CITY COUNCIL STAFF REPORT

Meeting: August 1, 2017

Subject

2017 Pavement Maintenance Project Phase 3, City Project No. 2017-111.

Recommended Action

Authorize the City Manager to award a contract to O'Grady Paving, Inc., in the amount of \$2,250,943.75; and approve a construction contingency of \$249,056.25 for a total of \$2,500,000.

Discussion

On June 27, 2017, the City received bids for the 2017 Pavement Maintenance Project Phase 3. This project will complete a rubberized asphalt overlay on Stevens Creek & De Anza Boulevards. The limit of work on Stevens Creek Boulevard is from Wolfe Road to the Santa Clara limits; work on De Anza Boulevard starts from Stevens Creek Boulevard south to Bollinger Road and then from Highway 85 south to Prospect Road. Work is expected to start in September.

The rubberized asphalt material to be used on this project contains recycled tire rubber. Compared to conventional asphalt, this product is environmentally preferred due to its superior structural qualities that allow less of the material to be applied, its durability and ability to resist cracking, and its effectiveness in reducing vehicle noise pollution. For each lane mile of asphalt rubber, approximately 2,000 tires are recycled—which equates to 26,080 tires being diverted from a landfill because of this project.

A total of 4 companies submitted bid packages for this project. The following is a summary of bids deemed complete:

Bidder	Bid Amount
Engineers Estimate	\$2,300,000
O'Grady Paving	2,250,943.75
G. Bortolotto Co.	2,429,397.39
Interstate Grading & Paving	2,447,348.00
Granite Rock	2,719,002.95

Fiscal Impact

Award of the project will result in a fiscal impact of up to \$2,500,000. Sufficient funds have been budgeted and are available from account #270-85-821-900-921 (Pavement Maintenance).
