capital expenditure costs. The timing of these costs is more difficult to pinpoint in a particular month.

From a cash flow analysis perspective, the Adopted and Amended Budgets are efficient planning tools for determining cash flow needs for a single fiscal year. If a budget is adopted at a position in which revenues and expenditures are balanced, then it is reasonable to conclude cash flow is unlikely to be of concern. Beyond one fiscal year, a City prepares a long-term forward-looking forecast using historical and prospective assumptions. This forecast model is incorporated and presented to the City Council as part of the City's Adopted Budget.

Compliance

All of the City's investments comply with state law and the City's Investment Policy. In compliance with California Government Code 53646 (b)(3), the City maintains the ability to meet its expenditure requirements for the next six months.

Sustainability Impact

No sustainability impact.

Fiscal Impact

No fiscal impact.

SECTION 3	Portfolio Holdings
SECTION 4	Transactions

Section 1 | Economic Update

Economic Update

- Recent economic data has shown above trend growth fueled by a rise in consumer spending and a continuing healthy US job market. Inflationary trends are subsiding, but core levels remain above the Fed's target. Given the cumulative effects of restrictive monetary policy and tighter financial conditions, we believe the economy will gradually soften and the Fed will loosen monetary policy in 2024.
- As expected at the December meeting, the Federal Open Market Committee voted unanimously to leave the Federal Funds rate unchanged at a target range of 5.25 - 5.50%. Fed Chair Powell signaled that the federal funds rate is likely at or near its peak. The new Summary of Economic Projections reflected Core PCE inflation reaching the target 2% level in 2026 without a significant increase in unemployment. We believe the FOMC will loosen monetary policy in mid-2024 as inflation and economic growth continue to moderate.
- US Treasury rates fell steeply across the yield curve in December on decelerating inflation readings and a more dovish Federal Reserve outlook. The 2-year Treasury yield declined 43 basis points to 4.25%, the 5-year Treasury yield dropped 42 basis points to 3.85%, and the 10-year Treasury yield decreased 45 basis points to 3.88%. The inversion between the 2-year Treasury yield and 10-year Treasury yield widened to -37 basis points at December month-end versus -35 basis points at November month-end. The spread between the 2-year Treasury and 10-year Treasury yield one year ago was -55 basis points. The inversion between 3-month and 10-year Treasuries widened to -146 basis points in December from -107 basis points in November. Interest rates peaked in 2023 followed by the Fed's dovish pivot late in the year, resulting in a decline in yields across the curve and signaling less restrictive monetary policy in 2024. The shape of the yield curve indicates that the probability of recession persists.

Employment

The U.S. economy added 216,000 jobs in December, exceeding consensus expectations of 175,000, and the last two months were revised down by 71,000 jobs. Leading sectors included government, leisure, hospitality, and healthcare. The trajectory of job creation is gradually moderating, with the three-month moving average payrolls at 165,000 and the six-month moving average at 193,000. The unemployment rate remained unchanged at 3.7%, and the labor participation rate decreased to 62.5% from 62.8%, falling well below the pre-pandemic level of 63.3%. The U-6 underemployment rate, which includes those who are marginally attached to the labor force and employed part time for economic reasons rose to 7.1% from 7.0% last month. Average hourly earnings rose 4.1% year-over-year in December, increasing from a 4.0% gain last month. Employment remains strong by historical standards, but data are trending toward a less robust labor market outlook.

Inflation

Consumer Price Index (CPI)

Source: US Department of Labor

Personal Consumption Expenditures (PCE)

Source: US Department of Commerce

The Consumer Price Index (CPI) increased 0.1% month-over-month and 3.1% year-over-year in November, edging down from 3.2% year-over-year in October. The Core CPI, which excludes volatile food and energy components, was up 0.3% month-over-month and 4.0% year-over-year, unchanged from October as expected. Shelter was the largest contributor to November's Core CPI monthly advance, accounting for 70% of the increase. The Personal Consumption Expenditures (PCE) Index eased more than expected in November, as headline inflation fell 0.1% month-over-month and rose 2.6% year-over-year, down from a 2.9% increase in October. Core PCE, the Federal Reserve's preferred inflation gauge, increased 0.1% month-over-month and decelerated to 3.2% year-over-year in November from a 3.4% year-over-year increase in October. The trend is moderating, but inflation remains above the Fed's 2% target.

Federal Reserve

Federal Reserve Balance Sheet Assets

Source: Federal Reserve

Effective Federal Funds Rate

Source: Bloomberg

As expected at the December meeting, the Federal Open Market Committee voted unanimously to leave the federal funds rate unchanged at a target range of 5.25-5.50%. The Fed acknowledged inflation eased over the past year while remaining elevated. Fed Chair Powell signaled that the federal funds rate is likely at or near its peak. The Summary of Economic Projections reflected Core PCE inflation reaching the target 2% level in 2026 without a significant increase in unemployment. The median forecast for the federal funds rate declined to 4.6%, implying three quarter-point cuts next year, four in 2025 and three in 2026, placing the federal funds target rate around 2.9% at the end of the forecast horizon. The market interpreted the statement as dovish, with futures contracts pricing in rate cuts sooner and more aggressively than the Fed's forecasts next year. We believe the FOMC will loosen monetary policy in mid-2024 as inflation and economic growth continue to moderate. Since the Fed began its Quantitative Tightening campaign in June 2022, securities holdings have declined by over \$1.2T to approximately \$7.8T.

Bond Yields

US Treasury Note Yields

Source: Bloomberg

US Treasury Yield Curve

Source: Bloomberg

At the end of December, the 2-year Treasury yield was 18 basis points lower, and the 10-Year Treasury yield was flat, year-over-year. The inversion between the 2-year Treasury yield and 10-year Treasury yield widened to -37 basis points at December month-end versus -35 basis points at November month-end. The average historical spread (since 2003) is about +130 basis points. The inversion between 3-month and 10-year Treasuries widened to -146 basis points in December from -107 basis points in November. The shape of the yield curve indicates that the probability of recession persists.

Section 2 | Account Profile

Investment Objectives

The City of Cupertino's investment objectives, in order of priority, are to provide safety to ensure the preservation of capital in the overall portfolio, provide sufficient liquidity for cash needs and a market rate of return consistent with the investment program.

Chandler Asset Management Performance Objective

The performance objective for the portfolio is to earn a total rate of return through a market cycle that is equal to or above the return on the benchmark index.

Strategy

In order to achieve these objectives, the portfolio invests in high quality fixed incomes securities consistent with the investment policy and California Government Code.

Important Disclosures

As of December 31, 2023

2023 Chandler Asset Management, Inc, An Independent Registered Investment Adviser.

Information contained herein is confidential. Prices are provided by ICE Data Services Inc ("IDS"), an independent pricing source. In the event IDS does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance results are presented gross-of-advisory fees and represent the client's Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Source ICE Data Indices, LLC ("ICE"), used with permission. ICE permits use of the ICE indices and related data on an "as is" basis; ICE, its affiliates and their respective third party suppliers disclaim any and all warranties and representations, express and/or implied, including any warranties of merchantability or fitness for a particular purpose or use, including the indices, index data and any data included in, related to, or derived therefrom. Neither ICE data, its affiliates or their respective third party providers guarantee the quality, adequacy, accuracy, timeliness or completeness of the indices or the index data or any component thereof, and the indices and index data and all components thereof are provided on an "as is" basis and licensee's use it at licensee's own risk. ICE data, its affiliates and their respective third party do not sponsor, endorse, or recommend chandler asset management, or any of its products or services.

This report is provided for informational purposes only and should not be construed as a specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

Ratings information have been provided by Moody's, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities ("MBS") reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest and carries a AA+/Aaa/AAA by S&P, Moody's and Fitch respectively.

Your qualified custodian bank maintains control of all assets reflected in this statement and we urge you to compare this statement to the one you receive from your qualified custodian. Chandler does not have any authority to withdraw or deposit funds from/to the custodian account.

Asset Class 10-Year Snapshot Disclosure

As of December 31, 2023

- **US Small Cap Stocks – Morgan Stanley Capital International (MSCI) Small Cap 1750** – The MSCI Small Cap 1750 is a market capitalization weighted index that measures the performance of small capitalization U.S. stocks.
- **US Mid Cap Stocks – Morgan Stanley Capital International (MSCI) Mid Cap 450** – The MSCI Mid Cap 450 is a market capitalization weighted index that measures the performance of mid-capitalization U.S. stocks.
- **US Large Cap Stocks – Standard & Poor's 500** – The S&P 500 is a market value weighted index of 500 large capitalization stocks. The 500 companies included in the index capture approximately 80% of available U.S. market capitalization.
- **International Stocks – Morgan Stanley Capital International (MSCI) EAFE** – The MSCI EAFE International Equity Index is a market capitalization weighted index that captures international equity performance of large and mid-cap stocks in the developed stock markets of Europe, Australasia, and the Far East.
- **Emerging Market Stocks – Morgan Stanley Capital International (MSCI) Emerging Markets** – The MSCI Emerging Markets Index is a market capitalization weighted index that captures equity performance of large and mid-cap stocks across emerging market countries.
- **U.S. Real Estate – Morgan Stanley Capital International (MSCI) REIT** – The MSCI US REIT Index is a free float-adjusted market capitalization index that is comprised of equity REITs. It represents about 99% of the US REIT universe and securities are classified in the REIT sector according to the Global Industry Classification Standard (GICS®). It excludes Mortgage REITs and selected Specialized REITs.
- **International Real Estate – S&P Developed Ex-US Property** – The S&P Developed Ex-US Property Index is a market capitalization weighted index that captures the performance of a universe of publicly traded property companies based in developing countries outside of the US. The companies included are engaged in real estate related activities, such as property ownership, management, development, rental and investment.
- **US Core Bonds – ICE BofA US Corporate, Government, Mortgage** – The ICE BofA US Corporate, Government, Mortgage index is a broad measure of US investment grade bond performance, including US Treasuries, agencies, investment-grade corporates and mortgage securities.
- **US High Yield Bonds – ICE BofA US High Yield** – The ICE BofA High Yield Bond Index measures the market of USD-denominated, non-investment grade, fixed-rate, taxable corporate bonds.
- **International Bonds – Bloomberg Barclays Global Aggregate ex-USD Total Return Index Value Unhedged USD** – Index from 2/1/2013 – current. This index measures the performance of global investment grade debt from 24 local currency markets. This multi-currency benchmark includes treasury, government-related, corporate and securitized fixed-rate bonds from both developed and emerging markets issuers. S&P Citigroup International Govt Bond – Index from 1/1/2009 – 1/31/2013. This index measures the performance of sovereign bonds of non-U.S. developed countries.

- **Diversified Commodities – S&P GSCI Commodity Index** – The S&P GSCI Commodity Index is a world production-weighted measure of general commodity price movements and inflation in the world economy. It consists of a basket of physical commodity futures contracts.

Disclosure: This report is provided for informational purposes only and should not be construed as specific investment or legal advice. The information contained herein was obtained from sources believed to be reliable as of the date of publication, but may become outdated or superseded at any time without notice. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgement.

All investments contain risk and may lose value. Fixed income investments are subject to interest rate, credit, and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates. International: Non-US markets may be more volatile due to a variety of factors including less liquidity, transparency and oversight of companies and assets. Values of non-US investments may fluctuate due to changes in currency exchange rates. Non-US companies are also subject to risks that come with political and economic stability that may affect their respective countries. These risks may be greater in emerging market countries. Equities: Investments on equities are subject to risks from stock market fluctuations that occur in response to economic and business developments.

ICE BofA 1-3 Yr US Treasury & Agency Index

The ICE BofA 1-3 Year US Treasury & Agency Index tracks the performance of US dollar denominated US Treasury and nonsubordinated US agency debt issued in the US domestic market. Qualifying securities must have an investment grade rating (based on an average of Moody's, S&P and Fitch). Qualifying securities must have at least one year remaining term to final maturity and less than three years remaining term to final maturity, at least 18 months to maturity at time of issuance, a fixed coupon schedule, and a minimum amount outstanding of \$1 billion for sovereigns and \$250 million for agencies.

AUDIT COMMITTEE STAFF REPORT

Meeting: April 22, 2024

Subject

Consider the City's Investment Policy

Recommended Action

Review and accept the City's Investment Policy

Reasons for Recommendation

Background

To ensure the City's investment policy is up-to-date and aligned with its investment objectives, the Audit Committee conducts an annual review before presenting it to the City Council. The most recent review and acceptance of the investment policy by the Audit Committee occurred on April 24, 2023, followed by approval from the City Council on May 16, 2023.

The investment policy is the foundation of the City's investment goals and priorities. It can help protect the City's assets if it is carefully researched, effectively drafted, and regularly reviewed to assure that it continues to meet the City's investment objectives. The existence of an approved investment policy demonstrates that the City is performing its fiduciary responsibilities, thereby inspiring trust and confidence among the public that it serves.

The policy also provides guidance on the proper management of the City's temporary idle cash, outlining protocols to maximize cash efficiency.

California Government Code (Code) section 53646(a)(2) states:

[T]he treasurer or chief fiscal officer of the local agency may annually render to the legislative body of that local agency and any oversight committee of that local agency a statement of investment policy, which the legislative body of the local agency shall consider at a public meeting. Any change in the policy shall also be considered by the legislative body of the local agency at a public meeting.

Assembly Bill 2853 (Chapter 889, Statutes of 2004) amended section 53646(a)(2) to make presentation of the investment policy to the City Council optional. While no longer required by Code, the City annually presents the investment policy to the Audit Committee before submitting it to City Council for approval.

Chandler Asset Management

In FY 2018-19, the City conducted a Request for Proposal (RFP) for investment management services and selected Chandler Asset Management. Under the City's Treasurer's direction, Chandler Asset Management manages the City's investment portfolio in accordance with the City's investment objectives. The City's investment objectives, in order of priority, are to provide:

- Safety to ensure the preservation of capital in the overall portfolio
- Sufficient liquidity for cash needs
- A market rate of return consistent with the investment program

The performance objective is to earn a total rate of return through a market cycle equal to or above the return on the benchmark index. To achieve the objective, Chandler Asset Management invests in high-quality fixed-income securities consistent with the City's investment policy and Code.

Investment Policy Review

Chandler Asset Management reviewed the City's investment policy. The review of the policy focused on compliance with the statutes of Code that govern the investment of public funds, as well as on the inclusion of current best practices.

There was a change to Code Section 53601 for 2023 that Chandler Asset Management recommends the City adopt. Pursuant to Senate Bill 1489, effective January 1, 2023, the Code specified that an investment's term or remaining maturity shall be measured from the settlement date to final maturity rather than from the trade date. Chandler Asset Management has added the change in the Maximum Maturities and Mitigating Market Risk in the Portfolio sections. The City's policy continues to be effective as written.

 City Investment Policy	Citywide Policy Manual
Effective Date: May 21 ¹⁶ , 202 4 ³	Attachments: N/A
Related Policies & Notes: Pension Investment Policy, OPEB Investment Policy	Responsible Department: Administrative Services

POLICY

Under authority granted by the City Council, the City Treasurer and Deputy Treasurer are responsible for investing the surplus funds of the City.

The investment of the funds of the City of Cupertino is directed to the goals of safety, liquidity and yield. The authority governing investments for municipal governments is set forth in the California Government Code, Sections 53600 et seq. [By adopting this Policy, the City Council delegates to the City Treasurer the authority to invest or to reinvest City funds, or to sell or exchange securities so purchased pursuant to Government Code Section 53607.](#)

The primary objective of the investment policy of the City of Cupertino is SAFETY OF PRINCIPAL. Investments shall be placed in those securities as outlined by type and maturity sector in this document. Effective cash flow management and resulting cash investment practices are recognized as essential to good fiscal management and control. The City's portfolio shall be designed and managed in a manner responsive to the public trust and consistent with state and local law. Portfolio management requires continual analysis and as a result the balance between the various investments and maturities may change in order to give the City of Cupertino the optimum combination of necessary liquidity and optimal yield based on cash flow projections.

SCOPE

The investment policy applies to all financial assets of the City of Cupertino as accounted for in the Annual Comprehensive Financial Report (ACFR). Policy statements outlined in this document focus on the City of Cupertino's pooled, surplus funds, but will also apply to all other funds under the City Treasurer's span of control unless specifically exempted by statute or ordinance. This policy is applicable, but not limited to all funds listed below:

- General Fund
- Special Revenue Funds
- Capital Project Funds
- Enterprise Funds

- Internal Service Funds
- Trust and Agency Funds
- Any new fund unless specifically exempted

Investments of bond proceeds shall be governed by the provisions of the related bond indentures and/or cash flow requirements and therefore may extend beyond the maturity limitations as outlined in this document. Other post-employment benefit (OPEB) and Pension trust investments are governed by California Government Code Sections 53620 through 53622 and trust documents. The trusts are governed by separate investment policies entitled Investment Policy Statement City of Cupertino Investment Trust that were reviewed by the City of Cupertino Audit Committee on October 23⁴, 2023² and City Council on December 5⁶, 2023².

PRUDENCE

Pursuant to California Government Code, Section 53600.3, all persons authorized to make investment decisions on behalf of the City are trustees and therefore fiduciaries subject to the Prudent Investor Standard:

“...all governing bodies of local agencies or persons authorized to make investment decisions on behalf of those local agencies investing public funds pursuant to this chapter are trustees and therefore fiduciaries subject to the prudent investor standard. When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the Agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the Agency. Within the limitations of this section and considering individual investments as part of an overall strategy, investments may be acquired as authorized by law.”

It is the City’s intent, at the time of purchase, to hold all investments until maturity to ensure the return of all invested principal dollars. However, it is realized that market prices of securities will vary depending on economic and interest rate conditions at any point in time. It is further recognized that in a well-diversified investment portfolio, occasional measured losses are inevitable due to economic, bond market, or individual security valuation fluctuations. These occasional losses must be considered within the context of the overall investment program objectives and the resultant long-term rate of return. The City Treasurer and Deputy Treasurer, acting within the intent and scope of the investment policy and other written procedures and exercising due diligence, shall be relieved of personal responsibility and liability for an individual security’s credit risk or market price changes, provided deviations from expectations are reported in a timely manner and appropriate action is taken to control adverse developments.

OBJECTIVES

The primary objectives, in order of priority, of the City of Cupertino's investment activities shall be:

A. Safety of Principal

Safety of principal is the foremost objective of the City of Cupertino. Investments will be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, the City will diversify its investments by investing funds among a variety of securities with independent returns.

B. Liquidity

The City's investment portfolio will remain sufficiently liquid to meet all operating requirements which might be reasonably anticipated and provide the City with adequate cash flows to pay its obligations over the next six months. Additionally, the portfolio should consist largely of securities with active secondary resale markets.

C. Return

The City's investment portfolio shall be designed with the objective of attaining a rate of return throughout budgetary and economic cycles, commensurate with Cupertino's investment risk constraints and cash flow characteristics of the portfolio.

MAXIMUM MATURITIES

Maturities of investments will be selected based on liquidity requirements to minimize interest rate risk and maximize earnings. Investment of surplus funds shall comply with the maturity limits as set forth in the California Government Code 53600, et seq. Where this section does not specify a limitation on the term or remaining maturity at the time of the investment, no investment shall be made in any security that at the time of the investment has a term remaining to maturity in excess of five years from date of trade settlement, unless the Council has granted express authority to make that investment either specifically or as a part of an investment program approved by the Council no less than three months prior to the investment. Reserve funds may be invested in securities exceeding five years if the maturity of such investments is made to coincide as nearly as practicable with the expected use of the funds.

PERFORMANCE EVALUATION

Investment performance is continually monitored and evaluated by the City Treasurer. Investment performance statistics and activity reports are generated on a quarterly basis for presentation to the oversight (audit) committee, City Manager and City Council. Yield on the City's investment portfolio is of secondary importance compared to the safety and liquidity objectives described above. The City's investment portfolio shall be designed to attain a market average rate of return through economic cycles. The Treasurer shall monitor and evaluate the portfolio's performance relative to the chosen market benchmark(s), which will be included in the Treasurer's quarterly report. The Treasurer shall select an appropriate, readily available index to use as a market benchmark. Whenever possible, and consistent with risk limitations as defined herein and prudent investment principles, the Treasurer shall seek to augment return above the

market average rate of return. The City may select alternative benchmarks for identified pools of City funds that have different objectives.

DELEGATION OF AUTHORITY

Authority to manage the City's investment program is derived from California Government Code, Sections 41006 and 53600 et seq. The Treasurer is responsible for investment management decisions and activities per City Council Resolution.

The Treasurer shall designate a staff person as a liaison/deputy in the event circumstances require timely action and the Treasurer is not present.

No officer or designee may engage in an investment transaction except as provided under terms of this policy and the procedures by the Treasurer and approved by the City Manager/Council. The Treasurer shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials.

If an investment adviser is retained by the City, the investment adviser, registered under the Investment Advisers Act of 1940, must have at least five years' experience investing in the securities and obligations authorized by California Government Code 53601 subdivisions (a) to (k), inclusive, and subdivisions (m) to (q), inclusive, and with assets under management in excess of five hundred million dollars (\$500,000,000). External investment advisers may be granted discretion to purchase and sell investment securities in accordance with this investment policy.

The City's overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. The City recognizes that in a diversified portfolio, occasional measured losses may be inevitable and must be considered within the context of the overall portfolio's return and the cash flow requirements of the City.

OVERSIGHT COMMITTEE

An audit committee consisting of appropriate internal and external members, appointed by the City Council, shall be established to provide general oversight and direction concerning the policies related to management of the City's investment pool, OPEB trust, and Pension Rate Stabilization Program trust. The City Treasurer shall serve in a staff and advisory capacity. The committee shall meet at least quarterly to review policy changes, new legislation and portfolio status.

ETHICS AND CONFLICTS OF INTEREST

Officers and employees involved in the investment process shall refrain from personal business activity that conflicts with proper execution of the investment program, or impairs their ability to make impartial investment decisions. Additionally the City Treasurer and the Deputy Treasurer are required to annually file applicable financial disclosures as required by the Fair Political Practices Commission (FPPC).

SAFEKEEPING OF SECURITIES

To protect against fraud or embezzlement or losses caused by collapse of an individual securities dealer, all securities owned by the City shall be held in safekeeping by a third party custodian acting as agent for the City under the terms of a custody agreement. All trades executed by a dealer will settle delivery versus payment (DVP) through the City's safekeeping agent. In order to verify investment holdings, an external auditor, on an annual basis, shall independently verify securities held in custody for the City. Additionally, the City Treasurer shall include a listing of holdings provided by the City's custodian to the quarterly investment report as verification between annual reviews by the external auditor.

The only exceptions to the foregoing shall be depository accounts and securities purchases made with: (i) local government investment pools; (ii) time certificates of deposit, and, (iii) money mutual funds, since the purchased securities are not deliverable. All other exceptions to this safekeeping policy must be approved by the City Treasurer in written form and included in the quarterly report to City Council.

INTERNAL CONTROL

Separation of duties between the Treasurer's function and Finance is designed to provide proper internal controls to prevent the potential for converting assets or concealing transactions. Dual transaction controls, separate and independent notifications, and reports provided by financial institutions shall be used to help implement these controls.

Wire transfers shall be approved prior to being submitted to the financial institution. Wire transfers initiated by Treasury staff must be reconfirmed by the appropriate financial institution to Finance staff. Proper documentation is required for each investment transaction and must include a broker trade confirmation and a cash disbursement wire transfer confirmation. Timely bank reconciliation is conducted to ensure proper handling of all transactions. The investment portfolio and all related transactions are reviewed and balanced to appropriate general ledger accounts by Finance staff on a monthly basis.

An annual agreed-upon procedures engagement in accordance with the attestation standards established by the American Institute of Certified Public Accountants shall be conducted by an auditor solely to assist management in determining the City's compliance with this investment policy. At the conclusion of such engagement, the agreed-upon procedures report detailing all procedures performed and findings noted (if applicable) shall be provided to the Audit Committee of the City.

REPORTING

Monthly transaction reports will be submitted by the Treasurer to the City Council within 30 days of the end of the reporting period in accordance with California Government Code Section 53607.

The City Treasurer shall also prepare a quarterly investment report, including a succinct management summary that provides a clear picture of the status of the current investment portfolio. The report will be prepared in a manner that will report all information required under this policy and as recommended by California Government Code. The Treasurer will submit the report to Council no later than the second regular council meeting, or approximately 45 days following the end of the quarter covered by the report.

AUTHORIZED FINANCIAL INSTITUTIONS, DEPOSITORIES, AND QUALIFIED BROKER/DEALERS

To the extent practicable, the Treasurer shall endeavor to complete investment transactions using a competitive bid process whenever possible. The City's Treasurer will determine which financial institutions are authorized to provide investment services to the City. It shall be the City's policy to purchase securities only from authorized institutions and firms.

The Treasurer shall maintain procedures for establishing a list of authorized broker/dealers and financial institutions which are approved for investment purposes that are selected through a process of due diligence as determined by the City. Due inquiry shall determine whether such authorized broker/dealers, and the individuals covering the City are reputable and trustworthy, knowledgeable and experienced in Public Agency investing and able to meet all of their financial obligations. These institutions may include "primary" dealers or regional dealers that qualify under Securities and Exchange Commission (SEC) Rule 15c3-1 (uniform net capital rule).

In accordance with Section 53601.5, institutions eligible to transact investment business with the City include:

- Primary government dealers as designated by the Federal Reserve Bank and non-primary government dealers.
- Nationally or state-chartered banks.
- The Federal Reserve Bank.
- Direct issuers of securities eligible for purchase.

Selection of financial institutions and broker/dealers authorized to engage in transactions will be at the sole discretion of the City, except where the City utilizes an external investment adviser in which case the City may rely on the adviser for selection.

All financial institutions which desire to become qualified bidders for investment transactions (and which are not dealing only with the investment adviser) must supply the Treasurer with audited financials and a statement certifying that the institution has reviewed the California Government Code, Section 53600 et seq. and the City's investment policy. The Treasurer will conduct an annual review of the financial condition and registrations of such qualified bidders.

Public deposits will be made only in qualified public depositories as established by State law. Deposits will be insured by the Federal Deposit Insurance Corporation, or, to the extent the amount exceeds the insured maximum, will be collateralized in accordance with State law.

Selection of broker/dealers used by an external investment adviser retained by the City will be at the sole discretion of the adviser. Where possible, transactions with broker/dealers shall be selected on a competitive basis and their bid or offering prices shall be recorded. If there is no other readily available competitive offering, best efforts will be made to document quotations for comparable or alternative securities. When purchasing original issue instrumentality securities, no competitive offerings will be required as all dealers in the selling group offer those securities at the same original issue price.

COLLATERAL REQUIREMENTS

CERTIFICATES OF DEPOSIT (CDS). The City shall require any commercial bank or savings and loan association to deposit eligible securities with an agency of a depository approved by the State Banking Department to secure any uninsured portion of a Non-Negotiable Certificate of Deposit. The value of eligible securities as defined pursuant to California Government Code, Section 53651, pledged against a Certificate of Deposit shall be equal to 150% of the face value of the CD if the securities are classified as mortgages and 110% of the face value of the CD for all other classes of security.

COLLATERALIZATION OF BANK DEPOSITS. This is the process by which a bank or financial institution pledges securities, or other deposits for the purpose of securing repayment of deposited funds. The City shall require any bank or financial institution to comply with the collateralization criteria defined in California Government Code, Section 53651.

REPURCHASE AGREEMENTS. The City requires that Repurchase Agreements be collateralized only by securities authorized in accordance with California Government Code:

- The securities which collateralize the repurchase agreement shall be priced at Market Value, including any Accrued Interest plus a margin. The Market Value of the securities that underlie a repurchase agreement shall be valued at 102% or greater of the funds borrowed against those securities.
- Financial institutions shall mark the value of the collateral to market at least monthly and increase or decrease the collateral to satisfy the ratio requirement described above.
- The City shall receive monthly statements of collateral.

AUTHORIZED INVESTMENTS

Investment of City funds is governed by the California Government Code Sections 53600 et seq. Within the context of the limitations, the following investments are authorized, subject to the restrictions below. In the event a discrepancy is found between this policy and the Code, the more restrictive parameters will take precedence. Percentage holding limits listed in this section apply at the time the security is purchased.

Any investment currently held at the time the policy is adopted which does not meet the new policy guidelines can be held until maturity and shall be exempt from the current policy. At the time of the investment's maturity or liquidation, such funds shall be reinvested only as provided in the current policy.

An appropriate risk level shall be maintained by primarily purchasing securities that are of high quality, liquid, and marketable. The portfolio shall be diversified by security type and institution to avoid incurring unreasonable and avoidable risks regarding specific security types or individual issuers.

1. United States Treasury Bills, Bonds, and Notes or those for which the full faith and credit of the United States are pledged for payment of principal and interest. There is no percentage limitation of the portfolio that can be invested in this category, although a five-year maturity limitation is applicable.
2. Obligations issued by Federal agencies or United States Government-Sponsored Enterprise obligations, participations, or other instruments, including those issued by or fully guaranteed as to principal and interest by federal agencies or United States government-sponsored enterprises. There are no limits on the dollar amount or percentage that the City may invest in Federal Agency or Government-Sponsored Enterprises (GSEs), provided that:
 - No more than 25% of the portfolio may be invested in any single Agency/GSE issuer.
 - The maximum maturity does not exceed five (5) years.
 - The maximum percent of agency callable securities in the portfolio will be 20%.
3. Banker's Acceptances (bills of exchange or time drafts drawn on and accepted by commercial banks) may not exceed 180 days to maturity or 40% of the portfolio.
 - They are issued by institutions which have short-term debt obligations rated "A-1" or its equivalent or better by at least one NRSRO; or long-term debt obligations which are rated in a rating category of "A" or its equivalent or better by at least one NRSRO.
 - No more than 5% of the portfolio may be invested in any single issuer.
4. Local Agency Investment Fund (LAIF), which is a State of California managed investment pool, may be used up to the maximum permitted by California state law. LAIF's investments in instruments prohibited by or not specified in the City's policy do not exclude the investment in LAIF itself from the City's list of allowable investments, provided LAIF's reports allow the Treasurer to adequately judge the risk inherent in LAIF's portfolio..
5. Commercial paper issued by corporations organized and operating in the United States having assets in excess of \$500,000,000, ranked "A-1" or its equivalent or better by at least one Nationally Ranked Statistical Rating Organization (NRSRO), issued by corporations which have long-term obligations rated in a rating category of "A" or its equivalent or better by one NRSRO. Purchases of eligible commercial paper may not exceed 270 days to maturity nor represent more than 10% of the outstanding paper of the issuing corporation.

Purchases of commercial paper may not exceed 25% of the portfolio. Under a provision sunseting on January 1, 2026, no more than 40% of the City's portfolio may be invested in Commercial Paper if the City's investment assets under management are greater than \$100,000,000. No more than 10% of the total investments may be invested in commercial paper and medium term notes of any single issuer.

6. Negotiable Certificates of Deposits issued by nationally or state-chartered banks, state or federal savings associations, or state or federal credit unions, or by a federally licensed or state-licensed branch of a foreign bank. Purchases of Negotiable Certificates of Deposit may not exceed 30% of the portfolio. No more than 5% of the portfolio may be invested in any single issuer. A maturity limitation of five years is applicable. The amount of the NCD insured up to the FDIC limit does not require any credit ratings. Any amount above the FDIC insured limit must be issued by institutions which have short-term debt obligations rated "A-1" or its equivalent or better by at least one NRSRO; or long-term obligations rated in a rating category of "A" or its equivalent or better by at least one NRSRO.
7. Repurchase agreements that specify terms and conditions may be transacted with banks and broker dealers. The maturity of the repurchase agreements shall not exceed one year. The market value of the securities used as collateral for the repurchase agreements shall be monitored by the investment staff and shall not be allowed to fall below 102% of the value of the repurchase agreement. A PSA Master Repurchase Agreement is required between the City of Cupertino and the broker/dealer or financial institution for all repurchase agreements transacted.
8. Reverse repurchase agreements are not authorized.
9. Certificates of Deposit (time deposits), non-negotiable and collateralized in accordance with the California Government Code, may be purchased through banks, savings and loan associations, or credit unions. Within a limit of 30% of the portfolio, these institutions may use a private sector entity to assist in the placement of the time deposits under the conditions specified by the Government Code.
10. Medium Term Corporate Notes issued by corporations organized and operating in the United States or by depository institutions licensed by the United States or any state and operating within the United States, with a maximum maturity of five years may be purchased. Securities eligible for investment shall be rated in the rating category of "A" or better by at least one NRSRO. Purchase of medium term notes may not exceed 30% of the portfolio. No more than 10% of the total investments may be invested in the commercial paper and medium term notes of any single issuer.
11. Municipal securities, including obligations of the City, the State of California, and any local agency within the State of California, provided that:

- The securities are rated in a rating category of “A” or its equivalent or better by at least one NRSRO.
 - No more than 5% of the portfolio may be invested in any single issuer.
 - No more than 30% of the portfolio may be in Municipal Securities.
 - The maximum maturity does not exceed five (5) years.
12. Municipal securities (Registered Treasury Notes or Bonds) of any of the other 49 states in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the other 49 states, in addition to California.
- The securities are rated in a rating category of “A” or its equivalent or better by at least one nationally recognized statistical rating organization (“NRSRO”).
 - No more than 5% of the portfolio may be invested in any single issuer.
 - No more than 30% of the portfolio may be in Municipal Securities.
 - The maximum maturity does not exceed five (5) years.
13. Asset-backed, mortgage-backed, mortgage pass-through securities, and collateralized mortgage obligations, provided that:
- The securities are rated in a rating category of “AA” or its equivalent or better by a NRSRO.
 - No more than 20% of the total portfolio may be invested in these securities.
 - No more than 5% of the portfolio may be invested in any single Asset-Backed or Commercial Mortgage security issuer. There is no issuer limitation on any Mortgage security where the issuer is the US Treasury or a Federal Agency/GSE.
 - The maximum legal final maturity does not exceed five (5) years.
14. Supranationals, provided that:
- Issues are US dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development, International Finance Corporation, or Inter-American Development Bank.
 - The securities are rated in a rating category of “AA” or its equivalent or better by a NRSRO.
 - No more than 30% of the total portfolio may be invested in these securities.
 - No more than 10% of the portfolio may be invested in any single issuer.
 - The maximum maturity does not exceed five (5) years.

15. Various daily money market funds administered for or by trustees, paying agents and custodian banks contracted by the City of Cupertino may be purchased as allowed under State of California Government Code. Only funds holding U.S. Treasury obligations, Government agency obligations, or repurchase agreements collateralized by U.S. Treasury or Government agency obligations can be utilized and may not exceed 20% of the cost value of the portfolio.
16. Ineligible investments are those that are not described herein, including but not limited to, common stocks and long-term (over five years in maturity) notes and bonds are prohibited from use in this portfolio. It is noted that special circumstances arise that necessitate the purchase of securities beyond the five-year limitation. On such occasions, requests must be approved by City Council prior to purchase. Additionally:
- State law notwithstanding, any investments not specifically described herein are prohibited, including, but not limited to futures and options.
 - In accordance with Government Code, Section 53601.6, investment in inverse floaters, range notes, or mortgage derived interest-only strips is prohibited.
 - Investment in any security that could result in a zero-interest accrual if held to maturity is prohibited. Under a provision sunseting on January 1, 2026, securities backed by the U.S. Government that could result zero- or negative-interest accrual if held to maturity are permitted.
 - Trading securities for the sole purpose of speculating on the future direction of interest rates is prohibited.
 - Purchasing or selling securities on margin is prohibited.
 - The use of reverse repurchase agreements, securities lending or any other form of borrowing or leverage is prohibited.
 - The purchase of foreign currency denominated securities is prohibited.

RISK MANAGEMENT AND DIVERSIFICATION

Mitigating Credit Risk in the Portfolio

Credit risk is the risk that a security or a portfolio will lose some or all its value due to a real or perceived change in the ability of the issuer to repay its debt. The City will mitigate credit risk by adopting the following strategies:

The diversification requirements included in the “Authorized Investments” section of this policy are designed to mitigate credit risk in the portfolio.

- No more than 5% of the total portfolio may be deposited with or invested in securities issued by any single issuer unless otherwise specified in this policy.
- The City may elect to sell a security prior to its maturity and record a capital gain or loss in order to manage the quality, liquidity or yield of the portfolio in

response to market conditions or City's risk preferences.

- If the credit ratings of any security owned by the City are downgraded to a level below the quality required by this investment policy, it will be the City's policy to review the credit situation and make a determination as to whether to sell or retain such securities in the portfolio.
- If a security is downgraded, the Treasurer will use discretion in determining whether to sell or hold the security based on its current maturity, the economic outlook for the issuer, and other relevant factors.
- If a decision is made to retain a downgraded security in the portfolio, its presence in the portfolio will be monitored and reported monthly to the City Council.

Mitigating Market Risk in the Portfolio

Market risk is the risk that the portfolio value will fluctuate due to changes in the general level of interest rates. The City recognizes that, over time, longer-term portfolios have the potential to achieve higher returns. On the other hand, longer-term portfolios have higher volatility of return. The City will mitigate market risk by providing adequate liquidity for short-term cash needs, and by making longer-term investments only with funds that are not needed for current cash flow purposes.

The City further recognizes that certain types of securities, including variable rate securities, securities with principal paydowns prior to maturity, and securities with embedded options, will affect the market risk profile of the portfolio differently in different interest rate environments. The City, therefore, adopts the following strategies to control and mitigate its exposure to market risk:

- The City will maintain a minimum of six months of budgeted operating expenditures in short term investments to provide sufficient liquidity for expected disbursements.
- The maximum stated final maturity of individual securities in the portfolio will be five (5) years as measured from trade settlement date, except as otherwise stated in this policy.
- The duration of the portfolio will generally be approximately equal to the duration (typically, plus or minus 20%) of a Market Benchmark, an index selected by the City based on the City's investment objectives, constraints and risk tolerances.

DEPOSITS

To be eligible to receive local agency money, a bank, savings association, federal association, or federally insured industrial loan company shall have received an overall rating of not less than "satisfactory" in its most recent evaluation by the appropriate federal financial supervisory agency of its record of meeting the credit needs of California's communities.

INTEREST EARNINGS

All moneys earned and collected from investments authorized in this policy shall be allocated monthly to various fund accounts based on the cash balance in each fund as a percentage of the entire pooled portfolio.

REVIEW OF INVESTMENT PORTFOLIO

The Treasurer shall periodically, but no less than quarterly, review the portfolio to identify investments that do not comply with this investment policy and establish protocols for reporting major and critical incidences of noncompliance to the City Council.

POLICY REVIEW

The City of Cupertino's investment policy shall be adopted by resolution of the City Council on an annual basis. This investment policy shall be reviewed at least annually to ensure its consistency with the overall objectives of preservation of principal, liquidity, and yield, and its relevance to current law and financial and economic trends.

GLOSSARY OF INVESTMENT TERMS

AGENCIES. Shorthand market terminology for any obligation issued by a government-sponsored entity (GSE), or a federally related institution. Most obligations of GSEs are not guaranteed by the full faith and credit of the US government. Examples are:

FFCB. The Federal Farm Credit Bank System provides credit and liquidity in the agricultural industry. FFCB issues discount notes and bonds.

FHLB. The Federal Home Loan Bank provides credit and liquidity in the housing market. FHLB issues discount notes and bonds.

FHLMC. Like FHLB, the Federal Home Loan Mortgage Corporation provides credit and liquidity in the housing market. FHLMC, also called “FreddieMac” issues discount notes, bonds and mortgage pass-through securities.

FNMA. Like FHLB and Freddie Mac, the Federal National Mortgage Association was established to provide credit and liquidity in the housing market. FNMA, also known as “Fannie Mae,” issues discount notes, bonds and mortgage pass-through securities.

GNMA. The Government National Mortgage Association, known as “Ginnie Mae,” issues mortgage pass-through securities, which are guaranteed by the full faith and credit of the US Government.

PEFCO. The Private Export Funding Corporation assists exporters. Obligations of PEFCO are not guaranteed by the full faith and credit of the US government.

TVA. The Tennessee Valley Authority provides flood control and power and promotes development in portions of the Tennessee, Ohio, and Mississippi River valleys. TVA currently issues discount notes and bonds.

ASKED. The price at which a seller offers to sell a security.

ASSET BACKED SECURITIES. Securities supported by pools of installment loans or leases or by pools of revolving lines of credit.

AVERAGE LIFE. In mortgage-related investments, including CMOs, the average time to expected receipt of principal payments, weighted by the amount of principal expected.

BANKER’S ACCEPTANCE. A money market instrument created to facilitate international trade transactions. It is highly liquid and safe because the risk of the trade transaction is transferred to the bank which “accepts” the obligation to pay the investor.

BENCHMARK. A comparison security or portfolio. A performance benchmark is a partial market index, which reflects the mix of securities allowed under a specific investment policy.

BID. The price at which a buyer offers to buy a security.

BROKER. A broker brings buyers and sellers together for a transaction for which the broker receives a commission. A broker does not sell securities from his own position.

CALLABLE. A callable security gives the issuer the option to call it from the investor prior to its maturity. The main cause of a call is a decline in interest rates. If interest rates decline since an issuer issues securities, it will likely call its current securities and reissue them at a lower rate of interest. Callable securities have reinvestment risk as the investor may receive its principal back when interest rates are lower than when the investment was initially made.

CERTIFICATE OF DEPOSIT (CD). A time deposit with a specific maturity evidenced by a certificate. Large denomination CDs may be marketable.

CERTIFICATE OF DEPOSIT ACCOUNT REGISTRY SYSTEM (CDARS). A private placement service that allows local agencies to purchase more than \$250,000 in CDs from a single financial institution (must be a participating institution of CDARS) while still maintaining FDIC insurance coverage. CDARS is currently the only entity providing this service. CDARS facilitates the trading of deposits between the California institution and other participating institutions in amounts that are less than \$250,000 each, so that FDIC coverage is maintained.

COLLATERAL. Securities or cash pledged by a borrower to secure repayment of a loan or repurchase agreement. Also, securities pledged by a financial institution to secure deposits of public monies.

COLLATERALIZED MORTGAGE OBLIGATIONS (CMO). Classes of bonds that redistribute the cash flows of mortgage securities (and whole loans) to create securities that have different levels of prepayment risk, as compared to the underlying mortgage securities.

COMMERCIAL PAPER. The short-term unsecured debt of corporations.

COST YIELD. The annual income from an investment divided by the purchase cost. Because it does not give effect to premiums and discounts which may have been included in the purchase cost, it is an incomplete measure of return.

COUPON. The rate of return at which interest is paid on a bond.

CREDIT RISK. The risk that principal and/or interest on an investment will not be paid in a timely manner due to changes in the condition of the issuer.

CURRENT YIELD. The annual income from an investment divided by the current market value. Since the mathematical calculation relies on the current market value rather than the investor's cost, current yield is unrelated to the actual return the investor will earn if the security is held to maturity.

DEALER. A dealer acts as a principal in security transactions, selling securities from and buying securities for his own position.

DEBENTURE. A bond secured only by the general credit of the issuer.

DELIVERY VS. PAYMENT (DVP). A securities industry procedure whereby payment for a security must be made at the time the security is delivered to the purchaser's agent.

DERIVATIVE. Any security that has principal and/or interest payments which are subject to uncertainty (but not for reasons of default or credit risk) as to timing and/or amount, or any security which represents a component of another security which has been separated from other components ("Stripped" coupons and principal). A derivative is also defined as a financial instrument the value of which is totally or partially derived from the value of another instrument, interest rate, or index.

DISCOUNT. The difference between the par value of a bond and the cost of the bond, when the cost is below par. Some short-term securities, such as T-bills and banker's acceptances, are known as discount securities. They sell at a discount from par, and return the par value to the investor at maturity without additional interest. Other securities, which have fixed coupons, trade at a discount when the coupon rate is lower than the current market rate for securities of that maturity and/or quality.

DIVERSIFICATION. Dividing investment funds among a variety of investments to avoid excessive exposure to any one source of risk.

DURATION. The weighted average time to maturity of a bond where the weights are the present values of the future cash flows. Duration measures the price sensitivity of a bond to changes in interest rates. (See modified duration).

FEDERAL FUNDS RATE. The rate of interest charged by banks for short-term loans to other banks. The Federal Reserve Bank through open-market operations establishes it.

FEDERAL OPEN MARKET COMMITTEE. A committee of the Federal Reserve Board that establishes monetary policy and executes it through temporary and permanent changes to the supply of bank reserves.

LEVERAGE. Borrowing funds in order to invest in securities that have the potential to pay earnings at a rate higher than the cost of borrowing.

LIQUIDITY. The speed and ease with which an asset can be converted to cash.

LOCAL AGENCY INVESTMENT FUND (LAIF). A voluntary investment fund open to government entities and certain non-profit organizations in California that is managed by the State Treasurer's Office.

LOCAL GOVERNMENT INVESTMENT POOL. Investment pools that range from the State Treasurer's Office Local Agency Investment Fund (LAIF) to county pools, to Joint Powers Authorities (JPAs). These funds are not subject to the same SEC rules applicable to money market mutual funds.

MAKE WHOLE CALL. A type of call provision on a bond that allows the issuer to pay off the remaining debt early. Unlike a call option, with a make whole call provision, the issuer makes a

lump sum payment that equals the net present value (NPV) of future coupon payments that will not be paid because of the call. With this type of call, an investor is compensated, or "made whole."

MARGIN. The difference between the market value of a security and the loan a broker makes using that security as collateral.

MARKET RISK. The risk that the value of securities will fluctuate with changes in overall market conditions or interest rates.

MARKET VALUE. The price at which a security can be traded.

MARKING TO MARKET. The process of posting current market values for securities in a portfolio.

MATURITY. The final date upon which the principal of a security becomes due and payable.

MEDIUM TERM NOTES. Unsecured, investment-grade senior debt securities of major corporations which are sold in relatively small amounts on either a continuous or an intermittent basis. MTNs are highly flexible debt instruments that can be structured to respond to market opportunities or to investor preferences.

MODIFIED DURATION. The percent change in price for a 100 basis point change in yields. Modified duration is the best single measure of a portfolio's or security's exposure to market risk.

MONEY MARKET. The market in which short-term debt instruments (T-bills, discount notes, commercial paper, and banker's acceptances) are issued and traded.

MORTGAGE PASS-THROUGH SECURITIES. A securitized participation in the interest and principal cash flows from a specified pool of mortgages. Principal and interest payments made on the mortgages are passed through to the holder of the security.

MUNICIPAL SECURITIES. Securities issued by state and local agencies to finance capital and operating expenses.

MUTUAL FUND. An entity which pools the funds of investors and invests those funds in a set of securities which is specifically defined in the fund's prospectus. Mutual funds can be invested in various types of domestic and/or international stocks, bonds, and money market instruments, as set forth in the individual fund's prospectus. For most large, institutional investors, the costs associated with investing in mutual funds are higher than the investor can obtain through an individually managed portfolio.

NATIONALLY RECOGNIZED STATISTICAL RATING ORGANIZATION (NRSRO).

A credit rating agency that the Securities and Exchange Commission in the United States uses for regulatory purposes. Credit rating agencies provide assessments of an investment's risk. The issuers of investments, especially debt securities, pay credit rating agencies to provide them with ratings. The three most prominent NRSROs are Fitch, S&P, and Moody's.

NEGOTIABLE CD. A short-term debt instrument that pays interest and is issued by a bank, savings or federal association, state or federal credit union, or state-licensed branch of a foreign bank. Negotiable CDs are traded in a secondary market and are payable upon order to the bearer or initial depositor (investor).

PREMIUM. The difference between the par value of a bond and the cost of the bond, when the cost is above par.

PREPAYMENT SPEED. A measure of how quickly principal is repaid to investors in mortgage securities.

PREPAYMENT WINDOW. The time period over which principal repayments will be received on mortgage securities at a specified prepayment speed.

PRIMARY DEALER. A financial institution (1) that is a trading counterparty with the Federal Reserve in its execution of market operations to carry out U.S. monetary policy, and (2) that participates for statistical reporting purposes in compiling data on activity in the U.S. Government securities market.

PRUDENT PERSON (PRUDENT INVESTOR) RULE. A standard of responsibility which applies to fiduciaries. In California, the rule is stated as "Investments shall be managed with the care, skill, prudence and diligence, under the circumstances then prevailing, that a prudent person, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of like character and with like aims to accomplish similar purposes."

REALIZED YIELD. The change in value of the portfolio due to interest received and interest earned and realized gains and losses. It does not give effect to changes in market value on securities, which have not been sold from the portfolio.

REGIONAL DEALER. A financial intermediary that buys and sells securities for the benefit of its customers without maintaining substantial inventories of securities and that is not a primary dealer.

REPURCHASE AGREEMENT. Short-term purchases of securities with a simultaneous agreement to sell the securities back at a higher price. From the seller's point of view, the same transaction is a reverse repurchase agreement.

SAFEKEEPING. A service to bank customers whereby securities are held by the bank in the customer's name.

STRUCTURED NOTE. A complex, fixed income instrument, which pays interest, based on a formula tied to other interest rates, commodities or indices. Examples include inverse floating rate notes which have coupons that increase when other interest rates are falling, and which fall when other interest rates are rising, and "dual index floaters," which pay interest based on the relationship between two other interest rates - for example, the yield on the ten-year Treasury note minus the Libor rate. Issuers of such notes lock in a reduced cost of borrowing by purchasing interest rate swap agreements.

SUPRANATIONAL. A Supranational is a multi-national organization whereby member states transcend national boundaries or interests to share in the decision making to promote economic development in the member countries.

TOTAL RATE OF RETURN. A measure of a portfolio's performance over time. It is the internal rate of return, which equates the beginning value of the portfolio with the ending value; it includes interest earnings, realized and unrealized gains, and losses in the portfolio.

U.S. TREASURY OBLIGATIONS. Securities issued by the U.S. Treasury and backed by the full faith and credit of the United States. Treasuries are considered to have no credit risk, and are the benchmark for interest rates on all other securities in the US and overseas. The Treasury issues both discounted securities and fixed coupon notes and bonds.

TREASURY BILLS. All securities issued with initial maturities of one year or less are issued as discounted instruments, and are called Treasury bills. The Treasury currently issues three- and six-month T-bills at regular weekly auctions. It also issues "cash management" bills as needed to smooth out cash flows.

TREASURY NOTES. All securities issued with initial maturities of two to ten years are called Treasury notes, and pay interest semi-annually.

TREASURY BONDS. All securities issued with initial maturities greater than ten years are called Treasury bonds. Like Treasury notes, they pay interest semi-annually.

VOLATILITY. The rate at which security prices change with changes in general economic conditions or the general level of interest rates.

YIELD TO MATURITY. The annualized internal rate of return on an investment which equates the expected cash flows from the investment to its cost.

Revisions:

April 18th, 2024

Ms. Kristina Alfaro
Director of Administrative Services
City of Cupertino

Dear Kristina,

The Chandler Team has completed our review of City of Cupertino's investment policy. Our review of the policy focused on compliance with the statutes of California Government Code (Code) that govern the investment of public funds, as well as on inclusion of current best practices. There were changes to Code for 2024, but the changes involve practices that the City already follows. No changes to the policy are needed for this year. The City's policy continues to be effective as written.

Please do not hesitate to contact us with any questions you may have, or if further review is needed.

Sincerely,

Carlos Oblites
Senior Portfolio Strategist
Chandler Asset Management

Kristina Alfaro, Administrative Service Department Director

Subject: Preparation Update on the Annual Comprehensive Financial Report (ACFR) for Fiscal Year Ending on June 30, 2023

Introduction

Pursuant to the Professional Services Agreement approved by the City Council on June 21, 2023, The Pun Group, LLP was contracted to provide auditing services for the City of Cupertino, including the ACFR, a Single Audit, and various Agreed Upon Procedures (AUP). This memorandum outlines the factors that contributed to the delay in the audit process in completing the ACFR for the fiscal year ending June 30, 2023.

Annual Comprehensive Financial Report (ACFR)

The ACFR is a comprehensive report detailing the City's financial activities over a specific period (the City's fiscal year is from July to June). To complete the ACFR, the City must provide accurate financial records, cooperate with the auditor, and maintain internal controls. Meanwhile, the auditor conducts an independent audit of the financial records, ensures compliance with accounting standards, and provides an audit opinion.

Audit Commencement:

The Planning and Risk Assessment phases began in August 2023, approximately 3 months after what is typical and can be attributed to the later contract execution date. This initial stage is crucial for setting the scope and objectives of the audit.

Key Factors Contributing to Audit Delay

1. Implementation of Governmental Accounting Standard Board (GASB) Statement No. 96:

The City was mandated to implement GASB Statement No. 96, related to Subscription-Based Information Technology Arrangements, during this audit period. The requirements for this new standard necessitated significant adjustments in the City's accounting and reporting processes, impacting the audit timeline. This implementation affects every city differently, with Cupertino experiencing greater difficulty than others with City's Finance Manager coming on board late, which delayed staff coordination and the compilation of necessary documents for review, as well as the calculation of complex financial adjustments.

2. First-Year Audit Adjustments:

As this fiscal year marks the commencement of our audit relationship with the City, additional time was essential to thoroughly understand the City's control and operational environment. This foundational understanding is critical to ensure the accuracy and completeness of the audit.

3. Complex Financial Transactions:

Several specific transactions required in-depth discussion and analysis, leading to varied interpretations that further complicated the audit process. Notable discussions included:

- The probable reallocation of sales and use tax revenue as per Revenue and Taxation Code section 7209.
- Accruals related to loan receivable interests.
- Unavailable revenue recorded for the loan receivable related balances.
- Recognition of grant revenues.
- Evaluations concerning claims payable.
- Accounting treatments under new GASB pronouncements.

Conclusion

The combination of implementing new accounting standards and the inherent complexities of initiating a first-year audit relationship have collectively contributed to the delay of the FY2023 audit. We are actively addressing these challenges and working closely with management to expedite the completion of the audit as soon as possible.

We are also implementing measures to streamline the audit process for the subsequent year (FY 2023-24) annual audit and the ACFR preparation, beginning with commencing the audit process three months earlier with a desired November/December 2024 completion date with the collaboration between the City and the auditors.

We appreciate your attention to these matters and please free feel to reach out if you have any questions or concerns.
