---

Hello Joanne / Whitney,

Here is my input and I thought of doing it exactly at 11.59 but wanted to give some buffer

Quick summary:

1. Wherever there are two options (like Garbage/Recycle bins), I try to give score for both as there are two distinctive items but if you need a combined score, I have also provided it for your easy use.
2. Almost all the water fountains in every park needs repair (water not flowing), paint, remove/replace where it is fully rusted.
3. Hydration station : Only park has the latest one is Jollyman park and I would love to have the similar one in as many parks as we can especially with highly dense, used areas.
4. All the play structures have to be cleaned and painted.
5. Many benches in Portal park are in a real bad shape and need to be painted or maintained.
6. Tennis court was not in the optional area and so I have added them as I encountered few residents who were asking exactly the same in Creekside and Wilson parks.
7. Wherever there is a tennis court, there is a possibility of pickleball striping and so, only called out those

thanks

-Gopal

**Subject:** Due Today - Strategic Plan Evaluations

Dear Commissioners (Bcc'd),

This is a reminder that per your discussion at September 3, 2020 Parks and Recreation Commission meeting, evaluation forms for the strategic plan implementation are due today by 11:59p.m.

If you have not done all evaluations, please submit any that you have completed by tonight's deadline. I will respond to let you know your evaluations have been received and will keep record of when all items are received.

Please let me know if you have any questions.

Sincerely,

Cupertino Logo

**Whitney Zeller**

---

Hi Joanne

Please find attached my eval sheet. I have also provided below some explanations for the changes I have made to the sheet, more for documenting my thoughts so that when we have a discussion, it will help me remember why I scored it as such.

regards

Sashi

I have made the following changes to the spreadsheet to ensure I can accurately capture my observations:

- On the Rec & amenities tab
  - I changed the Hydration stations(column title to Hydration station/Water fountains
  - I have provided evals for garbage and recycle bins. So, in many places, we can just add recycle bins, or if the recycle bins are like those in the civic center areas, we might want to add only 1 3 bin structures in small parks and perhaps have 2 each in all the big parks close to the picnic areas.
  - I have rated benches separate from picnic tables, As I believe with a blanket and shade you can picnic on the grass as well.
  - Some parks need shade but not necessarily as trees, since there may not be space. Some small parks could use some umbrellas
  - Outdoor table tennis does not work in my opinion as the tables have to put away in the rainy season. But table tennis tables can be placed in rec rooms and therefore I have marked them as a number with a star associated only with those parks that have a rec room.
  - MM/IS/C/EE – stands for Mile Markers, Inclusive Swings, Cornhole, Exercise Equipment
  
- On the DOLA gardens tab
  - On DOLA Monta vista Park, portal ad 3 oaks don't qualify for DOLA in my opinion as they have smaller grass areas and it is better for maintaining the parks for humans, even though, these are listed on the master plan.
  - Satellite gardens also cannot be in every park although it is listed in the master plan. All those on the west side can go to McClellan Ranch or Hoover and those

on the east side of town can go to Creekside, Wilson, or Portal.

- I changed the column title from basketball courts to Basketball hoop and tennis courts. We cannot have an entire basketball court in parks, but we can have hoops that are consistent with other parks that have them. We also must have tennis courts on the east side as there are no parks with tennis courts there. One person specifically asked for shade, DOLA, and tennis courts when I went to evaluate the park.

Other observations:

- If we are adding water fountains especially in those parks that have DOLA, we must add a water fountain similar to the one in Sterling Barnhart.
- The playgrounds in the following parks could use a coat of paint – Creekside, Park Monta vista Park, and Portal park.
- Franco does not even have 1 water fountain
- Hoover has no BBQ pits
- Somerset has a Basketball pole and but no hoop.

Hi Whitney -

Here is my review of the Cupertino Parks Systems. I also outlined the parks that I thought would be best for the long term strategic plan objectives as well. If it's confusing lmk and I'll add it as a separate attachment.

Best,  
N

---

My form is updated.

For Stevens Creek corridor park, I saw some old picnic tables at the trail head by McIlleland. Not sure if they are usable. There's some construction there, maybe that area is not ready to use? For other benches and table, they are old but still ok. It seems the trail is long, and people may need more garbage cans are around the trail head. Maybe need extra one or two mid-way.

The park was divided in to relatively isolated spaces by trees naturally. So, I guess some area in the park may be a good option for DOLA.

Regards,  
Minna
