

ATTACHMENT A
BICYCLE PEDESTRIAN COMMISSION INPUT ON
DRAFT PARKS & RECREATION SYSTEM MASTER PLAN
JAN. 16, 2019

Below is an informal account of Bicycle Pedestrian Commission input received on the draft Parks & Recreation System Master Plan on January 16, 2019. It is provided as background information, as official meeting minutes are not yet available.

Comment #1:

Community Gardens are a top priority; the need for them should be more prominent in the Master Plan.

Comment #2:

The Cupertino Loop Trail should be explicitly mentioned as a priority for implementation; this Master Plan should propose facilitating the Loop Trail.

Comment #3:

On Table E-1, under the Civic Center – add language regarding providing trailhead amenities & connections to nearby bikeways and off-street trails (i.e. the Loop Trail/Regnart Creek Trail), similar to the language used for Wilson Park.

Other input:

Safety is important.
