

GENERAL PLAN ADMINISTRATION AND IMPLEMENTATION

If the City's General Plan is to serve its purpose effectively, it must be reviewed, maintained, and implemented in a systematic and consistent manner. Implementation of the General Plan will occur through participation by a number of parties including residents, elected and appointed City officials, City staff, and City partners (e.g., Santa Clara County Sheriff and Fire). This document provides direction on how the City will implement and maintain the General Plan and sets out specific actions the City will undertake to achieve the goals and policies of the General Plan.

It includes a summary of implementation programs for the General Plan followed by tables that list specific implementation programs, organized by the topics addressed in the General Plan Elements.

Specific Implementation Programs

Specific implementation programs are listed in the following tables. Each implementation program is a description of which policy(ies) the program implements, which City department(s) is responsible for implementation, and which department(s) will support the responsible department(s).

Each program also identifies a potential funding source for the program. This is intended only to inform the City budgeting process. It does not commit funding to a program for a given timeframe. The City will determine as part of the annual budget process which programs will be funded based on available City resources and needs. Finally, to the right of each program is a timeline that identifies when the implementation will be completed.

The implementation program tables are organized as follows:

- Table GPA: General Plan Administration Implementation Programs
- Table LU: Land Use and Community Design
- Table H: Housing
- Table M: Mobility
- Table ES: Environmental Resources and Sustainability
- Table HS: Health and Safety
- Table INF: Infrastructure
- Table RPC: Recreation, Parks and Community Service

7. Commercial and Residential Uses. Review the placement of commercial and residential uses based on the following criteria: 1. All mixed-use areas with commercial zoning will require retail as a substantial component. The North De Anza Special Area is an exception. 2. All mixed-use residential projects should be designed on the “mixed-use village” concept discussed earlier in this Element. 3. On sites with a mixed-use residential designation, residential is a permitted use only on Housing Element sites and in the Monta Vista Village Special Area. 4. Conditional use permits will be required on mixed-use Housing Element sites that propose units above the allocation in the Housing Element, and on non-Housing Element mixed-use sites.

8. Public and Quasi-Public Uses. Review the placement of public and quasi-public activities in limited areas in mixed-use commercial and office zones when the following criteria are met: 1. The proposed use is generally in keeping with the goals for the Planning Area, has similar patterns of traffic, population or circulation of uses with the area and does not disrupt the operation of existing uses. 2. The building form is similar to buildings in the area (commercial or office forms). In commercial areas, the building should maintain a commercial interface by providing retail activity, storefront appearance or other design considerations in keeping with the goals of the Planning Area.						✓

Responsible Department(s)	Community Development – Planning						
Supporting Department(s)/ Partner(s)							
Funding Source(s)	General Fund, Development Fees						
23. Strategy LU-3.3.7. Street Interface. Ensure development enhances pedestrian activity by providing active uses within mixed-use areas and appropriate design features within residential areas along a majority of the building frontage facing the street. Mixed-use development should include retail, restaurant, outdoor dining, main entries, etc. Residential development should include main entrances, lobbies, front stoops and porches, open space and other similar features.

29. Street Trees and Landscaping. Ensure that tree planting and landscaping along streets visually enhances the streetscape and is consistent for the vision for each Planning Area (Special Areas and Neighborhoods): <ol style="list-style-type: none"> 1. Maximize street tree planting along arterial street frontages between buildings and/or parking lots. 2. Provide enhanced landscaping at the corners of all arterial intersections. 3. Enhance major arterials and connectors with landscaped medians to enhance their visual character and serve as traffic calming devices. 4. Develop uniform tree planting plans for arterials, connectors and neighborhood streets consistent with the vision for the Planning Area. 5. Landscape urban areas with formal planting arrangements. 6. Provide a transition to rural and semi-rural areas in the City, generally west of Highway 85. 						✓

128. Strategy LU–19.1.4. Land Use. The following uses are allowed on the site (see Figure LU–2 for residential densities and criteria):							
1. Retail: High-performing retail, restaurant and entertainment uses. Maintain a minimum of 600,000 square feet of retail that provide a good source of sales tax for the City. Entertainment uses may be included but shall consist of no more than 30 percent of retail uses.							
2. Hotel: Encourage a business class hotel with conference center and active uses including main entrances, lobbies, retail and restaurants on the ground floor.							
3. Residential: Allow residentail on upper floors with retail and active uses on the ground floor. Encourage a mix of units for young professionals, couples and/or active seniors who like to live in an active “town center” environment.						✓	
4. Office: Encourage high-quality office space arranged in a pedestrian-oriented street grid with active uses on the ground floor, publicly-accessible streets and plazas/green space.

<p>207. Strategy HE – 1.3.1. Land Use Policy and Zoning Provisions. To accommodate the Regional Housing Needs Allocation (RHNA), the City will continue to:</p> <ul style="list-style-type: none"> • Provide adequate capacity through the Land Use Element and Zoning Ordinance to accommodate the RHNA of 1,064 units while maintaining a balanced land use plan that offers opportunities for employment growth, commercial/retail activities, services and amenities. • Monitor development standards to ensure they are adequate and appropriate to facilitate a range of housing in the community. • Monitor the sites inventory and make it available on the City website. • Monitor development activity on the Housing Opportunity Sites to ensure that the City maintains sufficient land to accommodate the RHNA during the planning period. In the event a housing site listed in the Housing Element sites inventory is redevelopment with a non–residential use or at a lower density than shown in the Housing Element sites inventory, ensure that the City has adequate capacity to meet the RHNA by making the findings required by Government Code Section 65863 and identifying alternative site(s) within the City if needed. • Priority Housing Sites: As part of the Housing Element update, the City has identified five priority sites under Scenario A (see Table HE–5) for residential development over the next eight years. The General Plan and zoning designations allow the densities shown in Table HE–5 for all sites except the Vallco Shopping District will involve significant planning and community input. A specific plan will be required to implement a comprehensive strategy for a retail/office/residential mixed use development. The project applicant would be required to work closely with the community and the City to bring forth a specific plan that meets the community’s needs, with the anticipated adoption and rezoning to occur within three years of the adoption of the 2014–2022 Housing Element (by May 31, 2018). The specific plan would permit 389 units by right at a minimum density of 20 units per acre. If the specific plan and rezoning are not adopted within three years of Housing Element adoption (by May 31, 2018), the City will schedule hearings consistent with Govt. Code Section 65863 to consider removing Vallco as a priority housing site under Scenario A, to be replaced by sites identified in Scenario B (see detailed discussion and sites listing of “Scenario B” in Appendix B – Housing Element Technical Appendix). As part of the adoption of Scenario B, the City intends to add two additional sites to the inventory: Glenbrook Apartments and Homestead Lanes, along with increased number of permitted units on The Hamptons and The Oaks sites. Applicable zoning is in place for Glenbrook Apartments and Homestead Lanes site would need to be rezoned at that time to permit residential uses. <p>216. Strategy HE – 2.3.2. Residential Housing Mitigation Program. The City will continue to implement the Residential Housing Mitigation Program to mitigate the need for affordable housing created by new market–rate residential development. This program applies to new residential development. Mitigation includes either the payment of the “Housing Mitigation” fee or the provision of a Below Market–Rate (BMR) unit or units. Projects of seven or more for–sale units must provide on–site BMR units. Projects of six units or fewer for–sale units can either build one BMR unit or pay the Housing Mitigation fee. Developers of market–rate rental units, where the units cannot be sold individually, must pay the Housing Mitigation fee to the BMR AHF. The BMR program specifies the following:</p> <p>a. Priority. To the extent permitted by law, priority for occupancy is given to Cupertino residents, Cupertino full–time employees, and Cupertino public service employees as defined in Cupertino’s Residential Housing Mitigation Manual.</p> <p>b. For–Sale Residential Developments. Require 15% for–sale BMR units in all residential developments where the units can be sold individually (including single–family homes, common interest developments, and condominium conversions or allow rental BMR units as allowed in (d) below).</p> <p>c. Rental Residential Developments. To the extent permitted by law, require 15% rental very low and low–income BMR units in all rental residential developments. If the City is not permitted by law to require BMR units in rental residential developments, require payment of the Housing Mitigation Fee.</p> <p>d. Rental Alternative. Allow rental BMR units in for–sale residential developments, and allow developers of market–rate rental developments to provide on–site rental BMR units. If the developer: 1) enters into an agreement limiting rents in exchange for a financial contribution or a type of assistance specified in density bonus law (which includes a variety of regulatory relief); and 2) provides very low–income and low–income BMR rental units.</p> <p>e. Affordable Prices and Rents. Establish guidelines for affordable sales prices and affordable rents for new affordable housing and update the guidelines each year as new income guidelines are received.</p> <p>f. Development of BMR Units Off Site. Allow developers to meet all or a portion of their BMR or Housing Mitigation fee requirement by making land available for the City or a nonprofit housing developer to construct affordable housing, or allow developers to construct the required BMR units off site, in partnership with a nonprofit. The criteria for land donation or off–site BMR units (or combination of the two options) will be identified in the Residential Housing Mitigation Manual.</p> <p>g. BMR Term. Require BMR units to remain affordable for a minimum of 99 years; and enforce the City’s first right of refusal for BMR units and other means to ensure that BMR units remain affordable.</p>								✓

228. Strategy HE – 3.3.2. Preservation of At–Risk Housing Units. One housing project – Beardon Drive (eight units) – is considered at risk of converting to market–rate housing during the next ten years. The City will proactively contact the property owner regarding its intent to remain or opt out of the affordable program. In the event, the project becomes a risk of converting to market–rate housing, the City will work with the property owner or other interested non–profit housing providers to preserve the units. The City will also conduct outreach to the tenants to provide information on any potential conversion and available affordable housing assistance programs. The City will continue to monitor its entire portfolio of affordable housing for–sale and rental inventory annually. The City will monitor its affordable for–sale inventory by ordering title company lot books, reviewing property profile reports and updating its public database annually. The City will monitor its affordable rental income certifications for each BMR tenant. The City records a Resale Restriction Agreement against each affordable BMR for–sale units and Regulatory Agreement for BMR rental units to help ensure long–term affordability. To help further preserve the City’s affordable housing stock, the City may consider providing assistance to rehabilitate and upgrade the affordable unit as well.							✓

535. Strategy RPC – 2.2.2. New Facilities. <ul style="list-style-type: none"> Require major developments to incorporate private open space and recreational facilities, and seek their cooperation in making the spaces publicly accessible. Where feasible, ensure park space is publicly accessible (as opposed to private space). Encourage active areas to serve community needs. However, a combination of active and passive areas can be provided based on the setting. Integrate park facilities into the surroundings. If public parkland is not dedicated, require park fees based on a formula that considers the extent to which the publicly-accessible facilities meet community need. 						✓

536. Parkland Distribution. Strive for an equitable distribution of parks and recreation facilities of parks and recreational facilities through the City. Park acquisition should be based on the following priority list. Accessibility to parks should be a component of the acquisition plan. <ul style="list-style-type: none"> High Priority: Parks in neighborhoods or areas that have few or no park and recreational areas. Medium Priority: Parks in neighborhoods that have other agency facilities such school fields and districts facilities, but no City parks. Low Priority: Neighborhoods and areas that have park and recreational areas which may be slightly less than the adopted City’s parkland standard. Private Development: Consider pocket parks in new and renovated projects to provide opportunities for publicly-accessible park areas. 						✓
