Discussion

Background

California Government Code Section 41004 states:

Regularly, at least once each month, the city treasurer shall submit to the city clerk a written report and accounting of all receipts, disbursements, and fund balances. The city treasurer shall file a copy with the legislative body.

The City's Municipal Code Section 2.24.030 Monthly Reports states:

The Treasurer shall make monthly reports which conform to the requirements of Government Code Section 41004. Said reports shall be delivered to the City Council, the City Manager and made available for review by such other persons who may so request.

Lastly, the City's Municipal Code Section 2.88.100 Duties–Powers–Responsibilities lists one of the powers and functions of the Audit Committee is "to review the monthly Treasurer's report."

Per the referenced code provisions, a Treasurer's Report (report and accounting of all receipts, disbursements, and fund balances) shall be submitted to the Audit Committee and City Council every month. Staff have previously included accounts payable reports with the treasurers reports following recommendation by a subcommittee and approval by council. These reports are not required under government code section 41004. Treasurers Reports were emailed to City Council and Audit Committee members to comply with the reporting requirement of 41004. Audit Committee will review the accounts payable reports for November and December at their January meeting.

Cash vs. Accrual Basis Accounting

Cash and accrual basis accounting differ in the timing when revenues and expenses are recognized and recorded. Cash basis accounting recognizes revenues when payment is received and expenses when payment is paid. Accrual basis accounting recognizes revenues when they are earned (but not necessarily received) and expenses when they are incurred (but not necessarily paid).

Receipts, disbursements, and cash balance are measured on a cash basis. The cash balance shows the total cash and investments in the City's accounts. The ending balance is the beginning balance plus receipts minus disbursements. Journal adjustments generally include transactions recorded in other systems and imported into New World, Council-approved budget adjustments, quarterly Cost Allocation Plan (CAP) charges, and quarterly interest earnings.

Revenues, expenditures, and fund balance are measured on an accrual basis. As a result, the amount in fund balance does not mean the City has that much cash on hand. Instead, fund balance is the difference between assets and liabilities. The ending balance is the beginning balance plus revenues minus expenditures.

Treasurer's Report

The report provides an update on the City's cash and fund balances for October 2022. The report is as of November 21, 2022.
