Attachment A

Pavement Condition Value	Street Condition
80-100 (Very Good–Excellent)	New pavement with few signs of
	distress.
70-79 (Good)	Pavement showing only low levels of
	distress.
60-69 (Fair)	Pavement that may require a
	combination of rehabilitation and
	preventive maintenance.
50-59 (At Risk)	Deteriorated pavement requiring
	immediate attention.
25-49 (Poor)	Pavement showing extensive distress and
	requiring major rehabilitation or
	reconstruction.
0-24 (Failed)	Extremely rough pavement that needs
	complete reconstruction.
