SS #1

1. Thank you for this opportunity to speak our concerns of building AT&T antenna at Cupertino Sports Center.
2. Concern about the exposure of RF emission for long term effect, especially younger children.
3. Concerns about noise level from the generator.
4. 94 people signed the petition and expressed their health concerns.
5. AT&T antenna covers De Anza College where is heavy trafficked area for the network.
6. All of us strongly request Councilmember and Planning Division to reconsider to move the antenna location from residential area to De Anza College. Please negotiate with De Anza College.

Thank you very much
