Dear Captain Rich Urena:

As residents of the city of Cupertino for almost forty years and your constituents, my wife Marianne and I ask that you oppose the draft ordinance that seeks to amend the City's municipal code as it relates to firearms.

We believe this draft ordinance constitutes an unnecessary burden on law-abiding citizens. I would respectfully request that the Public Safety Commission focus their efforts on deterring the recent rash of "smash and grab" car burglaries in this city. Needless to say, these are crimes committed without the use of firearms.

Over the years California has made its firearm laws stricter and stricter under the guise of safety and reducing gun violence. Those laws have yet to make California safer and similarly will not make the city of Cupertino safer.

There is an all out war on law abiding gun owners in this state that goes against our rights to keep & bear arms. No matter what you think you can do to stop criminals, you cant. There's not always a cop with a gun around when criminals strike. But it would seem our politicians as of late don't care about the rest of us. Or they would have included themselves to obey cal gun laws. But they didn't & they got you'all in LE active or retired a pass on that too. So now people like you and the politicians have more rights than some of our best citizens & veterans. The police get there after shits gone down & usually the victim is the non agressor innocent party. You watch this state go to hell with all these laws. It'll be Chicago in no time.
