A Friendship Cities Designation is an established relationship between the City of Cupertino and a partnering international organization that is mutually beneficial. A Cupertino & Taichung Friendship City Proposal

The Cupertino & Taichung Friendship City Committee is a volunteer group consisting of hundreds of citizens from but not limited to the Bay Area. Our committee is also currently a branch committee from Taiwanese Cultural and Sports Association. TCSA is a non-profit organization to promote:

1. Taiwanese culture and enhance the inter-culture exchange between Taiwan, United States of America and other international countries.
2. Peace through people to people relationships, which is supplemented by cultural exchange programs, shared research, and development projects between cities.
3. Encourage young Taiwanese Americans to get involved in cultural and sports activities and strengthen the coordinating function for Taiwanese communities with other communities.
4. Provide entertainment, educational and voluntary events for the purposes of culture exchanges such as festival and sports events.

As one of the largest family-oriented events in the San Francisco Bay Area, Kids'n Fun Festival hosts a consortium of performers with international children songs and dances, cultural exhibits with games and activities and a diverse selection of ethnic delicacies. Our objective is to foster a more peaceful community through culture awareness and appreciation to achieve greater cultural understanding, ethnic diversity, and international cognizance.

Over the years, since our organization has formed, we have established a strong relationship with the officials of Taichung and it's people. Since then, they have given us much support and helped with the event of Kids'n Fun Festival activities. This event takes place at Memorial Park, Cupertino. This year, Taichung City sent about 40

children from Taiwan coming from Chung-Ho Elementary School and Taichung Situn Elementary School to perform Taiwanese Folk Opera at the festival.

Our committee has hosted and served as a bridge between the City of Cupertino and Taichung City to support our communities overseas exchanges from Taichung's culture

is not only important to the locals there but is also meant to be shared. Taichung offers many education opportunities because of its focus on technology and development. We see the similarities in these two great cities. And we would love to see a new friendship built between the two cities.

In many ways, Taichung mirrors Cupertino in providing the community with top notch education, a greener approach to living, and a space for creative innovation – we are home to tech giants Apple, Seagate, and even have a subsidiary of Amazon – Lab 126. Like Taichung, Cupertino is also in the process of great urban developments – for example we have Main Street Cupertino and Taichung has Greater Taichung 123. This is our opportunity to give back to our community through new experiences, new partnerships and prepare our future generations for further success.

Let's connect these two cities to further deepen our roots within the community! For the past few years, Taichung City has been named among Asia's most livable cities and is currently the most livable city in Taiwan according to CNN U.S. Taichung City has a big role in the economy, arts, culture, and transportation. Its climate, which is similar to Cupertino's, is pleasant all year round. The government of Taichung City also plans to develop Taichung into a green garden city. For the arts and culture, Taichung is Taiwan's cultural center. The National Taiwan Museum of Fine Arts shows paintings and art works from Taiwanese artists. The National Taichung Theater, a newly opened opera house with a very unique design, hosts many performing arts events and invites artists worldwide to perform. You can see the very unique design of the theater.

Because of its many resources, Taichung has 23 sister cities globally and it welcomes more. Taichung and Cupertino are alike in many ways.

Benefits and Measurable Results

Youth and Education

We provide kids with the experience of traveling abroad. It is important that they learn what it is like to be a guest, not a tourist. This helps them better learn about the cultural values and differences. We offer both short and long term activities and events. Studying abroad isn't only limited to children, but are also available to high school and college students as well. Studying abroad is often described as life changing and many current leaders in diplomacy can trace their interest to studying abroad.

Arts and Culture

Art and Culture programs are an age old staple in the relationships between cities. They allow people to experience and explore the independent cultures of different places, this enables them to gain insight into the history, values, and artistic side of other cultures. Our cultural exchange events can range between musical performances to art exhibits to international culture festivals.

Business and Trade

Business and Trade is the life blood of a city, through our city relationships we can help create connections between international municipal officials and businesses. These connections help build trust, access, and expertise which will lead to new and exciting opportunities. From access to new markets, navigating through import/export regulations or new partners, the possibilities are endless.

Community Development

Through our programs, we have helped cities implement new policies and techniques in sanitation, health, transport, tourism, economic development, and education. Our programs also help raise fund or collect supplies for any natural disaster or emergency that may plague our sister cities. Many other development projects have been done, including renovation of clinics, well building, and training medical personnel's.
