

Graywater Laundry to Landscape Rebate Program

The Santa Clara Valley Water District provides a Graywater* Laundry to Landscape rebate of \$200 per single-family residential site for properly connecting a clothes washer to a graywater irrigation system based on the completion of the [program requirements](#). The district has another potential program to promote graywater systems for commercial, industrial, and institutional properties: the district's [Custom and Measured Rebate Program](#).

For more information, please call (408) 630-2554, email conservation@valleywater.org, or review the links below. Please be sure to review program requirements and apply *before* proceeding on any project as rebates are not provided retroactively.
