I never received a response on this.

Please add this to the items available to the public for Item 6 introduced during the meeting. I agree that staff should be more responsive and provide more complete information to Council and the public with respect to the decision-making process.

These are the photos I took of Braly Park in Sunnyvale this past weekend.
Pursuant to the item on the all-inclusive park, I'm wondering what their budget was for this playground, which they recently updated. Thanks
