

Attachment A

Pavement Condition Value	Street Condition
80-100 (Very Good–Excellent)	New pavement with few signs of distress.
70-79 (Good)	Pavement showing only low levels of distress.
60-69 (Fair)	Pavement that may require a combination of rehabilitation and preventive maintenance.
50-59 (At Risk)	Deteriorated pavement requiring immediate attention.
25-49 (Poor)	Pavement showing extensive distress and requiring major rehabilitation or reconstruction.
0-24 (Failed)	Extremely rough pavement that needs complete reconstruction.
