CITY COUNCIL STAFF REPORT

April 3, 2018

Subject

All fiscal year 2018-19 projects proposed to receive funding from the Road Maintenance and Rehabilitation Account (RMRA), created by Senate Bill 1(SB 1).

Recommended Action

Adopt Draft Resolution to list all fiscal year 2018-19 projects proposed to receive RMRA funding, created by Senate Bill 1(SB 1).

Description

In order to be eligible for funding for fiscal year 2018-19 from the State's Road Maintenance and Rehabilitation Account (RMRA) created by Senate Bill 1 (SB 1), a list of projects to be funded must be included in the City's adopted budget.

Discussion

SB 1, the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 in order to address the significant multi-modal transportation funding shortfalls statewide. SB 1 is intended to enable cities and counties to better address significant maintenance, rehabilitation and safety needs on the local street system. Maintenance and rehabilitation projects will extend the service life of streets.

SB 1 will generate over \$5 billion annually and \$54 billion over the next decade, split between state and local agencies. The City will receive an estimated \$978,379 in RMRA funding in Fiscal Year 2018-19. Future years will continue to approximate this amount annually.

Built into the act are accountability and transparency measures, including a requirement that cities and counties adopt project lists by the month of May prior to the start of the upcoming fiscal year. Additional requirements include a list of all projects proposed to receive funding from the Road Maintenance and Rehabilitation Account (RMRA) in the City's budget (including a description and the location of each proposed

project, a proposed schedule for the project's completion, and the estimated useful life of the improvement) and year-end reporting on completed projects. For 2018-19, the list of streets that will be resurfaced is:
