Planning Commission Chair, Vice Chair, and Commission Members,

I would first like to remind you that there has been Commission discussion and public requests related to agendizing a study session of sorts for the purpose of reevaluating the current municipal code language and intent tied to residential balconies and residential privacy screening (landscaping), including, but not limited to, shrub/tree selection list.

Please make it clear to the public when this will happen. It has been stated by at least one sitting commissioner that this is long overdue.

Secondly, there is a post card sent by KT Urban/Westport, not by the city, last week. The cards were not city wide and were not addressed with location, only CURRENT RESIDENT - nothing else. It is unknown who actually received them, or why.

The original 'schedule' for reviewing the Westport project was ERC April 16, PC May 12, and CC June 2.

The ERC meeting occurred on schedule 4/16/20 with essentially the summary info that was provided on city wide post card notice that provided the tentative public hearing schedule. Planning Commission agenda of May 12 did include public hearing on the subject, BUT the project had changed from what was presented on April 16 to ERC. There was chatter that after May 12 PC, the project was changing again. No details were made public, but it was clear to me that the item should 'go back' to Planning Commission (however changed) before the project could be agendized on City Council calendar.

There have been no further public meetings beyond May 12 PC. There is no indication on the city website that the plans have changed, or how they have changed (as of today 6/15/20).

However, there is the KT Urban/Westport postcard that is asking for 'What (certain residents) Think' and a website supplied that has no information beyond what is on one side of a postcard other than links to 'press' items, some of which are behind pay walls, and at least one that contains

inaccurate information.

The website also contains some architectural images.

There is no publicly known updated schedule of hearings. I certainly hope that the right thing will be done and that whatever this new plan is, goes first to Planning Commission with adequate noticing , at the very least.

Thank you,
Lisa Warren
