### CITY COUNCIL STAFF REPORT

Meeting: May 19, 2020

#### Subject

Set a hearing date of June 16, 2020 to declare a public nuisance and for objections to proposed removal for the Cupertino Brush Abatement Program (Wildland-Urban Interface Fire Area); and adopt a resolution declaring properties as having potential fire hazards from brush.

#### Recommended Action

Adopt the Draft Resolution declaring properties as having potential fire hazards from brush; and set a hearing date of June 16, 2020 to declare a public nuisance and to hear objections to proposed removal.

#### Discussion

The Cupertino Brush Abatement Program is a separate program from the County Weed Abatement Program that works to protect the City from wildfire risk by reducing potential fuel, such as brush, for hillside areas. This program is managed by the Santa Clara County Fire Department. Cupertino Municipal Code Section 16.40.320 requires property owners in the locally adopted Wildland-Urban Interface Fire Area (WUI) to maintain effective defensible space by removing brush, flammable vegetation and combustible growth when required by the fire code official due to steepness of terrain or other conditions. All properties in the WUI area are subject to the requirements of the Brush Abatement Program. It also authorizes the County to remove the brush if the property owner doesn't and to recover the cost of abatement.

In January of each year, homeowners are reminded that they must remove native brush and vegetation from around their home to create defensible space. The brush abatement program entails inspections of hillside properties by fire crews beginning early April each year. If properties are found to not be in compliance with the regulations found in the California Fire Code relative to vegetation clearance they are given notice of the violation. If compliance is still not achieved by approximately the end of June each year, a contractor is authorized to perform the necessary work. The costs associated with the abatement work are then placed on the property tax bill for that parcel.

Sustainability Impact

None.

Fiscal Impact

None.
