

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

One thing I definitely really like about the Master Plan is the idea to "connect" to nature. This really interested me since Cupertino has really nice scenery, with Foothill in the background, etc., and I think it's really important to implement the idea to "touch" with nature more since it reaches to both families and the community as a whole! Also, more facilities for sports is super helpful for teens as so many would LOVE to come in and just play with a sport in.

What would you change or add to the Master Plan? the facility!

- Maybe watch out for the "balance" → since requests the plan states to have more nature related areas AND creating new facilities → this can cause some problems on how we should be more humanized vs. naturalized...
- Watch out more \$ cost of creating/improving → \$ earned (minimum wage), more job opportunities for teens (interactive and can start at 13).

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

- pg. 37 1.B iv → keep in mind that when planting trees, ^{allergies} and health wise problems. Also, in a few parks → there are many "gaps" like cracks and such (old-age?)
- pg. 37 1.B i → invasive species (but like how would you get rid of them?..)
- 2.D ix → if a potential shuttle service is explored → definitely would say that offices would be a good location need to since this can reduce pollution & vehicles.

You are hereby admonished not to include any personal or private information in written communications to the City that you do not wish to make public; doing so shall constitute a waiver of any privacy rights you may have on the information provided to the City.

BACK

- 2C → when you want more support walking in parks → events like Big Bunny 5k, Heroes Run are such fun and amazing community experiences. I'd definitely say we can hold events including nature and maybe like a 'community' hiking trips?...
- 3B. → how would you get more land as the population grows?
- 3Civ. → definitely implement drop off zones for school (it's totally fine for kids to walk a short distance → as a blob....)
- 4A iv → bit unclear whether you want ~~a~~ the facility / building to be multi-use or would like to spread it AMONGST the community in different/several places
- 4E iv. → when partnering to build new sports field / places → for basketball, they should put lights for the night time. For example, Kennedy Middle has a lot of bball courts & so many people come in and play a lot, but so many would like to play longer but can't, since there's NO lights and it gets dark (especially in the winter).

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

- Considers all populations prevalent in Cupertino
 - More actions taken to help the environment
 - New + better facilities encourages more involvement
- Especially with the inclusiveness, I think this plan would get more people to participate in what they pay for.

What would you change or add to the Master Plan?

- Cost: raising taxes → higher minimum wage → still not enough for the less privileged in Cupertino
- Practicality: disrupts traffic-heavy roads, schools. Build temporary facilities in better locations.
- We should also have more trees in general. There can be more youth-lead projects for this.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

- LB iv, pg 37: Linda Vista may need new paths, cracked and poses a risk for falling.
- LC ii, pg 38: Watering and maintaining flora better will reduce wildfire risk, however I'd like to know more about the impact of droughts and floods on these plans.

You are hereby admonished not to include any personal or private information in written communications to the City that you do not wish to make public; doing so shall constitute a waiver of any privacy rights you may have on the information provided to the City.

2.C ii, pg 44: Perhaps ^{having youth-} shield ^{events with awards}
^{incentives}
should get more people to use the different trails to their fullest extent. ^{er, spread awareness}

On another note, the city should advertise for the 2020 census. This will increase funds and representation for the different populations residing at Cupertino.

4.A iv, pg 50: Intentions are a little unclear. Should there be more facilities that are spread out or almost everything-in-one? I personally think it's better to spread things out. Traffic is a big problem for the latter.

4.C ii, pg 52: Solar-powered heating is a plus in cold weather.
iv, pg 52: Droughts? The fountains in front of the Cupertino library aren't even kept on.

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the attempts to create change in the city & targeting specific groups such as teens & seniors. Some ideas I loved like the rock climbing wall. I liked the focus on community events, & really feel that can be improved in Cupertino. I also really enjoyed the art & painting rock recommendations.

What would you change or add to the Master Plan?

I'm not sure if this is specified, but I would suggest creating a way for high schools & possibly middle schools how to create & host events or to just have spaces with their student ID.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

This is my second one lol.

What would you change or add to the Master Plan?

→ also a quick fix for the badminton would be to update the current sport center's facilities like the badminton space ~~and~~ ~~make it more~~ ~~available~~ next to the Quinlan center.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Since building another ~~Art~~ Art Center would be costly & time consuming, a temporary ~~solution~~ solution would be to add a sound system in the Quinlan center because we had a choir event here & there was only one mic & we brought it ourself ... a struggle

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

To design and develop high quality, high functioning parks and social spaces and to renovate/revitalize the facility.

What would you change or add to the Master Plan?

Add more opportunities for kids/teens to get involved in the changes/development of our parks. Perhaps give them chances to plant/grow trees, etc. in the park.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Happy to see collaboration with other schools in district including De Anza College, ASD, FULTSD, Cupertino Library, and YMCA.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I really liked the multi-purpose gym because my friends and I often have to go far and pay a lot to practice badminton. I also liked the support of community activities, especially festivals, because it's a great way to connect community members. I also like the all-inclusive play area.

What would you change or add to the Master Plan?

I would add to the Master Plan to include more educational programs, teaching the community about topics such as sustainability, plastic pollution, etc. I would also prioritize funding for a gym first.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Y'all are doing good!

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

Focus on environmental issues:

Gardens, nature zones, etc.

What would you change or add to the Master Plan?

Remove most recreational/athletic facilities. Private businesses already offer most of these things, and so do schools, making them unnecessary.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

The \$160-240 bn. price tag for these projects is high.

I think these should be voluntarily paid for/fee operated, instead of being paid for by the taxpayer.

Also, some of the funding plans are definitely flawed. The parcel tax, for instance, is incredibly regressive.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like how the master plan is creating more swimming pools because it is a great way for exercise and it attracts kids/teens. I also like the plan for expanding trails and protecting nature. I've noticed that through all ages people hike and care about nature. I do like nature and I think others do too. (The back page)

I think we could expand the hiking trails so hikers and bikers can share space. I also think swim lessons will encourage people to swim. I also think that public bathrooms should be cleaner and better attended to. (back page)

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

These meetings are good because they hook us in with food and boba. It is a good way to get participation from kids our age. The community hours are also sought after by teens

★ It makes parks and schools look great and it shows that you care about them. It really shows that you are always adding and renovating things to the park. I also think that electronics are a big part of a teens life so vr activities will be good. I think that vr bikes are cool and entertains you while exercising. ~~on the hiking trails~~ we show

★ More trees, plants, lakes, and ponds will make everything look better.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

有

I like how the MP provides a change to make a more completed connection of off-street walkways, which would provide convenience, more space for kids to play, and safer conditions for which kids can play in and pedestrians can walk in. I feel like a complete network would connect the city as a whole and would greatly innovate the city. This would also help with the connection goal of the MP, which means that people would more easily go to the other side of the city and thus easier for them to connect.

What would you change or add to the Master Plan?

As I saw from the MP, the city is thinking about a student-union style or Café-style study center, but I feel like the café-style would be a better choice, as food and drink are available so students could spend a whole day there. I would like to comment that we make a two-floor-center, that way, one floor could be for students who wish to work in groups, and another floor which limits talking and is for those who wishes to self-study.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I would ~~want~~ suggest a bigger library with more floors and more ~~plates~~ chairs and desks for studying and quiet reading. Right now, I go to the library every weekend and can hardly find a place for to sit.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

- empowering youth/teens

↳ more events such as <hacks> Cupertino

appropriate nighttime activities

- environmental sustainability

↳ natural play

What would you change or add to the Master Plan?

it would like more events concerning humanity fields such as the mentioned "mini-art performances".

Since this is a very STEM-based community, I would like to see more un-biased events concerning all fields.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I believe that empowering youth is one of the most important goals but stressing internships and future colleges and careers is too stressful, especially with having that talked about everywhere. There should also be an emphasis and destigmatization of mental illnesses education, especially for students.

* environmental sustainability + financial

↳ enhancement as well

• support of youth (chapter 3, goal 5, objective B)

↳ more events such as <hack> Openmo
- appropriate nighttime events for teens

• year-round aquatic

• performing arts space ←

• multi-use room/gymnasium

→ natural play + natural planting/wildlife

↳ support humanities programs

- incorporate more artistic programs ("mini-art performances")

↳ programs to try out different fields to find "passions"

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like about how they do the best change, help ~~the~~ and protect habitat.

Improve park. Protect the nature give them places to live. Also make the parks better and bigger.

What would you change or add to the Master Plan?

I think it's better to build or having more places for student to study and add more places to relax, for senior or having some more

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Plant more plants, more flower, add ~~more~~ to make our air quality better

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

My favorite part about Master Plan is about the goals. It mentioned about how we want the park to be actually useful to people and let people enjoy the city of Cupertino and our community. We also want high quality systems that provide the best for our neighborhoods. Also these can help some old people in our community to enjoy and relax at the park and give them the best we have.

What would you change or add to the Master Plan? (Here's just some suggestions ↓ X I like the plan very much)

I think maybe in our community, we can add some gyms and some ~~play~~ places for our neighborhoods, also some other ~~study~~ study & places for students to learn.

(Since there's many old people that lives here)

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

• Plant more trees that purified our air quality more. > Green Areas
• Flowers

★ I highly recommend that we can add more street lights in our Parks and on the streets so at night it's easier for people to drive. Or we can change the street light's color from yellow to white, because yellow ~~at~~ always got mixed up with the traffic lights. (* when it turns yellow)

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

~~Like~~ Provide ~~programs~~ programs, events and services ~~that foster~~
Steward resources. There is new Acquisitions. Potential Major New
facilities. Art Facility Recommendation. I like nature Vegetations
too. It makes our city more beautiful.

What would you change or add to the Master Plan?

I think we can add more services for seniors. There
are ~~to~~ too few senior centers because in my neighbourhoods,
there is only three. We can add more species parks and
see more species. ~~At the city~~ Add more plaza for dancing.
add more places for students

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

~~the~~ Plant more flowers to make the city more colorful.
add more restaurants so that they can have meals
more conveniently. Add more students center for relax.
Add

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the connectivity goal. Encouraging other forms of transportation, whether public or walking/biking promotes not only a healthier lifestyle but also provide non-driving teens more opportunities to enjoy the community. I would encourage a city theater space as well, as it provides avenue for independent artists that may be more suitable for a city establishment.

What would you change or add to the Master Plan?

I wouldn't change much, perhaps just provide a performing arts center. We don't have one & I believe it can contribute drastically to the community.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

This all seems good but finding an efficient way to fund beyond taxes may make the process much smoother.

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

The fact it includes everything for the city improvement.
My favorite thing is the trail/b/c that is what I care about
the most.

What would you change or add to the Master Plan?

Add easier way for highschoolers to be involved in the
city of Cupertino. How could I intern or volunteer with the city
over summer? ~~Make~~ Visit schools more so highschoolers
know more about different opportunities for communicate with

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

For the trails, could they have a dirt path along
them. I run XC for HHS and running on dirt is better for
the knees vs. asphalt/concrete

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

Each part of the plan has a list of specific actions, so that we know exactly how each goal will be implemented. I also like that the plan focuses on youth & teen services, which is the age range of most parks/rec users.

What would you change or add to the Master Plan?

Make parks more focused on specific things, instead of just having large open spaces (Add more structures that visitors could use). Also, we need more parks that are spread-out around the city, to accommodate the growing population - located in neighborhood areas?

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I feel as though teen-oriented spaces wouldn't be worth the time and money put into it. Teens wouldn't really use these areas as much, which we can already see in the Cupertino teen center.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the emphasis on ecological preservation, and on school collaboration. I like the focus on activities, and the opportunity to visit the measures. I also like the inclusion of community input in the MP creation.

What would you change or add to the Master Plan?

I would add more areas in Menlo Park to sit. Beyond just the benches, there's not really "private" areas to hang out. I would also like the addition of more focus on environmental opportunity building.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Not really - please hold more youth engagement forums.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the fact that the master plan bring together the idea of community versus society as Cupertino tries to build off of the fact that Cupertino people work together ~~to~~ to make the city better, for example the entire Cupertino city has to work together towards sustainability as they recommend youth and teen volunteering, and internships, and not just everyone going for their own benefit.

What would you change or add to the Master Plan?

This master plan ~~is~~ is really well planned out. Relating to the teen events, I think the Cupertino city should have more ^{and} engaging activities which are nicely marketed.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Maybe have more places for youth engagement, more places for where we can provide our input

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

What I like about the Master Plan is that it focuses on protecting and connecting to nature. I think it is very important for everyone to be able to have access to nature and be able to walk / bike most places.

What would you change or add to the Master Plan?

I would like to add the enhancement of old or worn down parks or trails. Also, I think that there should be more added to the school district collaboration with the community for better school facilities, especially things like renovating school buildings, adding gymnasiums or fields, and adding interactive structures (like playgrounds).

I really would like to see more water play, teen study centers / study cafes, and teen lessons where you can learn how to do something new such as art, homework help, Do you have any other comments? (Please be as specific as possible. Include page numbers if known.) cooling, etc.

I think that a multi-purpose ~~gymnasium~~ gymnasium and a performing arts / fine arts center are the 2 most important new buildings that the community could benefit from. Also I think the most important theme in the master plan is sustainability, nature, and convenience. I think it is important that we are environmentally sustainable and that travel and everyday activities are convenient and ~~be~~ easy for everyone.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like how they connected the environmental protection to the education, let students learn the knowledge about it. The trail and pathway for bicycle can encourage people to do it for activity, in order to lower the CO₂. The new facilities offer different spaces to do sport, I will like to go there and check it out! → NEW!!!

What would you change or add to the Master Plan?

How can you do (advertisement) to appeal the citizen? Maybe some flyers to each house in Cupertino, or letting the ~~teen~~ teen committee and YAB to organize activity in those space → allow more people (citizen) to know these benefit of being a Cupertino citizen.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Everything is great! Keep presenting more info will be awesome!

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the fact that ~~the~~ ^{the} ~~four~~ ^{four} ~~at~~ ^{at} ~~no~~ ^{no} ~~element~~ ^{element} of the master plan is teen and youth empowerment. Coming from a teen, it would be very great to have more teens' voices shine. Furthermore the experience would be amazing as it would help be prepared for future endeavors.

What would you change or add to the Master Plan?

~~the~~ I love the amount of effort put into youth empowerment but I wish there would be more promotion and awareness about the presence of a teen center. I actually did not know a teen center existed until today and so, more awareness about it would be great!

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I really like the effort going into this plan. It's great ~~that~~ to see that such an important plan is being carried. I also really like the fact that a cafe-style activity center would be implemented as many times places like the library are completely occupied and an area for teens would be a welcome.

Along with government involvement, I really wish there would be more about improvement to teen mental health. It's a real problem in our country. I hope the Cupertino and San Jose area things to implement more mental health related services would be great.

More recreation facilities I really think a near long swimming pool would be absolutely amazing.

More parks would also be amazing as Memorial Park is on my list to go to, but more of it would be awesome. I do really wish more awareness and promotion about this master plan would take place because I think I didn't know at all that a master plan existed and so it would be awesome. I think the plan would get a lot more unexpected guidance in such a primary and essential plan. (more awareness about the website as well would be awesome!)

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

Empowering young people and increasing education about nature ~~and increasing education about nature~~
 More resources for seniors (65+)
 Connecting people to nature w/ more access of bikes and ^{less use of cars}

What would you change or add to the Master Plan?

* More education about sustainability at a young age to allow for students to ~~start~~ develop green habits.
 * More cultural programs embracing different kinds of people
 * Allowing more volunteering ~~and~~ activities and connecting to internships

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Goal 5 section 5B ~ Students really need more, easy places to study during finals or for classes
 ~ catering to this and creating events city wide or discounts at certain locations could bring in more business for local locations (students ~~are~~ are a great source of ^{although it's great to hold social events,} money)
 although it's great to hold social events, holding more study areas is WAY MORE beneficiary

You are hereby admonished not to include any personal or private information in written communications to the City that you do not wish to make public; doing so shall constitute a waiver of any privacy rights you may have on the information provided to the City.

Goal 5, 5.A ~ there are clubs ~~in~~ ^{which} might need ~~places~~ ^{places} to hold events for and sometimes it can be difficult to ~~find~~ get available timings for them, making it more accessible might be beneficiary

Most important.

→ Goal 7: sustainability

→ I think this is THE most important goal out of ~~all~~ all the goals, especially considering our given situation. I love that there's focus on this ~~but~~ goal.

Overall comments

I didn't know myself that the city would provide these many facilities and already have. I greatly appreciate the work being done and will utilize them as much as possible.

Ways to Increase Money:

~ more activities ~~for~~ for senior citizens and students.

~ ~~more~~ more awareness about citywide events and activities

~ utilize social media

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the inclusion of swimming facilities and trail corridors designed in parks. Water play at parks would be so much fun. Neighborhood event space would be great to bond neighbors.

What would you change or add to the Master Plan?

I would some instructions for exercise, comfortable space for both animals, wild and owned. Biking trails separately would avoid bikers running into pedestrians.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

New parks can entice people to go outdoor more often. Linking Rancho San Antonio to Stevens Creek Boulevard would make it easier for people to go hiking.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like that there was a vision and a mission as part of the planning process. It's important that this is the first ever Master Plan and that it is organized into 7 different goals. I particularly appreciate the goal of sustainability. It's great that youth & teens were given attention in the Master Plan.

What would you change or add to the Master Plan?

Major
More information about "Potential New Facilities," like the year-round Aquatics facility, a big Arts Facility/theater, and the Gymnasium. More possibilities like this are exciting and would be warmly welcomed. More ~~open~~ ^{teen} space would be great too (study spaces, etc.).

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

The Natural Vegetation Enhancement seems interesting, but would the increase and advancement of technology ^{and nearby companies} contradict with this? Do you have any ideas of how to raise funds about the new major potential facilities? (other than raising taxes? What does the city usually do to raise funds?)

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the focus on youth (specifically volunteering & internships, as I know that this is something teens are constantly searching for). I also think that the relocation/reconstruction of the Tech Center is a good idea. I like the idea of having community gardens & environmentally focused events/features. Elementary schools could have children plant ~~the~~ ^{environment-helping} flowers & plants/vegetables in the parks.

What would you change or add to the Master Plan?

For parks - the installment of exercise machines - in Asia (specifically Korea), almost every park has stretching/exercise machines (not run on power) that people of all ages use to stretch & exercise. For teens - the creation of a cafe/study spot would be an excellent idea.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I think that water play/lights are a very good idea - I know that children enjoy the fountains in front of the library. It would be great to have multiple scattered across the city.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like first that the city is looking for teen opinions! I like the idea of connecting young people to internships etc. As a swimmer, I know that many people would enjoy an aquatic facility - it is a good idea. A study space would be nice - often times the library feels crowded, loud, so having a new study place would be nice.

What would you change or add to the Master Plan?

~~Maybe there could be programs where students are educated about nature [elementary school students] in the parks next to their school [ex: Collins and Portal]. Currently those programs are primarily in blackberry farm area...~~
Maybe there could be programs where students are educated about nature [elementary school students] in the parks next to their school [ex: Collins and Portal]. Currently those programs are primarily in blackberry farm area...

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

*I think that memorial park could use some upgrades, as it is the heart of the city. Currently ~~there~~ there is a large area that used to have water that could be changed.
* While I am not sure if the bike/walk ~~and~~ path are parks and rec I believe that the city should put a considerable amount

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I appreciate the idea of youth/teen's involvement because that would be very beneficial to many students. I really desire a performing arts center. ~~There is~~ There is a huge desire and need for studying space and so many student would love more teen orientated areas to set work done. Though this would be a large investment, it is very well appreciated.

What would you change or add to the Master Plan?

I would add more specific information on what internship or volunteer opportunities the city would be able to offer. A ~~variety~~ variety of opportunities ~~would~~ would be valued by the teens ~~(especially those just exiting high school)~~ (especially those just exiting high school).

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

The presentation highlighted a study area but, not much information on where that would be located and how that would be pursued. The prioritization of student study areas or involvement would be well appreciated by many.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the conservation part of the plan, as me and my family & friends love going out to nature and enjoying the environment. I also love how youth & teen empowerment is one of the goals, because I believe every youth has a voice and often it is overlooked so this is a very good goal. I like the Art Facility! ^{& gymnasium} ~~the~~ Sport center! I like the teen space.

What would you change or add to the Master Plan?

We seen a lot of sports but I feel like a badminton center or a portion for badminton is lacking, and often in order to play many ppl have to drive far away and pay a lot, I like this idea ^{of gymnasium}, but make sure it has badminton.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I like all these ideas! I hope they will be implemented!
I feel like the facilities, Art & sport center, ~~and~~ & teen space are really good & would greatly benefit the community. I feel like these facilities will in turn bring \$ back to the city and eventually break even w/ the costs.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

~~15~~ 15 yrs- old
Cupertino High

What do you like about the Master Plan?

I like the general goals of the Master Plan - I think the focus of preserving nature is very important in a city with such a high-tech, modernized feel. The focus on supporting teen opportunities (such as field trips / college ~~help~~ / etc.) is a good look to me, on top of looking to create a teen ^{app help} space. Improving parks and making them more walkable / generally available is important to me as well.

What would you change or add to the Master Plan?

I was just concerned about the overall cost of this Master Plan to the average taxpayer. Perhaps the city could privatize certain parts of the plan (not all, just certain sections) in order to benefit the City financially. On top of that, I don't have many concerns other than the total # of people who would use the more niche items on the plan.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Assuming a "teen space" gets developed, what would happen to the Teen Center?

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

- more walkways and bikepaths so people can walk and bike more places instead of using the car.
- more events to bring community together and get more involvement from all age groups.
- renovate major facilities (high functioning / sustainable)

What would you change or add to the Master Plan?

- new spaces like a city indoor swimming pool, cricket court and sports fields for year round use. • performing arts space!!
- renovate teen ~~sp~~ center in Cupertino sports center; make it more tech savvy and modern.
- have more restaurants/cafes for teens to study and hangout.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

- a lot more indoor recreation space like indoor swimming pool, multiuse gym, performing arts center etc.
- more events like Shakespeare in the Park but year round
→ like something over Christmas break
- kitchen/snacks in teen center.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like that the master plan tries to involve teens exercise-wise
as personally I don't know many places near my home where kids
can go out to hang out! A I really like the idea of connecting
youths to internship opportunities because I know how many
people would be interested in getting those

What would you change or add to the Master Plan?

I would like for the city to interact more than
it already does with teens such as events, advisory
lessons, etc. I feel many teens would be better
exposed to the opportunities they have as teens in Cupertino to
change their community (I feel right now most teens
aren't aware of the facts)

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I would really like to see more parks / basketball hoops
for kids / teens to hang out in, I feel a lot of people
would love this inclusion.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

Master Plan goals are ^{of} very good ^{intention} and ^{is} ~~applies~~ ^{reasonable} for the Cupertino community. Master plan also considers the senior citizen community. I like how new bike trails are being added, the arts facility and neighborhood event space.

What would you change or add to the Master Plan?

I would add more water play areas because currently there are only 2 water play areas in Cupertino. I would also like the Teen Center to be re-located to an easier and accessible location. More bike trails especially to get to and from school easier.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

An indoor swimming facility is a good idea, also an indoor sports facility.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like how we're able to involve the community and how sustainability is being taken into account. seeing that schools are being worked with is great to hear as those are popular facilities.

What would you change or add to the Master Plan?

One important ~~th~~ element that should be emphasized more is safety and how we can protect those using the facilities or commuting esp. through bike safety and path orientation. could more be done in partnership with FVHSD schools?

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

How can teens stay updated with the changing plan and actions being taken by the Parks and Rec commission?

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

Master plan not only considers about the citizens of ~~the~~ Cupertino, but also looks at the environmental effects as well. Master plan is also very organized and easy to follow. Each goal has a great reason and definitely seems doable in our community. Pictures also enhance the experience while reading the master plan.

What would you change or add to the Master Plan?

While there are many, many benefits that can be gained in this plan, I think that it doesn't really focus on safety. Of course, safety is important, but it isn't really targeted ~~in~~ in the master plan. Trails are again, mentioned, but hiking trails really should be put out there more. Both students and adults need trails to get to school/work or to just relax.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Great to see that you guys really target all ages in our community. I see services given for children, teens, adults, and seniors. While some of the events in the plan seem "big", I truly think that Cupertino will be able to achieve these goals in the future. But how will you inform the community about updates or changes in the plan?

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/20/19

Cupertino.org

What do you like about the Master Plan?

It will improve the facilities at parks. I like that young guys are trying to improve the teen community. Don't forget about teen's age gaps.

What would you change or add to the Master Plan?

I would add age difference because ~~15-17~~ 15-17, towards highschool may need more attention. I would stick to outside pool.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I would add more parks east of Cupertino. Parks are not scattered right.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

Open space & trails. Bike & ped friendly
Walkable plan
Aquiric Parkland ALL over CITY 3 acres per 1,000
Smaller events in all parks

What would you change or add to the Master Plan?

make sure plenty of shade
inclusive events
Adding more parks

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

make sure all new bldg in Eastside of
city gets park included in all growth.
Open space & community parks
Eastside is lacking. Make sure \$ collected
from new development stays in project - make them
add it in. Load park events in all parks 1st
Summer

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

Enhancing Parks
Programs in all parks
Sustaining Ecology walkability
Inclusive playgrounds
Dog park area in more parks

What would you change or add to the Master Plan?

Teen Center not used much so putting
money into it may not be a good idea
Keep as is - can get there by bus or bike

Facility Inventory sheet shows how little acres some
parks have on valley side of city

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Basketball courts are good
Exercise circuits would be good at Wilson
they have enough room

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like the idea of ~~be~~ improving the nature centers & educating children + teens about it because in the these new generations kids tend to get quite distracted with technology and not generally have any interest to learn about it. Encouraging them to be interactive with nature will help new generations be aware about their surroundings.

What would you change or add to the Master Plan?

~~The Teens cc~~ A new Teen center is quite unnecessary because most teens go to the library are quite busy with their lives already (sports, clubs, etc). In addition, most teens don't have efficient transportation to these centers. Most teens hang out at boba cafes, library & many other places already.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

Rebuilding parks is quite unnecessary. Most have playground or picnic area.

CITY OF CUPERTINO

Parks & Recreation System Master Plan

Youth Civic Engagement Forum | 1/22/19

What do you like about the Master Plan?

I like introducing nature and keeping our parks clean, and introducing wildlife

What would you change or add to the Master Plan?

the teen center seems like it will not be used because we have the library, starbucks, pizzeria etc.

Do you have any other comments? (Please be as specific as possible. Include page numbers if known.)

I think we could make certain parks more suited for babies.
