

Attachment I - Items that Remain in Progress with Valley Water

- 1) Proposed retaining curb along South Blaney to East Estates Drive recommended to be built along the property line.
- 2) Valley Water prefers drainage to be sloped away from the creek.
- 3) A portion of the existing chain link fence along Cupertino Civic Center to Rodrigues Avenue resides within a Valley Water easement.
- 4) Trailhead features should not impede maintenance vehicle access.
- 5) Proposed water pollution control measures.
- 6) Location and structural aspects of the bridge.
- 7) Bridge replacement and removal plan.
- 8) Land swap locations to be determined based on the City's calculation of impacted Valley Water right-of-way area.
- 9) Proposed improvements if the unpaved trail is implemented.
- 10) Fencing treatments along the De Palma Lane and Lozano Lane properties.
- 11) Details of the proposed/relocation of maintenance ramp.
- 12) Joint use agreement.
- 13) Potential improvements within Valley Water land at De Palma/Lozano to address impacts to adjacent property owners concerns regarding privacy and security.
