

## Key - Park Descriptions

	Vision/Focus	Recent/Planned Improvements	Immediate/Short Term Opportunities
<b>COMMUNITY PARKS</b>			
<b>Memorial Park</b>	Community hub and multi-use, civic-focused event space.	The tennis courts were resurfaced in 2017. Landscaping in front of Quinlan was renovated in 2018 with drought tolerant planting and drip irrigation.	Consider repurposing the inactive pond, renovating the amphitheater, adding walking path improvements and playable feature, enhancing the tree canopy, integrating natural features, expanding recreation facilities to enhance indoor and outdoor event space, community gathering space, active/healthy recreation uses and play opportunities.
<b>Stevens Creek Corridor Park</b>	Community-focused natural area supporting environmental education, outdoor gathering and recreation consent with protecting wildlife and habitat value.	Replastering of the pools, a feasibility study is funded to identify alternatives for improving pedestrian and bike access at the San Fernando entry.	Complete the Stevens Creek Corridor Master Plan, enhance natural/habitat areas and facilities supporting environmental education, gatherings and recreation uses. Provide connections to the Stevens Creek Trail.
<b>LARGE NEIGHBORHOOD PARKS</b>			
<b>Creekside Park</b>	Neighborhood recreation and sports hub.	The restrooms were renovated in 2018. Unused turf was recently replaced with drought-tolerant plants and drip irrigation.	Nature play and/or inclusive play elements, enhancements to recreation diversity, enhance recreation building and reactivate or repurpose the concession area, sustain existing uses.
<b>Hoover Park</b>	Neighborhood park and recreation and sports space.	No currently planned improvements. Within the last 5 years, new benches and picnic tables were installed, trees were planted around the play structure and a walkway to it added, drought tolerant plantings and drip irrigation installed, as well as trees and more efficient irrigation.	Sustain existing use
<b>Jollyman Park</b>	Neighborhood and community hub for sports, recreation programs and activities.	Accessibility upgrades were added in 2018 at the north playground as well as a walkway to the south playground from Stelling Rd. A drinking fountain with water bottle filler was added in 2018. An inclusive playground project has been approved. Benches were recently added, the fence at the Sterling Rd. entry replaced and extended, and trees planted in the southwest part of the site.	All inclusive play area, grouped seating, picnic shelter, all-weather loop path (including east side of the park), neighborhood-serving event utilities and infrastructure, sustain existing uses, DOLA.
<b>Linda Vista Park</b>	Neighborhood and community hub for picnicking and nature-based recreation.	No currently planned improvements. Within the last 5 years, new benches and picnic tables were installed, trees were planted around the play structure and a walkway to it added, drought tolerant plantings and drip irrigation installed, as well as trees an	Select design concept to repair or repurpose the inactive ponds. Sustain existing uses.
<b>Monta Vista Park &amp; Rec Center</b>	Neighborhood recreation and sports hub.	The tennis courts were resurfaced in 2017.	Consider temporary options to expand play opportunities near preschool. Consider restriping tennis courts to share for pickleball, explore opportunities to relocate or expand gymnastics/martial arts and preschool programs to other facilities, sustain existing uses.
<b>Portal Park</b>	Neighborhood park and gathering space.	No currently planned improvements. The concrete area behind the recreation building was recently improved.	Improve walkway lighting and signage, explore options to share adjacent school parking, sustain existing uses.
<b>Varian Park</b>	Neighborhood park with tennis, passive recreation, orchard and habitat focus.	The tennis courts were resurfaced in 2017. Minor accessibility upgrades to the entry were constructed in 2017.	Consider expanding or replacing play area with nature play or thematic inclusive play elements, consider restriping tennis courts to share for pickleball, consider other enhancements for recreation diversity, sustain existing uses.
<b>Wilson Park</b>	Neighborhood and community hub for sports, recreation and activities.	Drought tolerant and native plantings with drip irrigation were recently installed.	Consider adding neighborhood-serving event utilities and infrastructure, picnic shelter, and a large/full size basketball court. Sustain existing uses.
<b>SMALL NEIGHBORHOOD PARKS</b>			
<b>Canyon Oak Park</b>	Play node for local use.	No currently planned improvements	Maintain orientation to the view of open space. Sustain existing uses.
<b>Franco Park</b>	Neighborhood park	No currently planned improvements. Park is less than 10 years old.	Sustain existing uses, consider adding shade and small group seating, improve pedestrian and bicycle access from Franco Court, evaluate possible on-street parking and crosswalk to Franco Court access point.
<b>Little Rancho Park</b>	Play node for local use.	No currently planned improvements.	Sustain existing uses.
<b>Somerset Park</b>	Neighborhood park	No currently planned improvements. Trees and planting were recently added throughout the park.	Sustain existing uses.
<b>Sterling Barnhart Park</b>	Play node with trail connection	No currently planned improvements. Trees were recently planted along the frontage, and a concrete walkway and mowband added.	Sustain existing uses, consider effects of an extension of Saratoga Creek Trail or the acquisition of Lawrence Mitty property.
<b>Three Oaks Park</b>	Neighborhood park with nature emphasis.	No currently planned improvements. Additional benches were recently installed.	Sustain existing uses.
<b>SPECIAL USE SITES</b>			
<b>Civic Center/Library Field</b>	Multi-use civic area for green space, recreation, and gatherings.	A storage area for sports equipment was installed in 2017. A design for a trail along Regnart Creek is in preparation. Adjacent landscaping at City Hall was renovated in 2017 for turf reduction and to showcase drought-tolerant plantings. The interactive fountain was re-opened in 2017.	Sustain existing pending uses pending decision on implementation of Civic Center Master Plan and cricket field long-term location. Consider creating a separate parcel for Library Field and rezoning it as PR zoning.
