### SECTION III

NOW, THEREFORE, BE IT ORDAINED AS FOLLOWS:

That after careful consideration of the facts, exhibits, testimony and other evidence submitted in this matter, the City Council adopts the Rezoning based upon the findings described above, the public hearing record and the Minutes of Planning Commission Meeting of September 4, 2018, and subject to the conditions specified below:

Section 1. The recitals set forth above are true and correct, and are hereby incorporated herein by this reference as if fully set forth in their entirety.

Section 2. The City Council finds the following as set forth by Municipal Code 19.152.020.C:

1. That the proposed zoning is in accord with Title 19 of the Municipal Code and the City's Comprehensive General Plan (Community Vision 2040) and the proposed amendments are internally consistent with Title 19 of the Municipal Code.

*The Housing Element of the General Plan calls for the City to enact a specific plan to permit at least 389 dwelling units in the Vallco Special Area. The General Plan Amendment modifies the Land Use Element of the General Plan to designate late and define development standards that are consistent with the level of development contemplated in the Vallco Town Center Specific Plan. The proposed municipal code amendments would incorporate the Vallco Town Center Specific Plan into Title 19 of the Municipal Code to implement the General Plan and the Vallco Town Center Specific Plan, and therefore the proposed zoning regulations are consistent with the General Plan and other relevant portions of the Municipal Code.*

2. The proposed zoning is in compliance with the provisions of the California Environmental Quality Act (CEQA).

*As set forth above, the City examined the environmental effects of the Project, including the zoning amendments adopted herein, in an Environmental Impact Report (EIR) prepared in accordance with the California Environmental Quality Act. On September 18, 2018, the City Council adopted Resolution no. \_\_\_\_ to certify that the Final Environmental Impact Report ("Final EIR") for the Project; and adopting CEQA Findings, a Statement of Overriding Considerations, Mitigation Measures, and a Mitigation Monitoring and Reporting Program, which Resolution together with the EIR is incorporated herein by reference. The significant environmental effects of the project have been fully analyzed and disclosed in compliance with CEQA. All mitigation measures identified in the Final EIR have been adopted and incorporated into the project to reduce the impacts of new development to the extent feasible. Therefore, the proposed zoning complies with the provisions of CEQA.*

3. The site is physically suitable (including, but not limited to, access, provision of utilities, compatibility with adjoining land uses, and absence of physical constraints) for the requested zoning designation(s) and anticipated land use development(s).

*The sites being rezoned have access to utilities and are compatible with adjoining land uses. To the extent that there are deficient utilities, the City has adopted mitigation measures to ensure that any future development would need to provide the appropriate utilities to accommodate the development. In addition, in connection with the Vallco Town Center Specific Plan process, the site has been analyzed thoroughly to ensure that the site would not constrain future development proposed under this zoning designation. The proposed zoning would implement the Vallco Town Center Specific Plan, which includes development standards to require appropriate transitions from adjoining land uses.*

4. The proposed zoning will promote orderly development of the City.

*The sites being rezoned will promote orderly development in the City by allowing a critical mass of development to be proposed along the City's Priority Development Area (PDA) in which future development is anticipated. This would also allow the easier applicability of zoning regulations adopted under the Vallco Town Center Specific Plan.*

5. That the proposed zoning is not detrimental to the health, safety, peace, morals and general welfare of persons residing or working in the neighborhood of subject parcels.

*The proposed zoning is not detrimental to the health, safety, peace, morals and general welfare since these are conforming changes that are necessary to implement adopted changes in the Land Use Element of the City's General Plan. Additionally, where health or safety impacts have been identified in the Project's EIR, mitigation measures have been identified which would be applicable to any development on these sites.*

Section 3. The City Council approves the following:
