

Local COVID-19 Relief Programs From Your Community-Choice Energy Provider

Customer Relief - \$3.5 Million

SVCE will provide immediate relief to qualifying residents and businesses financially impacted by COVID. Income-qualified CARE and FERA* customers will automatically receive a **\$100 bill credit** and qualifying small businesses will receive a letter in the mail indicating how to apply for a **\$250 bill credit**.

Contractor Workforce Relief \$1.5 Million

In addition, SVCE is developing an online contractor training program to provide tools and resources that expand all-electric technology knowledge among the contractor community. Local contractors, apprentices, and journeymen will be eligible to receive a **\$500 financial relief stipend** upon completion of the training program.

Community Resilience - \$5 Million

SVCE will provide funding for regional energy resilience planning and deployment to prepare for anticipated involuntary power supply shutoffs. This program will support local clean energy job creation, community resilience, and local air quality improvements.

*Electricity Discount Programs for Qualified Customers

In light of COVID, access to CARE and FERA monthly electricity discounts of 18% or more have been expanded. SVCE encourages customers who have been affected by the pandemic to learn more at the [PG&E CARE](#) and [FERA website](#).
