Subject: Fwd: Obstructions at library (Library Commission agenda item request)
Date: Thursday, July 27, 2017 6:16:30 AM

Hi Kevin,

I haven't seen the bicycle maintenance tools at Library Plaza yet myself, but I have received the following complaint about their placement. Specifically, that they are placed in a common pathway and present a tripping hazard for kids and distracted adults.

Please add the placement of the bicycle maintenance tools to the agenda for the August 2nd Library Commission meeting.

Thank you,

Liana Crabtree

Subject: Obstructions at library

[Redacted, Privacy],

I feel these bicycle repair stuff is planted to dissuade (community organizations) from setting up tents near library. This is a trip Hazard for kids. My main concern is running kids tripping on the horizontal rod. Also Many people (With phone & Chatting) may bump into these pillars. [Redacted, Privacy].

Anil
